TAYLOR SULKY RAKE. The Strongest and most durable Rake in use. Cost saved in a Season. Revolving Rakes. Nellie's Harpoon Horse Fork.

GENERAL GRANGE COUNCIL.

Eastern Oregon, Washington and Idaho.

MR. EDITOR: The General Council of P. of H. of Eastern Oregon, Eastern Washington and Idaho Territory met in the city of Walla Walla, W. T., on the 7th inst., and adjourned after a four days' session.

On account of the Subordinate Granges not having sufficient notice of the meeting, the attendance was not large, nevertheless every thing was harmonious, and it is thought by the members present, that much good will ensue, and that not only the Patrons but the whole country will be benefited.

The following officers were elected for the ensuing year, viz: J. H. Douthitt, President; H. T. Levins, Vice President; Wm. M. Shelton, Secretary; John Irvine, Treasurer; M. M. Cushing, Business Agent; Robert Mays, John Irvine and H. T. Levins, Executive Committee.

The following resolutions were unanimously adopted:

Resolved, That it is the opinion of the representatives of the several Granges of Eastern Oregon, Eastern Washington and Idaho Territory in General Council assembled, that the building of locks around the Cascades and the Dalles of the Columbia river by the General Government is the only feasible means for opening up the settlement and profitable cultivation of the vast and beautiful tracts of productive agricultural country lying between the Cascades and Rocky mountains; and the Order is particularly requested to use all honorable means consistent with the organization of the Patrons of Husbandry to procure the proper legislation, and the President and Secretary are requested to furnish the Representative and Senators of Oregon, and the Delegate of Washington Territory, with a copy of this resolution and request their favorable cooperation in the Congress of the United States; and also request the Subordinate Granges to ask their members elect to the Legislature to memorialize Congress on the same matter.

Resolved, That the Secretary furnish the papers of this city, the WILLAMETTE FARMER and the Mountaineer with a copy of the foregoing resolution, and request them to publish the same.

WM. M. SHELTON, Sec'y.

VICTORIA, June 21—A little before 8 o'clock last evening Lieutenant Cavanaugh and pilot George arrived in town and reported the total loss of the United States man-of-war Saratoga, in Seymour Narrows, Johnston's Strait, on Friday morning last. The vessel struck very hard, as she was going at the rate of fourteen knots with a seven-knot current, swung around and hung on a little while. She was then headed for the Vancouver shore. Water was gaining rapidly, enabling the officers and crew to save but little of the stores, effects, clothing, etc. She remained over water before sinking just one hour. A good deal more would have been saved only that it was not known at what moment the ship would vanish.

Bronze Turkeys

30 Gobblers from \$10 to 20 months old. 24 to 40 the each. For sale now. Hens 15 to 18 lbs.

Administrator's Notice.

NOTICE is hereby given that the undersigned has, by Order of the Hon. County Court, of the County of Marion, State of Oregon, appointed Administrator of the estate of H. J. Kinney, deceased, late of said county. All persons having claims against said estate are required to present them to me at the office of Salem Flouring Mill Company in the city of Salem, in said county, within six months from the date hereof. Dated Salem, Oregon June 20th, 1875.

A. W. KINNEY, Administrator.

California Crops and Markets.

We gather the following from the San Francisco Commercial Herald of late date:

A large surplus of tonnage remains in San Francisco and three or four ships have been chartered for \$2 1/2 per ton, to load for the United Kingdom.

Receipts of new wheat have been small and farmers seem in no hurry to forward their crops.

Reports received at the bureau of agriculture from different sections, show that winter and spring wheat will yield four-fifths of a full crop. Rye promises better than wheat but will fall below the usual average. Oats are in good condition and will reach nearly a full yield in the largest producing States. Barley promises well. Clover is in fair average condition.

San Francisco Market.

Flour—\$5 00 to 5 37. Wheat—\$1 65 to 1 74. Barley—\$1 40 to 1 50. Oats—\$2 05; best Oregon, \$2 13 1/2. Rye—\$1 35.

Portland Markets.

Wheat, pr cental, sacked... 1 50 to 1 50. Flour, jobbing at from... 3 50 to 4 00. Oats, pr lb... 1 40 to 1 40. Bacon... 10 to 12. Ham... 12 to 14. Lard... 12 to 14. Eggs... 12 to 14. 1856. 1875. KNAPP, BURRELL & Co., OFFER FOR

The Harvest of 1875, THE FOLLOWING

FARM IMPLEMENTS and MACHINES.

