We honor the many accomplishments of African Americans.

It is our primary goal as a labor union to better the lives of all people working in the building trades through advocacy, civil demonstration, and the long-held belief that workers deserve a "family wage" – fair pay for an honest day's work.

A family wage, and the benefits that go with it, not only strengthens families, but also allows our communities to become stronger, more cohesive, and more responsive to their citizens' needs.

Our family wage agenda reflects our commitment to people working in the building trades, and to workers everywhere. In this small way, we are doing our part to help people achieve the American Dream. This dream that workers can hold dear regardless of race, color, national origin, gender, creed, or religious beliefs.
