Black & White Ice Cream Pie

1 cup milk
1 cup heavy cream
1 package vanilla freezing mix
½ cup chocolate cookie crumbs

Cover bottom of refrigerator tray with cookie crumbs; reserve about 2 tablespoons to sprinkle over top. Combine milk, heavy cream. Whip in a deep bowl until a deep layer of foam forms. Takes 1 to 2 minutes. Add contents of package of vanilla freezing mix. Whip 1 more minute to dissolve. Pour into cookie lined freezing tray, spreading evenly. Sprinkle with remaining crumbs. Freeze until firm. Mellow in refrigerator until soft enough to cut into pie shaped wedges. . . Makes 6 servings.

Ice Cream Tarts

4 — 6 aluminum pans
1 cup milk
1 cup heavy cream
1 package strawberry freezing mix
⅓ cup strawberry preserves
½ cup heavy cream, whipped

Combine milk, heavy cream. Whip in a deep bowl until a deep layer of foam forms. Takes 1 to 2 minutes. Add contents of package of strawberry freezing mix. Whip 1 more minute to dissolve. Pour ice cream into pans. Swirl a tablespoon of strawberry preserves through ice cream in each pan, or use as a glaze over top of ice cream. Pipe whipped cream around edge and cover pans with lids. Freeze until firm. Mellow in refrigerator for ½ hour before serving.

Bisque Tortoni

8—10 paper baking cups
1 cup milk
1 cup heavy cream
1 pkg. vanilla freezing mix
1 tablespoon rum extract
Chopped nuts
Cherry halves

Put paper baking cups in muffin pan. Combine milk and heavy cream. Whip in a deep bowl until a deep layer of foam forms. Takes 1 to 2 minutes. Add contents of package of vanilla freezing mix. Whip 1 more minute to dissolve. Stir in rum extract. Pour into paper baking cups. Sprinkle with chopped nuts and decorate with a cherry half. Freeze until very firm. To store, remove from muffin pan when frozen. Wrap each tortoni in aluminum foil.

Freeze Pears For Winter

It's true! Fresh Bartlett pears can be frozen. Try freezing them this summer to give your family orchard-fresh fruit the year 'round.

Select quality pears, ripe but firm. Wash in cold water, peel and core; cut in quarters or eighths. Work quickly with small amounts and pears will keep their creamy color.

For the syrup, combine 1½ parts sugar to 2 parts water. Bring to a boil. Heat pears in boiling syrup for 1 to 2 minutes, depending on size of pear pieces.

Drain, spread on tray and cool quickly before a cooling fan or in refrigerator.

Pack pears into containers and cover with cold syrup to which ascorbic acid has been added (¼ teaspoon to each cup of cold syrup, mix in gently).

Place crumpled cellophane on top of pears to hold them beneath the syrup. Seal, label and freeze. Delicious for a fruit dessert, in salads or glamorous fruit cups.
