## Review

cont'd from pg 6

She doesn't have to be so poor, given that she's the only heir to a massive fortune left behind by her parents, Lady and Lord Croft.

While her mother is really dead, there's no proof of her father's (Dominic West) passing. Lord Croft was an archaeologist/explorer who went missing seven years ago on an expedition to an uncharted spot in the ocean off the coast

of Japan. He was searching for a fabled tomb rumored to contain a key to a supernatural realm.

Instead of signing daddy's death certificate, accepting her inheritance, and living in the lap of

luxury, Lara follows a set of mysterious clues he left behind leading to an island resembling the Rock of Gibraltar. Upon arriving, she must rely on her wits and her acrobatic and archery skills

to survive an epic fight to the death with a worthy adversary (Walton Goggins) and his gang of goons armed to the teeth. Think "The Da Vinci

Code," with less talk and way more action.

Very Good ★★★

Rated PG-13 for violence and some profanity
