TO THE PUBLIC.

THE PAIN-KILLER manufactured by PERRY DAVIS & SON has won for itself a reputation unsurpassed in medical preparations. *The universality of the demand* for the Pain-Killer is a novel, interesting, and surprising feature in the history of this medicine. The Pain-Killer is now regularly sold in large and *steadily increasing* quantities, not only to general agents in every State and Territory of the Union, and every Province in British America, but to Buenos Ayres, Brazil, Uruguay, Peru, Chili, and other South American States, to the Sandwich Islands, to Cuba and other West India Islands; to England and Continental Europe; to Mozambique, Madagascar, Zanzibar and other African lands; to Australia and Calcutta, Rangoon and other places in India. It has also been sent to China, and we doubt if there is any foreign port or any inland city in Africa or Asia, which is frequented by American and European missionaries, travelers or traders, into which the Pain-Killer has not been introduced.

The extent of its usefulness is another great feature of this remarkable medicine. It is not only the best thing ever known, as everybody will confess, for bruises, cuts, burns, &c., but for dysentery or cholera, or any sort of bowel complaint, it is a remedy unsurpassed for efficiency and rapidity of action. In the great cities of British India and the West India Islands and other hot climates, it has become the *standard medicine* for all such complaints, as well as dyspepsia, liver complaints, and other kindred disorders. For coughs and colds, canker, asthma and rheumatic difficulties it has been proved by the most abundant and convincing trials and testimony, to be an invaluable medicine. The proprietors are in possession of letters from persons of the highest character and responsibility, testifying in unequivocal terms to the cures effected and the satisfactory results produced, in an endless variety of cases by the use of this great medicine. That the Pain Killer is deserving all its proprietors claim for it is amply proved by the unparalleled popularity it has attained. It is a *sure* and *effective* remedy. It is sold in almost every country in the world, and is becoming more and more popular every year. Its healing properties have been fully tested all over the world, and it need only to be known to be prized.

Sold by all Druggists. jan31m1

APPLETONS' AMERICAN CYCLOPAEDIA.

New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

THE work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

The work is sold to Subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

Price and Style of Binding.

In extra Cloth, per vol.	$5 00
In Library Leather, per vol.	6 00

FIRST-CLASS CANVASSING AGENTS WANTED.

Address the Publishers,

D. APPLETON & CO.,
549 & 551 Broadway, N. Y.

We Have, in New York State, 166 BUCKS, 200 EWES, THOROUGHBRED SPANISH MERINO SHEEP.

Bucks Shear 16 lbs. and over; Ewes Shear 11 lbs. and over.

MANY OF THEM WERE SIRED BY THE BUCK **Hannibal**, imported by us last year, which we sold to Whitney Bros., of Rocklin, Cal., for $10 per pound for what his last fleece weighed (1 year and 4 days' growth), which was 20 1-2d pounds.

To parties who desire to club together and purchase full car load (100 head) we will sell, delivered on vessel at San Francisco, at $80 per head, one half bucks and one half ewes. All ewes at $40, all bucks at $50.—We have the pedigrees from best breeders, and whose reputation as sheep-men stand at the head. We will deliver Sheep at Portland for $7.50 extra per head.—Bucks and Ewes in lots of 10 or more—Ewes 10 per cent., Bucks 20 per cent. advance on above prices.

N. B.—We have imported in the past three years to the Pacific coast over 2,000 head. Orders solicited.—Sheep delivered on two months' notice.

Marblehead Mammoth!

You will find in my Seed Catalogue letters from a score of people, who, by following the directions sent with every package of seed, have raised this Cabbage to weigh **from 30 to 60 lbs. a single head!** I was the original introducer of this giant Cabbage, and my seed is all grown from heads that are extra large and very solid. Sent postpaid by me, 25 cts. per package; $1 per ounce; $10 per lb. My Seed Catalogue sent *free* to all applicants.

JAMES J. H. GREGORY, Marblehead, Mass.

49w4

My business is to supply what every farmer of experience is most anxious to get, *perfectly reliable* Vegetable and Flower seed. With this object in view, besides importing many varieties from reliable growers in France, England, and Germany, I grow a hundred and fifty kinds of vegetable seed on my four seed farms, right under my own eye. Around all of these I throw the protection of the three warrants of my Catalogue. *Of new vegetables I make a specialty*, having been the first to introduce the Hubbard and Marblehead Squashes, the Marblehead Cabbages, and a score of others. My Catalogue containing numerous fine engravings, taken from photographs, sent *free* to all.

JAMES J. H. GREGORY, Marblehead, Mass.
