Cosmonaut Opens Visit

TOKYO (AP)—Soviet cosmonaut Yuri A. Gagarin said Monday Soviet space research "is developing rapidly and a trip to the Moon may come about sooner than expected, possibly within five years from now."

The 28-year-old Soviet major, the first human space traveler, made this statement in an airport press conference shortly after arriving for a nine-day private visit to Japan.

Gagarin was greeted by about 2,300 flag-waving leftists at Tokyo International Airport and a handful of rightists who shouted over loudspeakers "Gagarin go home!"

Gagarin and his wife, Valentina, were accompanied by a Soviet air force general, two members of the Supreme Soviet and seven Soviet newsmen.

Japan is the 30th country Gagarin has visited since his space flight.

Critics Pick Top Movies

SEATTLE (AP)—The nation's film critics apparently consider the 1930s the golden age of American moviemaking.

The World's Fair announced the results of a poll of 292 critics to select the 14 best American film for showing July 2-8.

The oldest, "Birth of a Nation," was made in 1915. The most recent, "Seven Brides for Seven Brothers," dates to 1954.

The others were: "The Gold Rush" (1925), "All Quiet on the Western Front" (1930), "Anna Christie" (1930), "I Am a Fugitive From a Chain Gang" (1932), "It Happened One Night" (1934), "David Harum" (1934), "Gone With the Wind" (1939), "The Wizard of Oz" (1939), "Wuthering Heights" (1939), "Citizen Kane" (1941), "Sunset Boulevard" (1950) and "Shane" (1953).

Opera House Gets Funds

NEW YORK (AP)—A \$500,000 gift for lighting of parts of the new Metropolitan Opera House in the Lincoln Center of the Performing Arts was announced Sunday. It was given to honor the electrical engineer who installed the first incandescent lights in any opera house in the world.

The donation by the Charles and Rosanna Batchelor Memorial Inc. was in the memory of Charles Batchelor, who in 1881 lighted the grand foyer of the Opera of Paris with Thomas Edison's electric light bulbs.

The grant was the first received since the center started its \$28.6-million completion drive last week.
