

W. I. TUSTIN'S PATENT FIRST PREMIUM WIND MILLS AND HORSE POWERS.

The Simplicity and Perfection of these Machines, are the result of Twenty-Four Years' Experience in California.

Our Wind Mills are so generally used through California, the adjoining States, Territories, and in several foreign countries, that description here is unnecessary...

The lumber of which the wood-work is made, grows in the forests of this Coast. It can therefore be readily obtained at any lumber yard in the country...

These Wind Mills were adopted four years ago by the Pacific R. R. Co., and are now in general use on their roads...

EAGLE-For One or Two Horses.

The Mining and Scientific Press Marching Onward.

Our careful system of compiling, judiciously condensing, and conveniently arranging into regular departments, has been heartily endorsed. It renders the paper worth more to readers, who can find readily the which interests them most.

Information for Practical Miners, Treating on the Opening of Mines; Mining of Ores; Milling of Ores; Smelting of Ores; Separation and Boasting of Ores; Amalgamation; Saving of Gold and all precious Metals; New Processes of Metallurgy; New Discoveries of Mines; Mining Engineering and Hydraulics.

For Inventors, Mechanics and Manufacturers. All new and important developments in Scientific and Mechanical Progress; Patents and Inventions of the Pacific States; Progress of Home Industries; Hints for Local Manufacturers; Illustrations of New Machinery; Reports of Popular Scientific and Industrial Lectures.

Our Mining Summary Gives the progress of mining work from week to week in the various counties and districts throughout the principal mining regions of the United States, arranged in alphabetical order. It is the most extensive record of mining operations published in the world.

Our Domestic Economy Mr sees new and important facts which should be known in every cabin and household. Short and interesting articles under this heading are freely read and practiced with profit and improvement to the readers.

Liberal and Popular Scientific Journal, Well calculated to make practically scientific men from our intelligent masses. This is our strength for accomplishing good. Plain, correct and pleasing language easily comprehended by all, confined mostly to short articles, is our endeavor.

For Self-Improvement, Every issue of the Press abounds with articles of an elevating character, to stimulate the higher virtues and nature and progressive intellects of both men and women.

Hundreds of Dollars Are oftentimes saved to the readers of this paper by a single hint or article of information in its columns. Such instances have been repeatedly reported to the editors and proprietors during their long connection with the Press. Our paper presents

The New and Novel Developments In the progress of this comparatively new section of the Union (but recently settled and now rapidly increasing with a population of the most intelligent and venturesome people, attracted from nearly every quarter and clime on the globe), enable us, with due enterprise, to display vigor and freshness in our columns not met with in similar journals elsewhere.

A Great Variety of Industrial Information, In brief and fresh form, suited to the wants and tastes of the readers of this coast, which is not obtainable otherwise so timely, or in so cheap and convenient form. As an industrial publication, meeting the wants of so many kindred industries, this journal stands prominent and without a precedent.
