

W. I. TUSTIN'S

PATENT FIRST PREMIUM WIND MILLS AND HORSE POWERS.

The Simplicity and Perfection of these Machines, are the result of Twenty-Four Years' Experience in California.

Our Wind Mills are so generally used through California, the adjoining States, Territories, and in several foreign countries, that description here is unnecessary, as it is an established fact that skill is not required to comprehend their construction, or set them up and put them in successful operation.

The lumber of which the wood-work is made, grows in the forests of this Coast. It can therefore be readily obtained at any lumber yard in the country, when old age and dotage render repairs requisite, which can be executed by a person unskilled in mechanism, thus saving the cost of expensive labor.

These Wind Mills were adopted four years ago by the Pacific R. R. Co., and are now in general use on their roads, the best Eastern Mills having proved unsatisfactory.

They are very effective in light winds, and ordinary violent storms will not injure them. They are always under perfect control, run steadily, and are very powerful.

A child can start or stop them, or set them running at any speed required.

Orders filled at the lowest living prices on short notice. All work guaranteed as represented. These Powers are complete in every detail and particular, as they possess every improvement and advantage that can be combined in such machines. The success which has crowned our efforts for the few years past, is ample proof of the highest appreciation and confidence in our machines on the part of the public and our numerous patrons, to whom especially we tender our most sincere thanks for their many expressions of kindness and approval, which manifest satisfaction.

EUREKA.

EAGLE--For One or Two Horses

Pioneer and Largest Manufacturer of the above Machinery on the Pacific Coast. **FACTORY, Cor. Market Beale Sts. SAN FRANCISCO.**

The Mining and Scientific Press Ever Onward.

Our careful system of compiling, judiciously condensing, and conveniently arranging into regular departments, has been heartily endorsed. It renders the paper worth more to readers, who can find handily the which interests them most. The weekly issues of the Press will contain reliable information for Practical Miners, Treating on the Opening of Mines; Mining of Ores; Milling of Ores; Smelting of Ores; Separation and Roasting of Ores; Amalgamation; Saving of Gold and all precious Metals; New Processes of Metallurgy; New Discoveries of Mines; Mining Engineering and Hydraulics. For Inventors, Mechanics and Manufacturers.

All new and important developments in Scientific and Mechanical Progress; Patents and Inventions of the Pacific States; Progress of Home Industries; Hints for Local Manufacturers; Illustrations of New Machinery; Reports of Popular Scientific and Industrial Lectures. Our Mining Summary Gives the progress of mining work from week to week in the various counties and districts throughout the principal mining regions of the United States, arranged in alphabetical order. It is the most extensive record of mining operations published in the world. It affords the intelligent miner a rare opportunity to know and profit by the work and experience of his neighbors. Miners have few sources of practical information in their calling, and should embrace every reliable means for improvement. Mining Operators and Shareholders, at home and abroad, weekly examine our Summary with increased interest and profit.

Our "Domestic Economy" embraces new and important facts which should be known in every cabin and household. Short and interesting articles under this heading are freely read and practiced with profit and improvement to the readers. The Press is not strictly a "paper for professional, scientific men," but rather a Liberal and Popular Scientific Journal. Well calculated to make practically scientific men from our intelligent masses. This is our strongest hold for accomplishing good. Plain, correct and pleasing language, easily comprehended by all, confined mostly to short articles, is our endeavor.

