

Restaurant in Business New Big 'Y' Unit Opens

The new Timber Topper Restaurant in the reconstructed Big-Y Shopping Center in west Eugene opened Monday, and plans were announced for McKay's Market and a barber shop to follow suit in the near future.

Wilbur W. Humes, a partner in the Timber Topper, said the restaurant will hold its open house ceremonies later, in conjunction with the grand opening of McKays.

Barber George M. Cochran said he plans to open his shop—"Big Chief No. 2"—Tuesday.

John "Mike" Koza, division manager for Mayfair Markets, owners of McKays' Markets, said the new Big-Y market will open late this week or next Monday (Jan. 28).

The three businesses all were burned out in the \$750,000 fire last August that destroyed McKays' Big-Y Market. The restaurant, barber shop and the Slate Liquor Store were heavily damaged. The liquor store was reopened on the Big-Y site last month.

The new shopping center is nearing completion on the site of the old center, between W. Sixth and Seventh Avenues near the northwest edge of the city. Medford contractor Marshall Bessonette of the Bessonette Construction Co. Thursday refused to comment on the present stage of construction of the rebuilt project or to reveal what the project is costing.

Records on file in the city building department show that two "remodeling" permits issued for the project last Sept. 25 and Oct. 18, 1962 have a total stated value of \$150,000. Electrical permits issued for the project show no stated value. No plumbing permit has yet been granted, according to Lloyd Hillis, Eugene building inspector.

Bessonette is understood to be constructing the building for Gunderson Bros. Investment, Inc. of Portland. According to Mayfair's Koza, Bessonette will lease the shopping center from the Portland firm and in turn will sub-lease it to the several businesses.

The Big-Y Timber Topper will have seating for 130 persons, more than twice as much as was available in the former restaurant. Humes said the restaurant represents an investment of about \$50,000. It will be managed by Georgia Tull, a partner with Humes and Clark Fee.

The restaurant has about 3,000 square feet of floor space

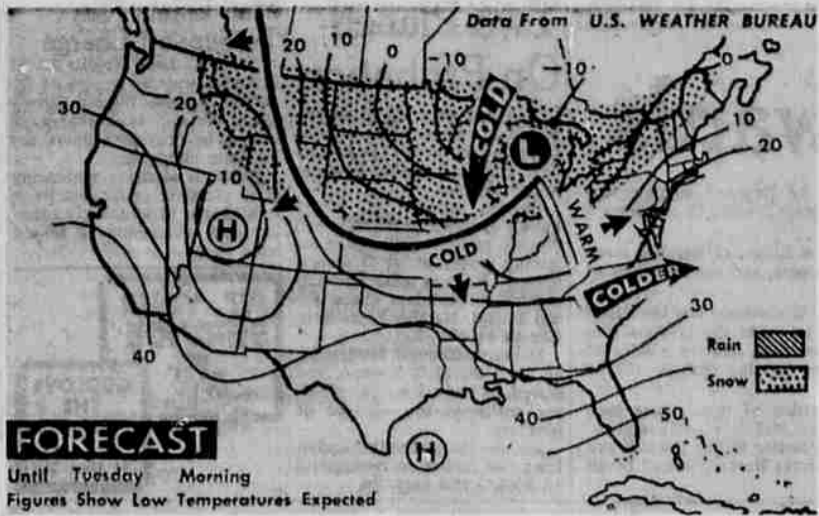

In a building connected to the north side of the market building. Buffet breakfasts, lunches and dinners will be served. Cochran said his barbershop, situated in the same building that houses the restaurant and liquor store, initially will have two chairs, but there is space available to expand it to six. Cochran, an artist as well as a barber, lost 60 or 70 paintings and three manuscripts of Indian life he was writing for publication.

McKay's Market now is stocking shelves in the new store, Koza said. The market's total investment will be "well over \$500,000," he said.

The market will include, on the 30,000-square-foot ground floor, grocery, drug, and variety, hardware and bakery departments. A 2,000-square-foot mezzanine area will be devoted to Mayfair Markets divisional offices, which have been situated at 59 Coburg Rd. since the fire.

The basement, with about 9,000 square feet of floor space, will include a greatly expanded department store, which will include children's, men's and women's clothing, a shoe department and a sporting goods department. New to the store is a large meeting room, which seats from 125 to 150 persons. It will be available to any group without charge, Koza said.

There is a 200-car parking lot, Koza said, and a huge revolving sign is being erected. It will stand 92 feet above the ground, supported by redwood arches.

More cold air from Canada is moving in over the United States and on Monday brought a dip in temperatures and snow to the north central and New England regions of the nation. Areas west of the Cascades at present are expected to escape another cold snap, weathermen said. Snow is predicted tonight in northern New England, the Lakes area,

the upper and central Mississippi valley, the northern and central Plains and the northern and central Rockies. Colder temperatures are expected to be general tonight in the eastern half of the nation, with the exception of Florida. Generally warmer temperatures are predicted for the western half of the nation tonight.

U of O Catalogs To Save \$6,000
University of Oregon catalogs will cost \$6,000 less this year because half an inch has been trimmed from the top and side of the regular 6-by-9-inch book. When bids were sought last month for the 1963-64 catalog, the State Department of Finance and Administration said, an option was included asking prices for the same job on 5 1/2-by-8 1/2-inch paper.
