The American Bridge Association (ABA) is one of the oldest bridge organizations in the country. Founded in 1932 at Buckroe Beach, Virginia, the ABA

held its first national tournament there in 1933. The founders were fun-loving and competitive African Americans whose previous efforts to play tournament bridge were frustrated by the overt racial discrimination of the time. With a membership of approximately 3,000, there are over 100 ABA clubs in 25 states. The ABA advocates bridge competitions and sponsors tournaments for playing duplicate bridge throughout the United States. In addition, education is a high priority and the ABA awards 24 college scholarships annually. The ABA is divided geographically and Washington, Oregon and Alaska comprise the Northwestern Section, which is hosting this event. Organizers are expecting bridge players from across the country to attend and urge local bridge players to participate in this competition as well.

We honor the many accomplishments of African Americans.

It is our primary goal as a labor union to **better the lives of all people working in the building trades** through advocacy, civil demonstration, and the long-held belief that workers deserve a "family wage" - fair pay for an honest day's work.

A family wage, and the benefits that go with it, not only strengthens families, but also **allows our communities to become stronger**, more cohesive, and more responsive to their citizens' needs.

Our family wage agenda reflects our commitment to people working in the building trades, and to workers everywhere. In this small way, we are doing our part to **help people achieve the American Dream**. This dream that workers can hold dear regardless of race, color, national origin, gender, creed, or religious beliefs.
