

I. O. Q. T.

DIRECTORY.

Grand Officers. G. W. C. T.—W. R. Dunbar, Silvertown. G. W. C. T.—Mrs. S. G. McClung, Eugene City.

State Deputy G. W. C. T. Rev. J. R. N. Bell, Ashland. Wm. Russell, Weston. Capt. O. C. Applegate, Linkville.

District Deputy G. W. C. T. W. T. Richey, Turner. W. H. O'Donnell, Portland. J. C. Cocke, Roseburg.

Subordinate Lodges.

Table with columns: No., Name, Lodge Deputy, Address. Lists various lodges and their members across different regions.

DECISIONS

By the Grand Worthy Chief. 1. A clearance card granted by one Lodge cannot be amended or changed by another Lodge.

Correspondence from the G. W. C. T.

JOHN DAY TOWN, Feb. 3, 1877. ED. FARMER: The meeting of John Day Lodge No. 80 (Canyon City) last night was a splendid one and will long be remembered by those who were present.

HALSEY, March 10, 1877.

ED. FARMER: The following is the list of officers of Valley Lodge, No. 155: E. H. Paine, C. T.; Nettie Ray, V. T.; L. E. Penland, S.; Jno. Branwell, A. S.; E. H. Penland, F. S.; Sarah Parton, T.; S. S. Hayes, M.; Mary Barnett, D. M.; Jno. Rabb, C.; H. E. Davies, P. W. C. T.; J. W. Rector, Sen.; Annie Windau, I. G.; Emma Thomas, R. H. S.; Mrs. M. J. Penland, L. H. S.

The Tennessee Jubilee Singers.

Wednesday evening the Opera House, at Salem, was filled to overflowing with an audience composed of the best people in Salem, to here these colored minstrels sing the peculiar revival melodies of the negroes of the South.

Leech in Sheep.

ED. FARMER. Finding your paper has a large circulation among the farmers of Oregon, and as it is conducted in the interest of that class more than any other, I would beg leave to inquire if there is any among your many readers that has a cure for leech in sheep, and if there is it would be doing the farmers in this section a kindness to let it be known, for the leech has proved fatal among many flocks of sheep in this county, to my knowledge.

New Job Office.

A. L. Stinson, formerly proprietor of the FARMER, has purchased the Job Printing Office lately conducted by Redington & Rinehart, in Salem, and will soon enlarge the same by the addition of new presses, type, and other material, thus making it equal to any establishment of the kind in the State.

On the night of the 7th instant the Robbin mansion at Seattle was destroyed by fire.

To have the money needlessly spent every year would give substantial comfort to all.

To have the money saved by buying SILVER TIPPED boots and shoes would buy each parent every year a new pair of shoes. Also try Wire Quilted Soles.

CENTAUR LINIMENTS.

One Kind for the Human Family. The other for Horses and Animals.

These Liniments are simply the wonder of the world. Their effects are little less than marvellous. The White Liniment is for the human family. It will drive Rheumatism, Sciatica and Neuralgia from the system; cures Lumbago, Chills, Lockjaw, Palsy, Itch and most Cutaneous Eruptions; it extracts frost from frozen hands or feet, and the poison of bites and stings of venomous reptiles; it subdues swellings, and alleviates pain of every kind.

INDIANA HOME, JEFF. Co., Ind., May 28, 1873. "I think it my duty to inform you that I have suffered much with swollen feet and chills, and a few bottles of Centaur Liniment has done the work for me. I have not been free from these swellings in eight years. Now I am perfectly well. The Liniment ought to be applied early."

The proof is in the trial. It is reliable, it is handy, it is cheap, and every family should have the White Centaur Liniment.

The Yellow Centaur Liniment is adapted to the tough muscles, cords and flesh of horses and animals. It has performed more wonderful cures, in three years, of Spavin, Strain, Wind-galls, Scratches, Sweeney, and general Lameness, than all other remedies in existence. Read what the great Expressmen say of it:

Every owner of horses should give the CENTAUR LINIMENT a trial. We consider it the best article ever used in our stables. "H. MARSH, Supt. Adams Ex. Stables, N. Y." "E. PULTZ, Supt. U. S. Ex. Stables, N. Y." "ALBERT S. OLIN, Supt. Nat. Ex. Stables, N. Y."

The best patrons of this Liniment are Farriers and Veterinary Surgeons, who are continually using some Liniment. It heals Galls, Wounds and Poll-evil, removes Swellings, and is worth millions of dollars annually to Farmers, Liverymen, Stock-growers, Sheepsalers, and those having horses or cattle.

