

Construction of Retail Shop, Office Building Started

Construction of a new 4,000-square-foot office and retail shop building at the northeast corner of 11th Avenue and Willamette Street, diagonally opposite the Eugene City Hall, was started Monday by the V. A. Harding Construction Co.

Nathan Rubenstein, president of the Belson Corp., which is financing the new single story structure, said the overall investment, including land, building and fixtures, will exceed \$100,000.

The brick and glass building was designed by Eugene architects Wilmsen, Endicott & Unthank, who also designed the Executive Corner Bldg. on the southeast corner of the same intersection.

Rubenstein said the new building will be divided into several small offices and shops to be occupied by five or six tenants, as yet undetermined. The building is expected to be completed by spring, he said.
