Steel Stocks Drop Sharply As Republic Cuts Dividend

NEW YORK — The stock market closed lower Tuesday as the steels paced the decline in moderate trading.

A dividend cut by Republic Steel, although generally expected, seemed to trigger the retreat of major steelmakers. Republic and U. S. Steel dropped more than a point apiece.

Prices continued irregularly higher on the American Stock Exchange in moderate trading. Corporate bonds were up slightly and U. S. governments declined.

Anti-Charter View Lacking For Pamphlet

With time drawing short, no one has yet come forward to write an argument for publication in the Oregon Voters Pamphlet opposing the Lane County Home Rule Charter measure.

The charter will be published in the pamphlet, which will be mailed to all of the county's registered voters this fall.

The county has offered to pay for one-page arguments for and against the proposal.

County Clerk Olga Freeman announced this opportunity earlier but she said Monday afternoon that to date no one has offered to write the negative argument. The material must be in the Oregon secretary of state's office by 5 p.m. standard Thursday.

Mrs. Freeman appointed attorney Robert Moulton and Mrs. Harland Clark to write an explanatory statement to be published with the charter. These two selected Springfield attorney Edward Harms to assist them.

The committee that drafted the charter proposal asked and was given permission to write the pro-charter argument.

Summer Job Ideas Urged

Kits of material suggesting ways to help young people find summer jobs have been sent to each county by the Governor's Committee on Children and Youth.

Winfield Atkinson, principal of Frances Willard elementary school in Eugene, is the recipient for Lane County.

The kits urge the establishment of local organizations to promote jobs for youth. They provide various materials to aid

the operation of such an organization.

Atkinson said Monday he intends to speak with representatives of the Eugene office of the State Employment Service about any possible project in Lane County.

The material concentrates on the need for jobs for persons aged 14 to 19. A fact sheet says there are approximately 197,000 Oregon citizens in this age group.
