DECISIONS By the Grand Worthy Chief.

 A charge was preterred against a mem-ber for improper and abusive language toward another member in the lodge room after lodge had adjourned. Charge preferafter lodge had adjourned. Charge preferred at next regular meeting. Referred to committee which reported charge sustained. In due course of time a ballot was taken by the Lodge and the charge was not sustained. At our next regular meeting a motion to recommit the case prevailed. Was the action
of the Lodge in recommitting the case legal?

Ans.—It was not. The Lodge could have
recommitted the case or referred it to a new
committee any time before final action but

ED. FARMER: Perhaps some of your readers may be interested in a few lines from this part of the valley, and also with a report from our little Lodge of Good Templars that is working for the glorious cause of temperance. Our lodge is doing very well at present; we have had a long and continued seige of opposition, but the light is at last beginning to dawn upon our path, and the good cause moves on in its noble work. We have a membership of about thirty, and slowly increasing, and may our little band of true Brothers and Sisters be ever found with their shoulders to the wheel, and may Center Lodge, No. 251, be with the liveing and not the dead. Yours truly, in F. H. & C. G. E. P.

Plummer's Fruit-Dryer.

Mr. Plummer informs us that he has already orders for several large fruit-dryers for the coming season and expects to make a large business of manufacturing the various sizes of machines. He has received positive assurance from Washington that his machines are no infringement on other chines are no infringement on other patents, as asserted, and expects to receive several other patents for improvements he has adopted. His dried potatoes, of which we made mention some time since, readily sell at eight cents per pound, and that insures a good profit to both producer and manufacturer. Potatoes are cooked first, then mashed and dried, so that it only requires the addition of hot water to prepare them for immediate use. Those thus put on the market have given great satisfaction to captains of vessels who have used them, and if prospects are realized there will be a great business built up in that connection. It will make it profitable to use the dryers all the year round, on different varieties of fruits and vegetables.

> "I WOULD NOT LIVE ALWAY."-Rev. Dr. Muhlenberg, author of the beautiful hymn beginning, "I would not live alway," died a few days since in New York, in the eighty-second year of his age. The hymn was written in 1824, and has been sung with rapture by thousands. The authorship of the lines has been the subject of so much controversy, that the Dr. has often expressed the wish that he had never written them, as the queries propounded implied a doubt of his word.

OREGON PIONEER ASSOCIATION.

SALEM, April 13, 1877.

ED. FARMER: Hon, Elwood Evans of Olympia, W. T., has consented to deliver the annual address at the Pioneer re-union to be held at the State Fair grounds on June 15th and 16th, 1877. Mr. Evans is a gentleman of fine culture and an elequent speaker, and his effort will be second to none heretofore delivered, although Oregon's best speakers have addressed the Association. Mr. Eyans is a pioneer and well posted on the early history of this coast,

J. HENRY BROWN, Rec. Sec'y.

UMATILLA COUNTY .- A letter to us from J. A. Downing, Weston, Umatilla county, says: "We are having beautiful weather; this season is at least a month earlier than usual. Grass is good, and stock in fine condition. Our prospect for good crops has never been better at this time of year than at present. There has been about one-third more acres sown this year than ever before, and farmers are jubilent with the prospect of being able this fall to blanket a good portion ward in a few days. He will go as far as of the Columbia, from Wallula to Astoria with sacks of wheat,"

Two hundred Nez Perce Indians, including Joseph and his followers, are now on the Umatilla reservation visiting. They are going to have a talk with Agent Cornoyer about Joseph's troubles with regard to Wallowa valley.

Encouragement for the Feeble.

Debility, whether it be inherent, or caused by overtaxed strength or protracted illness, has a most depressing influence upon the mind, breeding an object melancholy nearly akin to despair, and enforcing the abandonment of cherished projects and high hopes. Happily, the enfeebed system, even in extreme cases, is susceptible of invigoration. It is proved by ince, is susceptible of invigoration. It is proved by incontrovertible evidence that Hostetter's Stomach Bitters is an unfailing strengthener of the weak, and
that in addition to vitalizing the physical organization, it establishes regularity among those organs
upon whose efficient discharge at the duties imposed
on them by nature, continued vigor and health depend. Thousands of instances might be cited to
show the resenerating influence of this bealth-giving
agent in cases of debility, liver disease, dyspepsia,
nervous ailments, constipation, intermittent fever,
urinary and uterine troubles, goat and rheumatism,
and other maladies.

the dryers all the year round, on different varieties of fruits and vegetables, which will, of course, add to the importance of the business by making it more permanent than merely drying fruits when they happen to be in season. These remarks of course apply to all good dryers of whatever make.

The improved value of our old orchards when the fruit is made available by drying is plainly shown in a letter from Mr. A. L. Alderman of Dayton, Yamhill Co., published in the Oregon Reporter in which he says:

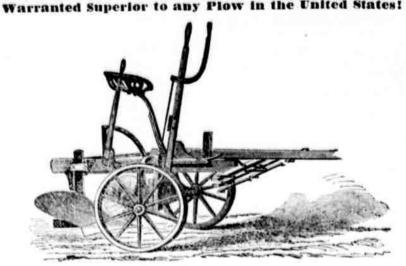

I wish to give the farmers of our county seeme of my experience in fruit-raising. For several years I have had a large amount of fruit but it was of very little value, so that I had about decided to dig up the trees and farm the land. One year 3go I would have given any man the use of the land, (4) acress lorder of the County of the crop had persished, I got a Plummer bryer. I dried \$500 worth, and my dryer, including a building 20x36 feet, cost me \$700. Six hands, using one half cord of wood, can dry sixty bushels of appose in ten haurs. I propose to plant 2000 prune trees in the spring. I believe we can do bester than to let our fruit waste. I like ray dryer very mouch, and am now glad I did not dig up in ordeard.
