IMPROVED Aetna Sewing Machines.

The Improved "AETNA" is a noiseless Shuttle Dock-stitch Sewing Machine, using a Straight Needle. It has been manufactured and extensively used in New York city for over ten years and has always been held in great favor on account of its extreme simplicity, durability, and wide range of work as a Family Machine, and no person who has been the owner of one, has yet been found willing to relinquish his AETNA for any other, where all kinds are so well known. Yet our mechanical experts have been able to make some valuable improvements, and we now present to the public the IMPROVED AETNA, with the confidence inspired by experience that it combines the good qualities of all Machines, and will meet the wants of every family, no matter for what work it is required.

Agents Wanted in every town in the State, to whom a liberal discount will be given. Machines sold on instalments or on notes. A liberal discount will be made for cash. L. H.