What a Farrier cannot do for \$20 the Centaur Liniment will do at a trifling cost.

These Liniments are sold by all dealers throughout the country. They are warranted by the proprietors, and a bottle will be given to any Farrier or Physician who desire to test them.

Laboratory of J. B. ROSE & Co., 46 DEY ST., NEW YORK.

Bro. A. M. Allen, W. C. T. of Ochoco Lodge reports sixty members—an increase of ten or twelve in last term. He says the Lodge is doing an excellent work.

Brooklyn No. 115, makes the largest gain during the quarter of any Lodge in the State.

Two new lodges have been organized in Clackamas county this month.

Pitcher's Castoria is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and Irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. Few remedies are so efficacious for Feverishness, Croup, Worms and Whooping Cough. Castoria is a scientific and purely vegetable preparation, more effective than Castor Oil and neither gives nor gripes. Prepared by Messrs. J. B. ROSE & Co., 46 DEY Street, New York, from the recipe of Samuel Pitcher, M. D., of Barnstable, Mass.

To Cultivator Subscribers.

We are sending postal cards to former subscribers of the Oregon Cultivator, informing them how their account stood Feb. 15, '77 when the list was turned over to us. One object in doing this is to ascertain if the accounts are correct and wherever subscribers have paid money that has not been credited we request them to forward the receipt to us immediately as so much money, and it will be credited to them.

Another object is to establish a starting point with subscribers and have a mutual understanding of how their accounts stand, to avoid future misunderstanding. If there are any offsets we wish to know them now, AND WITHOUT FAIL.

Still another object we have in sending out these accounts is to induce those who are considerably in arrears to make payment of at least part of the sums due, this spring. We know times are hard, but that applies to us as well as to the farmer, and while we base our subscription price on supposed advance payment, we are willing to accommodate those who wish to pay the current year's subscription after harvest. We however, request payment of back dues—at least in part—at the present time.

Dunning our subscribers is not pleasant to us, and we also find it unpleasant to be harassed for want of means to do business. We shall esteem it as a great kindness, then, if those in arrears for the Cultivator (and FARMER also,) will try to make a partial dividend, at least this spring.

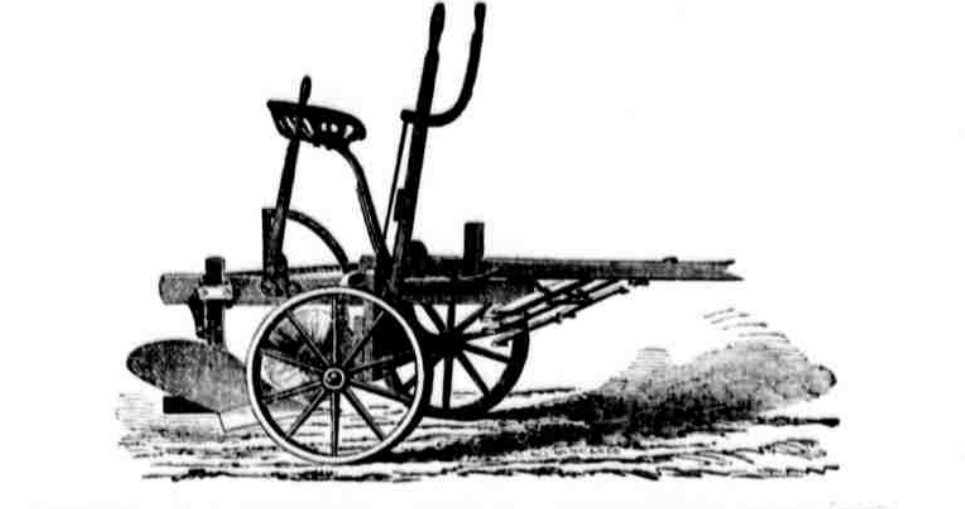

Value of Carbolic Sheep Dip.

WASCO Co., Oreg., Feb. 21, 1877. T. A. DAVIS & Co., Portland, Or. Dear Sir: In answer to your enquiries in regard to our opinion of the value of Mallinckrodt's Carbolic Sheep Dip, we would say that we consider it a sure cure for scab, if thoroughly applied. In the spring of 1857, our flock of 1700 head was very badly affected by the scab, there being hardly a healthy sheep among the number. We fed them freely with sulphur and salt for two months, and then dipped them twice, at intervals of sixteen days, in the Carbolic Dip, diluted in the proportions of 40 gallons water to one of Dip, and maintained at a temperature of 100 degrees. The cure has been complete. We have seen no trace of the scab since. We recommend the feeding of sulphur and salt to drive the parasites which cause the scab to the surface, where the Dip can easily reach them. Yours truly, WATKINS & COMSTOCK.

