

EASTERN. New York, July 27.—The Brooklyn Argus publishes a card from Mr. Tilton. He says: "The Beecher Investigating Committee have given to the world a lot of irrelevant testimony of mine, but have said no word about the most important part, namely: That the criminality which my sworn statement charged upon Beecher and his religious victim, was confessed to me not only by herself but by Beecher; and, furthermore, that it was confessed by her and him to Mr. Moulton as friend and counsellor, both; that Mr. Moulton's office as mediator, for four years, between Mr. Beecher and me, was based on one fact, this pasting criminality between Mr. Beecher and Mr. Tilton."

St. Louis, July 28.—The Democrat has a special from Fort Union, New Mexico, which says a band of fifty Kiowas and Comanches killed five men near the mouth of the Colorado, 20 miles south of Fort Bascom. No particulars.

San Francisco, July 28.—Dispatches this morning show that the loss of life by the flood at Pittsburg and Alleghany City was 210. It is estimated that the loss of property is over \$10,000,000. The deluge is supposed to have been caused by a water spout. The particulars of the deluge are appalling.

Pittsburg, July 28.—Thousands of people are visiting the scene of the disaster here. The Cherry Run Regions Company of the National Guard have been detailed to keep the crowd out of the way of workmen and protect property. The search for bodies proceeds slowly, owing to the immense amount of debris.

New York, July 27.—Anselm Rothschild is dead. LIVERPOOL, July 28.—A large fire has just broken out which threatens the whole Princess Dock Landing. Still, there is no immediate danger to shipping in the dock.

THE MARKETS. California Market Reports.

The San Francisco Commercial Herald of July 28th furnishes the following: The weather continues favorable for harvesting. The yield of cereals as a whole is fully up to general expectations. The Sacramento River places by estimate this year's Wheat yield at about 25,000,000 bushels, as against the yield last year of less than 15,000,000 bushels. This increased acreage this year devoted to wheat is about 400,000, say a total of 2,400,000 acres. Other accounts differ somewhat from these figures, yet we incline to the largest estimate. As for barley, the estimated yield for this year is by the Record placed at 5,280,000 bushels, as against 3,850,000 bushels last year, and showing an increased acreage this year of 60,000 acres. Whether this is absolutely correct or not it is impossible to state; but from the best information at our disposal the crop now being harvested is believed to be larger than ever before and of superior quality. The oat crop is also promising, yet Oregon produces so much of this latter grain as to keep prices down, in the absence of an export demand, to very low figures. We have a large hold-over stock, with few receipts of the new crop. Tonnage is steadily accumulating in our waters, and freights ease off in consequence. Rates are, however, somewhat irregular. To a direct port in the United Kingdom, wheat is taken for \$3 1/2 to \$4, to Cork, \$1. These may be considered current rates. Flour is taken for China per steamer at low and nominal rates.

Wheat.—There is considerable new crop arriving, the bulk of which was however bought inland, or contracted for at \$1 70 or thereabouts for July delivery. The Grangers are also sending in more or less to their agents for shipment abroad on their own account, and upon vessels chartered some time since.

The present price of good shipping wheat is \$1 40, and for delivery of wheat at Vallejo purchases to some extent have been concluded at \$1 55 per cwt. The yield from Oregon brings 2,800,000 bushels old crop. The offerings are daily becoming larger, with no great anxiety to purchase at over \$1 50 per cwt. Sales for the week include 3,000 cwt. new crop, purchased prior to arrival at \$1 70; 7,500 bushels good for export, \$1 40; 4,000 bushels delivered at Vallejo, \$1 55; 10,000 bushels rejected at \$1 60 for milling; 5,000 bushels prime old for milling, \$1 70; 1,000 bushels extra choice do., \$1 80. Liverpool quotations have declined materially; for average, 3 1/2 to 4 1/2; club, 4 1/2 to 5 1/2.
