

Mboya to Ask Ellender Ban

NAIROBI, Kenya (UPI)—Political Leader Tom Mboya said Wednesday he would ask the government to make Kenya the third African nation to exclude Sen. Allen J. Ellender, D-La. Ellender was scheduled to lunch today with Jomo Kenyatta, once jailed by the British as a Mau Mau terrorist and now leader of the Kenya African National Union (KANU).

The senator arrived at Dar-Es-Salaam Airport in Tanganyika for a stopover Tuesday, only to learn he had been banned from entering the country. Monday he had been banned from Uganda.

All the actions were taken because Ellender told a news conference in Salisbury, Southern Rhodesia, last week that "the average African is incapable of leadership except through the assistance of Europeans."

Congolese Claim Control Of Kongolo

LEOPOLDVILLE, The Congo (UPI)—The central Congolese government Wednesday claimed capture of the north Katanga town of Kongolo, where about 1,500 gendarmes loyal to Katanga President Moise Tshombe had been holding out since February.

Gen. Joseph Mobutu announced his central army troops penetrated the town last Friday and that it is now under his control. But diplomatic circles here thought it likely the Katangans still held the section on the east bank of the Lualaba River.

Two spans of a 500-yard road and rail bridge linking the two parts of the town have been blown into the river, and it was believed the Leopoldville troops controlled only the main part of Kongolo and the airfield on the west bank.

Kongolo, scene of the massacre of 19 Roman Catholic priests and two other Europeans by drunken central army soldiers in January, was recaptured a month later by Katangan armed forces.

Capture of Kongolo could help to bolster Premier Cyrille Adoula's Leopoldville regime in the face of strong parliamentary opposition attacks.

Rare Book Sold

NEW YORK (UPI)—A copy of the rare first edition of Lewis Carroll's "Alice's Adventures in Wonderland," published in 1865, was sold at Parke-Bernet Auction Galleries here Tuesday for \$18,000. Lew David Feldman, a book dealer, was top bidder for the volume, which was inscribed by the author to his friend Thomas Vere Bayne.

Nehru Tours Border Area

Premier to Confer With Army Chiefs

NEW DELHI, India (UPI)—Prime Minister Nehru flew to northeast India Wednesday for talks with army commanders and speeches to the population recently threatened by the Chinese Communist invasion.

Nehru was accompanied on the two-day trip by Defense Minister Y. B. Chavan and several generals from army headquarters in New Delhi.

The party stopped first at Guwahati, in Assam. They were expected to fly later to Tezpur, headquarters for the troops facing the Chinese Communists.

At Guwahati, 70 miles down the Brahmaputra River from Tezpur, Nehru told a public meeting the people of north-east India had stood up well to the Chinese threat.

He warned the country faced a long struggle against the Chinese aggression. He said the five-year plans for economic development will continue despite the defense effort.

While in Tezpur, Nehru will check on whether the Chinese are carrying out their promise to withdraw their invasion armies behind the McMahon Line frontier.

There has been no official announcement on the situation since Nehru said Monday the Chinese appeared to be thinning out their troops but were not withdrawing advance units.

BPA Plans Announced

PORTLAND (UPI)—An estimated \$29 million construction program for the calendar year 1963 for Oregon, Washington and Western Montana was announced Wednesday by the Bonneville Power Administration. This compares to expenditures of about \$25 million this year.

Contract construction being scheduled totals about \$7.5 million, nearly double the \$3.7 million scheduled during the current year.

Contract work next year is expected to include issuing of invitations to bid on 288 miles of right-of-way clearing estimated at \$3 million, 248 miles of transmission line construction, \$3.6 million and 20 substation additions, \$802,000.

Most of the rest of the \$29 million is for materials and equipment.

ALVARO ALSOGARAY
Minister Resigns

Inflation Still a problem

Argentine Economic Minister Resigns

BUENOS AIRES, Argentina (UPI)—Economic Minister Alvaro Alsogaray gave in to week-long pressure Tuesday night and tendered his resignation, charging that divisions in the government balked his campaign to hold the line against inflation.

The threatened departure from the government of the controversial 48-year-old economist—along with his entire economic team of 20 senior officials—promised yet another political crisis.

Unconfirmed reports said Rear Adm. Carlos A. Kolungia also had resigned as Navy secretary.

President Jose Maria Guido neither accepted nor rejected the mass resignations immediately. He told Alsogaray he would start a round of consultations—beginning with the military leaders of the government—Wednesday.

The war secretary, Lt. Gen. Benjamin Rattenbach, apparently precipitated Alsogaray's decision to quit by stating at a news conference that the economic minister's policies were not adequate to pull Argentina out of its slump.

Alsogaray said the head of the army told him on Monday "other Cabinet ministers are feeling the same way." Alsogaray's austerity policy was always opposed by large business, labor and armed forces groups, but he and his team also have strong connections with certain business, political and military factions.

Opposition mounted last week when Alsogaray, in an effort to

balance the budget, boosted the price of gasoline 43 per cent and that of kerosene, widely used for cooking, by 66 per cent. The increases triggered another spiral in essential consumer goods prices.

Alsogaray started his present term as economic minister on April 12. He had held it for a time under President Arturo Frondizi.

He found the economy in chaos. Since then things have worsened. The peso, kept stable

for three years under Frondizi at 83 to the dollar, was quoted by some brokers at 154 Tuesday. The cost of living has climbed about 35 per cent.

Bankruptcies Increasing
Bankruptcies are on the increase and unemployment on the rise.

Government workers' salaries are in arrears up to two months. State government employees are being paid in government bonds and other forms of IOUs.

Alsogaray made progress in

renegotiating foreign debts and obtaining promises of foreign aid. In an effort to wipe out a \$500-million trade deficit of last year he restricted credit for imports.

To strengthen the peso he required exporters to deposit earned pesos above a certain level with the treasury.

He complained that his efforts were frustrated by recurring political and military crises, intrigue within the government and by certain vested interests.

Dean Warns Of Test Ban Maneuvering

GENEVA (UPI)—U.S. Ambassador Arthur H. Dean said Wednesday Soviet Premier Khrushchev soon may try to trap the West with another unilateral pledge to stop testing nuclear weapons.

Dean told the 17-nation disarmament conference the Soviet Union appears to have abandoned all pretense at actual negotiations to reach agreement on a nuclear test ban.

The Soviet Union clearly has decided it does not want a test ban at all, Dean said, "but is trying to maneuver the West in every possible way into some sort of unsupervised, uncontrolled moratorium arrangement."

Dean stressed that the West would never again be trapped into the position of September 1961, when the Soviet Union suddenly broke the moratorium on testing.

Soviet Delegate Semyon K. Tsarapkin told newsmen Dean's speech was "a very dangerous statement which dooms the prospects of this conference."

"We will never change our position," he declared. "We will never stop demanding a cessation of all tests in all environments."

He said Dean's statement was dangerous because it amounted to a rejection of the U.N. General Assembly's demand for an end to all nuclear testing by Jan. 1.

Eugenean Wins Award for Work

Mrs. Joe T. James, 2160 Fillmore St., Eugene, an employee of the Eugene office of the Social Security Administration, has received a cash award of \$140 for superior performance in her work.

Dean Haley, district manager of the office, said this is the first award of its type to be received by an employee in the Eugene office for about five years.

The award came from the Department of Health, Education, and Welfare under the Government Employees Incentive Awards program. Mrs. James received the award for performing the duties of a position of greater responsibility than her own as well as carrying on her own work during several months.
