Leaves and yellow roses create the Adolpho bonnet (lower center). Blouson turban of blue and beige arabesque print silk (lower right) is by Mr. John.

## 'Dear Abby'

—Abigail Van Buren—

**DEAR ABBY:** Everybody complains about smokers, but nothing is ever done about them. I've had more meals spoiled and more pleasant hours of socializing ruined by people who foul the air with cigarette and cigar smoke. Do they think they own the world? I wish someone would invent a "pipe" to be used in self-defense by non-smokers who wish to retaliate. It should be an instrument capable of producing great clouds of offensive smoke that would out-smell any cigarette or cigar on the market. It should contain a safety valve so the user could send out this smoke without getting any of it in his own mouth. Also, tiny fans to direct the smoke away from the user and toward others. It should have an attachment that would blow ashes into food of smokers and burn neat little holes in fine furniture.

If the above-described "retaliator" is ever invented, I promise to buy the first one produced, regardless of price. **DOUG**

**DEAR DOUG:** If such an item is ever produced, you may buy the second. I want to buy the first.

**DEAR ABBY:** A dog worshipper has been leading his dog, routinely, to my front yard. I decided if he had that much nerve, I would get up the nerve to do something about it. So when I saw him approaching with his dog, I stood on my porch and just stared a long, hard stare at him. He smiled and tipped his hat! Must I come right out and say, "Why don't you use YOUR front lawn?"

**LIVE AND LET LIVE**

**DEAR LIVE:** Tell the man please to let his pooch see more of the world than your front lawn. And if he doesn't catch on, tell him to keep Fido off your grass or you'll call the law.

**DEAR ABBY:** You may be interested to know that there are 8,500,000 widows in this country. Half of them are under 60. That "Frightened Bachelor" who wrote to you can surely find someone. And he can have himself a ball while he's looking. **ALSO A BACHELOR**

**DEAR ABBY:** Who in the world can a person trust anymore? Our preacher sat right in our living room and told all the details of some domestic trouble another couple was having. He knew full well these people were friends of ours. Then I found out that my doctor discussed my case with my aunt without any inquiry on her part — she says. Yesterday a friend of mine told her daughter something I had told her in confidence just to get it off my chest. Heaven help me if I ever need a lawyer. I hear they are the biggest gossips of all. I repeat — who can a person trust?

**DISGUSTED**

**DEAR DISGUSTED:** MOST clergymen can keep a secret. And so can most doctors. But professional people under obligation to keep confidences, occasionally talk too much. If your confidences are always revealed, perhaps you are prone to pick the wrong confidants.

## Party Line Holiday for Hazel

First stop — Honolulu. After that — the world for Hazel Frederickson as she continues the trip that will take her into many far corners for reunions with friends.

Mrs. Frederickson has been "mother" to dozens of University of Oregon students from the Orient and the Far East, many of whom lived in her "International House" home near campus. Now her many kindnesses are going to be repaid by grateful friends the world over.

In Honolulu she will visit a niece and her husband, Sgt. and Mrs. W. M. McMillan (Pauline Frederickson). On her other stops en route she will be met either by a friend or a family member native to the place visited — first in Tokyo and Hokkaido, Japan. In Taipei she will be met by the mother and brother of Edmund Lo, a student here, and be entertained by the family of Kenneth Liu, whose wife is a Lane County public school nurse and friend of Mrs. Frederickson.

In Manila she will be met by Major Pedro Argosino of the Philippine Air Force and will visit several former students. Her Hong Kong stay will be arranged by a man who is in charge of orphanages, a friend of Mrs. Liu.

Going on to India, where she has many friends, Mrs. Frederickson will be met in Calcutta by a sister of T. N. Sindwani, UO student, whose father near New Delhi and later a student in London will also entertain the traveler. Abdul Mustafa, former student, will be her host in Dacca, in East Pakistan.

In Madras she will visit Miss V. R. Meenakshi, who received her doctorate at the university, and the two will tour Southern India for a week. On June 2 she will attend church services at Akola where the pastor is father of Anant Chavan and Sulabha Chavan, UO students. Her host in Lahore, West Pakistan, will be the family of Col. Ahmed Saad, now a student here.

From Karachi Mrs. Frederickson will fly to London in mid-June and join a 17-day tour of Europe before sailing from France on the S.S. Hansatic. She will land in New York July 8.

Packed away in her luggage will be gifts for her Indian friends — oddly enough, sari lengths of nylon which is scarce over there. Other prized items are potato peelers (requested) and Eugene souvenir spoons. She also will have a letter of introduction from Gov. Mark O. Hatfield and from the Oregon Tuberculosis and Health Assn. which will enable her to visit foreign hospitals. Mrs. Frederickson will be on leave from her position as executive secretary of Lane County Tuberculosis and Health Assn.

It's an especially happy Easter for Janie (Mrs. J. B.) Thompson, whose son, Bruce, is joining her for the holiday. He is a marine engineer, who has just returned from a long trip to the far east, and came for the week end in Eugene before returning to his headquarters in Seattle. Mrs. Thompson now makes her home in the Osburn Hotel.

Mr. and Mrs. William G. Gibbons of Eugene were recent guests at Carmel Highlands Inn in California. They were joined at Carmel by Mr. and Mrs. Ted Reed of Walnut Creek, formerly of Eugene.

**a meter can't measure the real value of ELECTRICITY!**

The electric meter—as accurate and precise as man can make—measures the amount of electricity you use each month in your home.

But even this accurate instrument can't really measure the real value of electricity—the family pleasure from TV, radio, record player... the work-saving electric washer and dryer... the kitchen clean-up team of electric dishwasher and waste disposer... the convenience of the food freezer and refrigerator... the marvels of electric air conditioning and electric heat.

Nothing you buy does more to bring comfort, convenience and better living than your electric service—a bargain you'll depend on every day of the year!