Champion Reaper and Mower.—The BEST Self Rake combined Machine in the World, as evidenced by the fact of its having received the highest awards at Exhibitions and Field Trials, both in Europe and America in 1874. Strong, and suitable for Flax as well as Grain. Send for Circulars before deciding what reaper to buy.

Dodge's Reaper and Mower.—"Ohio" and "Backeye" patents combined, with Dodge's improvements in size, Nos. 1 and 2. Can be set to cut higher than any other Self Raker. Prices greatly reduced for 1875. Send for Circular entitled "Twenty Reasons why Farmers should buy the Dodge."

Metromick's Reaper and Mower.—Hand Rakes; extra strong and durable. Prices low.

Marsh Harvester.—Desirable and economical way of harvesting grain. Binds, ride, radical change and improvements for 1875. Many prefer them to Headers and Reapers. Send for Descriptive Circular.

Haines' Header or Harvester.—With Dodge's improvements and other additions for 1875. Two sizes, ten and twelve feet cut. Our Headers are made in Pelee, Illinois, and are the most approved style and make. Send for "inferior makes" with pretended improvements, that may be offered by California dealers or their agents.

Clipper Mower.—Four sizes—Combines all the desirable features that are found in any other Mower. Nos. 3 and 4 are more particularly recommended for heavy crops. Descriptive Circulars furnished. Prices reduced for 1875.

Sprague Iron Mower.—A model of simplicity and perfection of mechanism, and is THE BEST ganged machine yet introduced; is strong and durable and unquestionably THE BEST moderate priced Mower in the market. Send for a "sprague pamphlet" and examine into the merits of this Mower.

Knives and Chain Threshers.—Wheeler, Mellick & Co's two sizes, with special improvements not to be found elsewhere.

Horse Powers.—All sizes and styles, including the new model Pitts, both "Mounted" and "Down."

Taylor's Sulky Rake.—Superior to any other Rake yet introduced. Very desirable for cleaning wheat fields as well as raking hay. Have had them made expressly "to order," stronger and heavier than can be found elsewhere.

Revolving Rakes.—8 and 10 feet long.

Barnes Rake.—Nine feet head, mounted on "runners," new tripping device; is much THE BEST Revolving Rake made.

Buffalo Pitts Improved "halleegeer" Reheader.—More improvements and additions for 1875, in both Reheaders and Powers. Want of space forbids enumerating. Is now recognized as "THE Leading Reheader," and stands far ahead of the "Widest of the Blowers" in the estimation of the Threshing public. GUARANTEED to separate faster and clean better than any other Thresher known. Particular attention is called to the rollers "END SHAKE" SHOE, and new improvements in the "Mounted" Powers, etc. Threshermen who have not seen the changes and improvements made in the "Pitts" Buffalo Thresher during the last two years, will consult their own interest by looking at the "CHALLENGER" before buying elsewhere. A NEW PATENT RIDGE for THRESHING FLAX can be furnished when desired. All sizes, from 4 to 12 horse power. Look out for "Bogus" Pitts' Threshers. The Genuine are made only by Jas. Brasly, Buffalo, N.Y., and can be had only through us or our authorized agents.

Use Hay Forks.—"Nellie's" Harpoon, acknowledged to be the best. Also Palmer's.

Van Wills.—Clark's "Double Shake" Pacific Mill. The only Mill that will separate oats from Wheat perfectly.

Victor's Scales.—Hay, Platform and Mill Scales. Various sizes.

Thurns.—"Blanchard's," the best in the world; also the Cylind and Thermometer.

Wagons.—We have both the "PACIFIC" and the "NEW PATTERNS" extra strong and heavy timbers. Wheels soaked in BOILING OIL, and other improvements for 1875. Guaranteed to run lighter and outwear any other wagon in this market.

Spring Wagons.—A New three and four Spring Wagon complete, with two seats, &c., cheaper and better and more complete than those made here.

Harvesting Tools, Mill Stones, Extras for Machines, Snut Machines, Sickle Sections, Steam Engines, Rubber & Leather belting, Planing Machines, Turbine Water Wheels, Buggies, Carriages, etc.

We import only the BEST articles, and our prices will at all times be as low as the lowest.

Liberal terms to the Trade, Manufacturers' Descriptive Circulars mailed on application.

KNAPP, BURRELL & CO., Portland, Oregon.