For Self-Improvement, Every issue of the Press abounds with articles of an elevating character, to stimulate the higher virtues and nature and progressive intellects of both men and women. Hundreds of Dollars are oftentimes saved to the readers of this paper by a single hint or article of information in its columns. Such instances have been repeatedly reported to the editors and proprietors during their long connection with the Press. Our paper presents The New and Novel Developments In the progress of this comparatively new section of the Union (but recently settled and now rapidly increasing with a population of the most intelligent and venturesome people, attracted from nearly every quarter and time on the globe), enable us, with due enterprise, to display vigor and freshness in our columns not met with in similar journals elsewhere. The same circumstances also render such a paper more especially valuable to its readers in a new, and to a certain measure, untried field, where the best methods and processes of industry are not so well established or traditionally known as in older communities. Published experiences often save costly experiments and disastrous results. A Great Variety of Industrial Information, In brief and fresh form, suited to the wants and tastes of the readers of this coast, which is not obtainable otherwise so timely, or in so cheap and convenient form. As an industrial publication, meeting the wants of so many kindred industries, this journal stands pre-eminent and without a precedent. Subscriptions payable in advance--\$4 per annum single copies, post paid, 10 cents. Address DEWEY & CO., MINING and SCIENTIFIC PRESS and PACIFIC RAILROAD Press Office, 224 Sansome St., S. F.

ARE YOU GOING TO PAINT? THEN USE THE BEST.

THE AVERILL CHEMICAL PAINT WILL LAST THREE TIMES AS LONG as the best Lead and Oil, without Chalking. Is no longer an experiment, as we have it five years old on this coast. It WILL DO what we say when used according to directions. Is of any desired color. Is prepared for immediate application, requiring no Oil, Thinner or Drier, and does not spoil by standing any length of time. It is equally as good for inside as outside work; over old work as well as new; in fact where any paint can be used the AVERILL CHEMICAL PAINT will be found superior to any other. Any one can apply it who can use a brush, which truly MAKES IT THE FARMER'S FRIEND. IT IS JUST THE PAINT FOR THE AGE. It is OLD BY THE GALLON ONLY. One Gallon COVERS 20 SQUARE YARDS 2 Coats. For further information send for sample card and price list. HEALY & JEWELL, Agents. Office--Corner Fourth and Townsend streets, San Francisco. sp17-1y

CELEBRATED MITCHELL WAGON BYRON JACKSON, MANUFACTURER OF Patent Self-Feeder & Elevator Attachment For Separators, at the Yolo Flaming Mill and Machine Shop, Woodland, Yolo County, Cal. This improvement was patented in 1867 and in 1870. For the past two years I have been introducing it to the public with great success. It is pronounced by all that have tried it to be the greatest labor saving invention of the age. No Thresher will be without it after witnessing its operation. It saves all the hard work of feeding and injury to health, and one-half the labor required to supply the grain from the stacks. It will pay for itself in less than thirty days, besides doing better for itself in less than thirty days, besides doing better for itself in less than thirty days, besides doing better for itself in less than thirty days. Entire satisfaction guaranteed if properly used. 21v7-3m

TO WINE & BRANDY MANUFACTURERS. Improved Grape Crusher and Stemmer. In these machines the grapes are fed in at one end and the cleaned stems are discharged at the opposite end, the pomace falling into a tank placed below, crushing the grapes without bruising the seeds. Run by steam, water, wind or horse-power. Guaranteed to crush and stem, in a satisfactory manner, from ten to sixty tons per day, according to size and power used, or no sale. Send for Circular. Address, GEORGE JOHNSTON, Sacramento. Or, W. F. JOHNSON, Folsom, Sacramento County, California. Refer to Lachman & Co., San Francisco, and Johnston Brandy and Wine Manufacturing Co., Sacramento and Marysville. 2v8-12w

MATTESON & WILLIAMSON'S GANG PLOW. Took the Premium over all at the great Plowing Match in Stockton, in 1870. This Plow is thoroughly made by practical men who have been long in the business and know what is required in the construction of Gang Plows. It is quickly adjusted. Sufficient play is given so that the tongue will pass over cradle knobs without changing the working position of the shares. It is so constructed that the wheels themselves govern the action of the Plow correctly. It has various points of superiority, and can be relied upon as the Best and Most Desirable Gang Plow in the world. Send for circular to 1472-3m MATTESON & WILLIAMSON, Stockton, Cal.

WATERHOUSE & LESTER, IMPORTERS OF WAGON AND CARRIAGE MATERIAL, BODIES, CARRIAGE PARTS. Wheels, Axles, Springs & Carriage Hardware.
