Marijuana cont'd from pg 10

Gregg's case is not among the ones the 9th Circuit is set to rule on. But he has raised the same argument as the other defendants, and the 9th Circuit has put his appeal on hold pending the outcome of the other appeals, his attorney Phil Telfeyan said.

"The feds think they have the power to override voters of the State of Washington and the will of Congress," said Telfeyan, co-founder of the nonprofit civil rights group Equal Justice Under Law. "It's up to the 9th Circuit to tell them, 'Enough is enough. You

can't keep prosecuting people who are using medical marijuana for their needs."

The DOJ cited a county investigator's testimony that he saw evidence of a for-profit marijuana growing operation on Gregg's family property.

The investigator said he found records that he believed were for drug sales, a scale and packaging material in the house as well as firearms, according to court documents.

Gregg, 34, who owns an alternative energy company, denied he sold marijuana, saying he used the drug to treat pain

following a snowboard- ing accident that left him with a broken back and neck.

He, his mother and his then-wife all had medical marijuana authoriza- tions.

share?

AW: I think all success- ful people are people of action. They don't get bogged down by jealousy and they don't focus on their limitations, they just do what needs to be done, at the end of the day.

KW: Finally, what's in your wallet?

AW: So many coupons.

KW: Thanks again for the time, Ali, and best of luck with Baby Cobra.

AW: Thank you, Kam.

KW: What advice do you have for anyone who wants to follow in your footsteps?

Book cont'd from pg 6

explores why opposition to police brutality sud- denly became an explo- sive rallying cry a cou- ple years ago, despite its having been around as an issue for many gener- ations. The author, who teaches African Ameri- can Studies at Princeton University, also devotes considerable ink to a historical discussion of icons like Dr. Martin Lu- ther King and Lyndon Baines Johnson as well as

to such hot button topics as colorblindness, Ameri- can exceptionalism, the criminal justice system and the roots and rise of the Black Lives Matter movement.

Overall, this incendi- ary tome amounts to a scathing indictment of "racism, capitalism and class rule" as oppressors of the Black masses - President Obama's occu- pying the White House notwithstanding.
