such action will be taken as the emergency may require.

By order of the President. E. D. Townsend, Adjutant General.

The Cabinet meeting this afternoon lasted four and a half hours. Secretary Fish, Brewster, Attorney-General Williams, and Postmaster General Jewell were the only members present.

It is probable that should the troubles in Louisiana, that State may be added to Sheridan's Department, or Gen. Terry may be ordered to New Orleans, to rank Gen. Emery in command.

There are no new developments this morning. Gen. Brooke occupies the Executive office. Mayor Wiltz has been in consultation with him relative to establishing a municipal government, and a consultation is now going on at the Custom House between Gov. McEnery and his partisans.

A dispatch to Gov. McEnery from Bayou Sara, reports that the town was attacked last night by negroes. The attack was repulsed. Gen. Emory has ordered troops to that point.

FALL RIVER, Sept. 19.—Granite Mill No. 1, of this city, was burned to-day, causing a fearful loss of life. As near as can be learned under the present excitement, the fire originated in the fourth story.

Many by this time had become suffocated; others preferring death by falling to the ground, sprang recklessly from the windows and were picked up mangled and bleeding dead and dying.

Assistant Surgeon D. L. Huntington is relieved from duty in the Department of Louisiana, and has been ordered to report to the commanding General, Department of California, for duty, in addition to his duty as member of the Medical Examining Board, now in session in San Francisco.

McEnery and Penn this afternoon addressed a written protest to General Emory against the position assumed by him toward them, and against his orders under the President's proclamation. They take the ground that their Government is the only Government in Louisiana, having been duly elected in 1872, and was installed in 1873, and that the people of the entire State are loyal to it; that no vestige of the Kellogg usurpation remains, and that there is not and has not been any insurrection against the Government; that there are no insurgents to disperse and that the people of the State are peacefully pursuing their usual vocations.

They assert that if they are compelled by the military force of the United States—which they have neither the power or the inclination to resist—to abandon the Government and the power rightfully, and in fact vested in them, there is no Government of State to take their place. They say they accept the demand of General Emory as an alternative of war on the part of the United States Government against a State exhibiting no hostility to the United States Government, and then proceeded to argue the legal points of the President's proclamation, repeating substantially the statements above made as to the illegality of the Kellogg Government, and the non-existence of an insurrection, to be quelled or insurgents to be dispersed, and concludes with a peremptory assurance that no armed or forcible resistance would be made to the military force of the United States, but that they would surround the State offices and property to the Government of the United States alone.

Evening.—At 6 o'clock this evening, McEnery formally surrendered the State House and all other State buildings to General Brooke, at the time reading to him a written address, saying he did so as the lawful and Acting Governor of the State, in response to a formal demand of Gen. Emery to make such a surrender or accept as an alternative the levying of war upon the Government of the State by the military force of the United States. In transferring to Gen. Brooke the guardianship of the rights and liberty of the people of Louisiana, McEnery expressed the hope and belief that he would give protection to all classes of citizens who had been ruled and ruined by a corrupt usurpation. In conclusion, saying: "I know that as a soldier, you obey the orders of the Government of the United States, but hope that you will temper military control with moderation in all things, and exhibit that integrity of purpose which is characteristic of officers of the Army."

Gen. Brooke required from Lieut. Governor Penn a statement of all records which were in the building when they took possession.

McEnery and followers then withdrew, leaving the Capitol of Louisiana in possession of military officers of the Federal Government.

At 7 P. M. two companies of the Third Infantry marched down and were quartered in the building. Colonel Thomas Boylan, the McEnery Chief of Police, remains on duty with his forces.

NASHVILLE, Sept. 17.—The Attorney-General has received many letters from United States officials representing a terrible state of affairs in Alabama, Louisiana, Mississippi and Tennessee. They say there is no safety for colored people. It is believed the White Men's Leagues are wide spread, and are formed for aggressive action.

CHICAGO, Sept. 18.—A special to the Tribune from New Orleans, received at a late hour last night, reported that Kellogg and McEnery have come to an agreement by which an election shall be held in Louisiana, the Government, in the meantime, to devote upon the President of the State Senate.

WASHINGTON, Sept. 18.—There was a special Cabinet meeting this morning, and an order was sent through Adjutant-General Townsend to General Emery. He is directed to say: "Your oaths to this date, so far as they have been recorded and received here officially, are approved, except so far as the name Colonel Brooke, Commander of the City of New Orleans. It would have been better to have named him Commander of United States Forces in that City and State."

The government existing at the time of the beginning of the present insurrectionary movement must be recognized as the lawful State Government until some other can be lawfully supplied. Upon the surrender of the insurgents you will inform Governor Kellogg of the fact, and give him necessary support to re-establish the authority of the State Government. If at the end of five days given in the proclamation of the 15th inst., there still exists armed resistance to the authority of the State, you will summon a surrender of the insurgents. If the surrender is not quietly submitted to, it must be enforced at all hazards, this being an insurrection against the State Government of Louisiana, and in the suppression of this the Government has been called upon in forms required by the Constitution and laws of Congress thereunder. It is not the province of the United States authorities to make terms with parties engaged in such insurrection. (Signed) E. D. Townsend.

NEW ORLEANS, Sept. 18.—McEnery and Penn has issued an address to the people, advising an obedience to constituted authorities.

There are no new developments this morning. Gen. Brooke occupies the Executive office. Mayor Wiltz has been in consultation with him relative to establishing a municipal government, and a consultation is now going on at the Custom House between Gov. McEnery and his partisans, and Gov. Kellogg and others, looking to a compromise, but legal obstacles present themselves at almost every step.

A dispatch to Gov. McEnery from Bayou Sara, reports that the town was attacked last night by negroes. The attack was repulsed. Gen. Emory has ordered troops to that point.

ber, 1873. In August, 1873, new land was discovered. They drifted with the ice along this land. They were frozen in and wintered in 78° 51' north latitude and 51° east longitude. In March and April, 1874, sledge expeditions were sent north and west. 82° north latitude was passed, and land was seen to 83°. The extent of the land to the northward was apparently considerable. The ship now being unavailable, was abandoned. Starting the 26th of May, 1874, with four sledges and boats, they met open water on the 15th of August; crossed the Nova Zembla and went along the coast in search of vessels. They met the Russian schooner on the 24th of August, in Puchov Bay, and arrived at Wardoo on the 31 of September. The health of the crew was excellent. Engineer Chirsh died March, 1874, from tuberculous disease. WASHINGTON, Sept. 19.—The President has answered the message of Gov. Brown, of Tennessee, sent yesterday, in effect that until reports shall have been obtained from the District Attorney of the Western District of Tennessee, no definite answer can be given. He expresses gratification that the State authorities are taking prompt and vigorous measures against outlaws; and reminds the Governor that the United States authorities have jurisdiction over a posse in this, as well as other States, in regard to crimes like that in question.

VICTORIA, Sept. 19.—The Dean of Christ's Church Cathedral has been on trial for some days on charges of insubordination and contumacy. To-day the Bishop of Columbia delivered his judgement, revoking the Dean's license to preach. A popular agitation at once commenced, the church bell was tolled and the Bishop and his court hissed and hooted from the Church. The Dean was loudly cheered by the populace of all denominations who charged that the Dean's offense consist in his opposition to the ritualistic practices of the Bishop. On Monday night, the Bishop's barns were fired and burned to the ground and the Cathedral is guarded by the police.
