Anchoring jobs in Newport.

Lottery dollars bring NOAA to the Port of Newport.

Newport gave its all when competing with several other sites to bring the National Oceanic and Atmospheric Administration (NOAA) to town. However, it took Oregon Lottery® funds for the Port of Newport to eventually land the new NOAA Marine Operations Center-Pacific, which supports nine NOAA ships that carry out marine research, fish stock assessments, climate studies and ocean mapping. Lottery dollars also helped renovate the International Terminal—increasing vital commercial access—and acquire a boatyard site for the Port of Toledo, just upriver from Newport. With new local jobs, facility expansion and more opportunities for commerce, there's a ripple of activity across Yaquina Bay. And that's a welcome sight, because a busy port is a beautiful port.
