Correspondence from the G. W. C. T.

PRAIRIE CITY, Feb. 21, 1877.

ED. FARMER: Our public temperance meeting at Baker City on the evening of the 16th inst., in the M. E. Church, was presided over by Rev. W. T. Koonz, and was largely attended.

On the morning of the 17th, we took the buck board for this place where we arrived on Sunday evening the 18th inst., and found a large audience awaiting us. The meeting was held in the new and magnificent Grange Hall, and the attention to the lecture was excellent indeed.

A rain storm is prevailing here at this time and the snow is about all off of the valley.

W. R. DUNBAR, G.W.C.T., writing from Canyon City under date of Feb. 21, 1877 says: "Our public meeting here to-night was largely attended—the hall was full to overflowing."

Reports from thirty Lodge Deputies show a net increase of 250 members in quarter ending January 31, 1877. I am looking for the reports from the other Lodge Deputies in a few days.

It cost \$400 to welcome a Brigadier General to the Pacific coast, and then for the first four weeks he is allowed to beat everybody at poker for courtesy's sake.

To have the money needlessly spent every year would give substantial comfort to all. To have the money saved by buying SILVER TIPPED boots and shoes would buy each parent every year a new pair of shoes.

THE INAUGURAL ADDRESS.

The following is President Hayes' inaugural address:

FELLOW CITIZENS: We have assembled to repeat the public ceremonies begun by Washington and observed by all my predecessors, and now a time-honored custom, which marks the commencement of a new term of the Presidential office.

At the outset of the discussions which preceded the recent Presidential election, it seemed to me fitting that I should fully make known my sentiments in regard to several of the important questions which then appeared to demand the consideration of the country.

With respect to the financial condition of the country I shall not attempt an extended history of the embarrassment and prostration which we have suffered, during the past three years. The depression in all the varied commercial and manufacturing interests throughout the country which began in Sept., 1873, still continues.

LABOR SYSTEM

Of a large portion of our country and the advance of four millions of people from a condition of servitude to that of citizenship, upon an equal footing with their former masters, could not occur without presenting a problem of the gravest moment to be dealt with by the emancipated race, by their former masters, and by the general government.

EFFORTS OF BOTH RACES.

Actuated by motives of mutual sympathy and regard, and while in duty bound and fully determined to protect the rights of all by every constitutional means at the disposal of my administration, I am sincerely anxious to use every legitimate influence in favor of an honest and efficient local government of the true resources of those States for the promotion of contentment and prosperity of their citizens.

But as the basis of all prosperity, for that as well as for every other part of the country, the improvement of the intellectual and moral condition of the people.

UNIVERSAL SUFFRAGE SHOULD REST UPON UNIVERSAL EDUCATION.

To this end liberal and permanent provision should be made for the support of free schools by State governments, and, if need be, supplemented by legitimate aid from national authority.

CIVIL SERVICE.

I asked the attention of the public to the paramount necessity of reform in our civil service, a reform not merely as to certain abuses and practices of so-called official patronage which have come to have the sanction of usage in the several departments of our government, but a change in the system of appointment itself, a reform that shall be thorough, radical and complete.

THE PRESIDENTIAL TERM SIX YEARS.

The President of the United States, of necessity, owes his election to office to the suffrages and zealous labors of a political party, members of which cherish with ardor and regard as of essential importance the principles of their party organization; but he should strive to be always mindful of the fact that he served his party best who serves the country best.

FINANCIAL.

Intimately connected as it is with this topic, I may be permitted to repeat here the statement made in my letter of acceptance. In my judgment the feeling of uncertainty, inseparable from an irredeemable paper currency, with its fluctuations of values, is one of the great obstacles to a return to prosperous times.

THE CURRENCY QUESTION.

There is no exaggeration in the statement that thousands of persons residing from one end of another in fever and ague regions on this Continent and elsewhere, breathe air more or less impregnated with miasma, without incurring the disease, simply and only because they are in the habit of using Hostetter's Stomach Bitters as a preventive.

A Remarkable Cure.

Gentlemen.—Several years since I took a severe cold, which settled on my lungs, where it remained without relaxation. I was then in Massachusetts, and growing weaker and becoming unable to attend to my business I returned home and commenced searching in earnest for some medicine which would restore my lost health.

garded as otherwise than wrong by the unscrupulous party in the contest. The fact that two great political parties have, in this way, settled disputes in regard to which good men differ as to the law no less than as to the proper course to be pursued in solving the question in controversy, is an occasion for general rejoicing.

From a Distinguished Jurist. "I have tried the PERSUVIAN SYRUP and the result fully sustains your veridicality. It has made a new man of me, infused into my system new vigor and energy. I am no longer tremulous and debilitated as when you last saw me, but stronger, heartier, and physical, than at any time during the last five years." Sold by all druggists.