PACIFIC COAST SENATORS.—The Pacific Coast Senators have been handsomely provided for with places on the new Senate committees constituted to-day. Sargent is made chairman of the committee on Naval affairs and is retained on the appropriation committee, being now second on its list of members. He is also placed on the printing committee, but on account of the increase of work involved in these positions he retires from the mining committee. Booth remains chairman of the public land committee, and is made chairman of the committee on manufacture, and given an additional place as a member on civil service and retrenchment.

PLOWS. GARDEN CITY PLOWS, IMPROVED For 1876.

WE HAVE ON HAND, AND ARE RECEIVING, THE LARGEST STOCK OF THE ABOVE-CHEERFUL Garden City Plows ever imported to the Pacific coast. The success of these Plows last year exceeded any high ever before known in this State. Those now on hand are made with new and special improvements, Warranted Superior to any Plow in the United States!

THE GARDEN CITY SULKY PLOW, Cutting 14 and 16 inches, with 3-horse Attachment, and 16-inch rolling Cutter, is without a rival. It has been so thoroughly tested that we warrant its operation in any soil in the State. These Plows are sold with that guaranty. Send for Circulars and Price Lists.

NEWTON WAGONS, All Sizes, Monitor Broad-Cast Seeders and Cultivators, GARDEN CITY CULTIVATORS AND HARROWS. T. CUNNINGHAM & CO. SALEM, Sept. 28, 1876.

Jones retain his position on the finance and postal committees, and also his chairmanship of contingent expenses, and remains on privileges and elections and claims committees. Grover is assigned to territories and enrolled bills. Sharon is made chairman of the mining committee, and given a place on the committee on education and labor.

The Lewiston Teller has this description of Joseph's creek, the rendezvous of Joseph and his band:

"It empties itself into the Grand Ronde river from the east a short distance above the mouth of the Grand Ronde. It is described as a small stream running through a deep canyon or gorge in the high table lands, with very narrow bottom lands along the creek near its mouth, densely covered with cotton wood trees and a thick undergrowth, while the sides of the canyon are very rocky and precipitous, furnishing a well sheltered place against an attack of troops in case those Indians make a hostile stand against the whites. Our informant says that one hundred resolute Indians well armed and supplied could hold their position against a thousand troops who might attempt to dislodge them.

Another bone mine has been found in Idaho. The Lewiston Teller of March 3d says: At the time of the first digging the Lewiston ditch, at about one mile above town and about fifteen feet under ground the tooth of a very large animal was found in a partially decayed condition. On Friday of last week other bones in great quantities, also in a decayed condition, were found at the same point. One of them supposed to be the shoulder bone, was of the dimension of nearly six feet in length by three and one-half feet in width in places, leaving but little room to doubt that these are the bones of a mastodon of large size which perished there ages ago.

From the Eugene Journal we learn that the citizens of Irving, Lane county, and vicinity are moving in the direction of building a large flouring mill at that place.

From a Distinguished Jurist. "I have tried the PRUVIDIAN SYRUP and the result fully sustains your prediction. It has made a new man of me, infused into my system new vigor and energy. I am no longer tremulous and debilitated as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years." Sold by all druggists.

A Remarkable Cure. WEST TOWNSEND, VT., May 14, 1860. MESSRS. S. W. FOWLE & SONS: Gentlemen.—Several years since I took a severe cold, which settled on my lungs, where it remained without relaxation. I was then in Massachusetts, and growing worse and becoming unable to attend to my business I returned home and commenced searching in earnest for some medicine which would restore my lost health. I consulted physicians, I tried many remedies, but obtained no help, but daily grew worse. I had a terrible cough, and raised a good deal of blood. I had profuse night sweats, and severe pain in my side. I continued in this state for months, and became so weak that it was with great difficulty I could walk. When I was advised to try WOODS' BALSAM or WILD CHERRY, and to my great joy I soon found that this remedy had arrested the disease. I continued to use the BALSAM to the extent of five bottles, and have since then experienced no difficulty of lungs. I believe the BALSAM saved my life, and I shall ever hold it in high estimation. Yours truly, LEWIS PHELPS.

CABBAGE PLANTS. CAULIFLOWER AND TOMATO. By the 100 or 1000. CABBAGE PLANTS, 50c per 100; CAULIFLOWER \$1 per 100; Tomato, 50c each, or \$1.50 per 100. Grown at my Greenhouses, two and a half miles east from Salem. Discount allowed to Dealers. DEXTER FIELD.
