

DON'T FORGET THE TEXT.—We have to admonish our friends that the FARMER is an agricultural journal as well as a people's paper, and that they seem at present to be forgetting that agriculture is our most popular text, and have turned their attention towards political affairs.

Send 35 cents to MAZZI'S LITERARY WEEKLY, Cheshire, O., for a copy and a pair of beautiful Chromos, value and satisfaction guaranteed. More agents wanted.

Unhealthy Surroundings. To breathe pure, healthful air, and to follow occupations conducive to health and long life are the privileges of the minority. The majority must dwell wherever their lot is cast, however insalubrious the locality may be, and work at the craft assigned to them, however destructive to health and vigor.

Harrow and Clod-Breaker.

THE Harrow and Clod-Breaker combined, invented by the undersigned, is the best machine ever used for pulverizing the soil. It harrows the ground and so thoroughly breaks all the clods as to leave the soil so fine and loose that it is in the best condition for receiving the grain sown. Many of the most distinguished farmers of Oregon have used it upon their farms, and have cordially added their testimony to its great value. It needs to be only seen by the practical agriculturist to be appreciated. It is being manufactured at the Plow Factory of the Capital Lumbering Company in Salem, where it may be had for the very LOW PRICE OF \$45.

The inventor will also be found at all times at the office of J. QUINN THORNTON, up stairs, at the corner of State and Commercial streets, in Durbin's building, Salem, where he will sell Farm Rights, County Rights, and single Machines. Farmers, please patronize home inventions and home-manufactured agricultural implements. 4w4

LIBERIAN CORN.

The Greatest Discovery in the World!—Endorsed by the Press—Endorsed by the Seed Dealers—Endorsed by Planters and Farmers—Endorsed by Every Body!

EXTRA EARLY, 25-ROWED SWEET CORN.—It is a genuine 25-rowed sweet corn, growing from 12 to 14 feet high. Last year, planted the first of May, it was sold in the market July 20, 184 days! A later planting was ready in 70 days.

- 1st. It will produce more corn to the acre with the same cultivation and in any variety of soil. 2d. It has greater depth of kernel than any horse-tooth variety. 3d. It has a smaller cob than any 24-rowed variety. 4th. It weighs 60 to 70 pounds to the bushel, sealed measure. 5th. It fills better, and has more full-grown ears of corn to the stalk, than any other variety. 6th. It is neither white nor red, but is of a silver color with white cob. 7th. It grows more vigorous, and ripens its whole crop earlier than any of the other large field varieties in America. 8th. It makes better meal, being sweeter and richer. 9th. It beats more foliage, which makes more feed. 10th. It can be planted on land from which wheat has been harvested, or from which potatoes have been dug, fully ripening before frost. 11th. The spikes shoot out within three feet of the ground, consequently the crop is not liable to be prostrated by high winds. It is likewise easier to gather. 12th. It can be successfully grown in any State. We give the most satisfactory references that the corn is in every respect what we represent it to be; and, further, we are the only persons throughout the country that have introduced this corn. Having a quantity, we are now able to fill all orders for those desirous of testing it. Last season we could have sold 500 bushels more, but could not fill the orders.

TERMS.—In order that all may receive seed, we have reduced the price to \$1 per package. Any person who will get up a club of five, will receive a package gratis. Fifteen packages for \$8. Address, M. JEFFERSON & SON, Houston, Va.

ENDORSEMENTS.—We, the undersigned, citizens of Hansenville, Virginia, having examined some of the Liberian corn, grown on J. E. King's farm, one mile west of this place, do certify that some of the stalks produced six full-grown ears of corn. The largest spikes we noticed measured 11 1/4 inches in length and 7/8 ground. Capt. J. D. Kent, E. F. Gurnes, merchants, Hansenville, Va.; Thomas Harden, E. Clark, W. J. C. Call, H. G. Benton. We, the undersigned, do hereby testify that the above named gentleman are actual residents of this place, and well-known gentlemen. Chas. D. Lord, Justice of the Peace.

Canada Victor Tomato!

I invite the attention of the public to extracts from more than a score of letters in my Catalogue for 1874, from Farmers and Gardeners in various States, who raised this New Tomato for the first time last season. These letters are all emphatic in their praises of the Canada Victor Tomato: 1st, for its surpassing earliness; 2d, for its excellent quality; and, 3d, for its uniform solidity. I now offer to the public, Seed sown from selected specimens only, at 15 cts. per package, and \$1.50 per ounce. My Seed Catalogue, free to all applicants. JAMES J. H. GREGORY, Marblehead, Mass. 4w4
