had experience in Pomona's special field, to give seekers after knowledge in that branch of husbandry the banefit of such experience. Messrs. Henry Denlinger and Rev. P. S.

Knight, two much esteemed friends, have lately called upon me for advice as to what they shall plant, the first designing to plant rather extensively, for San Francisco market, the other desirous of a family orchard of the choicest varieties. As I well know these gentlemen would be well pleased if, (at the same time I am giving them the benefit of what experience I have had) any others in- ations, in view of the new business scheme terested may participate, the columns of the FARMER are used as the means of communicating it.

Before proceeding to tell what I should plant, permit me to say a few words about where I should plant: Twenty-six years of observation in this cliquite indicates to me that the richest deepest so I that can be had, under or over which living water is moving. is the most enduring and prefitable orchard site. I would much prefer the one where the water can be made to flow over the surface of the ground rather than under it. As this kind of a situation cannot always be had, my next choice would be deep, rich, calcareous soil, high enough to insure good natural drainage, a northerly aspect preferred. The situation fixed upon, were I going to plant like friend Deulinger, at Yaquina Bay, with Molagan, Corvailis, mare 3 yrs old and over, Kate, list p. B. have uniformly heard it well spoken of here by buyers for shipment If I added to this list it would be a few Blue Winter Pearmains, for their showy

qualities, and a few of the Romanites and Lady apples. Now, for a famfly orchard, say of 100 trees.

Business Matters of the Grange.

We understand that notwithstanding the failure to obtain the desired amendment to the General Incorporation Act, the effort will be made to effect, through some suitable means, such incorporation as will insure the organization of a State co-operative company on the Rochdale plan.

The Master of the State Grange, Mr. Wm. Cyrus, we are assured, considers it possible to adopt some plan that will answer the purpose and avoid all difficulty.

There seems to be now nothing in the way of a peaceful settlement of all business complications, as the North-western Shipping, Storage and Commission company, have left the field, and have discontinued active operbeing carried out. This company has turned all stock on hand over to the Incorporating Committee of the State Grange, for the use of the co-operative association they are about to organize. This leaves the field open and obviates all difficulties that have existed.

Marion County Council.

There will be a meeting of Marion county Council, P. of H., on Menday, the 27th of Nov., at ten o'clock in the Lyonoon Among other business, the subject of organizing a Pomona Grange for Marion county, will be JOHN DOWNING, discussed.

President of Council. All Granges of Marton county should be

represented. The meeting will be held in Salom.

THE ELECTION.

The election for Presidential Electors took place throughout the Union on Tuesday, Nov. 7th, and, up to the time of our going to press, the returns favor the choice of the Republican candidates for President and Vice President.

We give below the latest dispatches to the Oregonian:

WASHINGTON, Nov. S .-- Latest advices from North Carolina represent that districts not yet heard from may possibly overcome Democratic majorities.

SAN FRANCISCO, Nov. S .- Sargeant has a telegram from the National Republican Committee stating that Hayes has 185 votes sure.

COLUMBUS, Ohio, Nov. 8 .- There is great excitement here over the announcement that Hayes is elected.

NEW YORK, Nov. 8 .- Times concedes the State to Tilden by 30,000.

COLUMBUS, Nov. S .- R. C. McCormick, of the National Committee, has just telegraphed Wyncoff Chairman State Central Committee, that Pennsylvania, South Carolina, Wisconsin, California and Florida are all sure for Hayes, and New York uncertain.

NEW YORK, Nov. 9 -- Feeling growing stronger that Hayes is elected. Times, Herald, and Tribune all claim Hayes' election.

LATEST.

The latest returns up to Thursday morning elect Hayes and Wheeler by one votebut the Democrats claim that Tilden has a majority of three. Both parties claim Flori-Jaa nd Connectleut.

OREGON.

This State has gone for Hayss and Wheel-or by a inspirity of five or six hundred, and Richard Williams, Republican, is elected to Congress by a still larger majority.

Multnomah county gives 600 Republican majority; Clackamus 150; Marion, 650; Douglas, 170; Washington, 200.

Jackson and Lake give 350 Democratic majority; Linn 250; Wasco, 250.

A tabulated statement in the Oregonian shows that Oregon has given Hayes 1200 majority, and Williams the same-but the official returns will likely reduce these figures.

NEW YORE, Nov. 7.-President Grant, in an interview relative to the presence of troops in some of the Southern States, says it must be remembered that under their in structions the troops cannot interfere with any of the rights of citizens; that they are simply to be called on to protect all alike, without regard to party or as to political action. Those who are quiet and law abid-ing citizens, have nothing to fear from either

officers or men, for either are well known to be practically and indifferent to the course which political affairs may take; and by reason of their profession are naturally disin-terested. Of the need of the troops in South Carolina the President said: Murder has Carolina the President said: Murder has been frequently committed, and the further sacrifice of life was imminent, which the Government and Stale were powerless to prevent. The request for troops was proper-ly preferred, and I could not if I would, have

ared to ignore it. These hops were raised by Messra. Carpenter Brothers and Messra Benton & Heaton on their farms mear the mouth of the Attahnum Valley. We are told that the soil and climate of the Yakima country is particularly adapted to the raising of hops, and the gentlemen who have invested in this new enterprise are well satisfied with this year's result. Nixt year they expect to double the quantity, and each year hereafter the business will become one of the greatest and most profitable exports of the sates and most profitable exports of the sates and most profitable exports of the sates and most profitable syster. Those Mammoth Squashes.

DALLAS, Oct. 28, 1876. ED. FARMER: Dear Sir-

In your issue of 20th inst, in mentioning the different partles and their exhibit, you make mention of my potatoes, &c. which is correct, and I am very much obliged for the same, but I only ask for what I exhibit, and no more. The two squashes you mentioned -one weighing 177 lbs-wore on the right of my stand. That one was, I think, raised by Mr. Rinearson, the other I never learned who was the owner, but whoever he may be will expect to have justice done him. As they were both larger than mine I am will ing to "isy down the spools" for the present Yours Taciy, E. L. DELASHNUT.
