[From the Lewiston Teller]

MOUNT IDAHO, June 16th. 8 P. M.—Sad news to night, via Florence, from Salmon River. The killed so far ss known, are Dick Devine, Henry Elfres, Bob Bland, Henry Strowbridge, nephew of Elfrees, — Osborn, Harry Mason, C. H. Brown, Jack Manuel, Samuel Bendict, James Baker, Pat Rice, Victor and Joe Oulds; William

George, wounded. No women and children killed on Salmon river reported yet. Mr. John Chamberlain and child were killed at same time of Norton wife and other child wounded. Troops arrived to-night. The Indians have left this afternoon, attempting to cross Sal mon river. So we think some effort should be made to check them from Walla Walla, as we think they will go towards Wallawa, as we think they will go towards Wallowa, or that country, and may commit other depredations. They have a large band of horses belonging to people here, so thought, and will be pursued by the people from here. It is Joseph's band, with other renegades.

The operator at Walla Walla telegraphed at 8:30 last evening (Wednesday) :

at 8:30 last evening (Wednesday):

I received a letter to-day from my brother,
He is living on the Alpowa, about 15 miles
below Lewiston. He says: The Norton
murder was led by Hus-hus-cut, Chief of
the Wa-wa-wi and Palouse Indians, and
there are more killed than reported. He
says there was a man stopped at his place,
and the man stated an Indian told him Joseph declared he had Indians enough to
whip all the soldiers at Lapwai and Walia
Walla if they were at one post, let alone two.
The people at Lewiston, the man says,
blame Howard and Montieth for the whole

killed no named in the dispetches sent, and the trop e is worse than the Oregonian has it. Some things I see in the paper that were not teles aphed. It did not start about a horse tree e at all, but was a regular outbreak. No messenger yet.

Sherman sent a telegram to

Gen. McDowell as follows:
Youe several dispatches received, and I trust the first report of the disaster to two companies under Capt. Perry will prove incorrect, and that the combination among disaffected Indians is not as extensive as reported. Still we must meet the danger and overcome it, be it what it may. Gen. Howard is on the spot and can ascertain the exact ard is on the spot and can ascertain the exact truth. You can first support him by all the troops available, and call for reinforcements only after you have used all subject to your command. The aggregate number of Indian scouts possible for your division is 180. Surely you can let Howard have an even hundred by ordering Kautz to discharge a corresponding number.

You will direct them to be furnished upon the Governor's requisition as provided by Joint Resolution, of July 30th 1876 and March 3d, 1877." GEORGE W. MCCEARY,

Can you send one hundred stand of arms to Weston? Chas. McMorris.

THE GOVERNOR'S ANSWER. SALEM, June 22, 1877.

Chas. McMorris-Dear Sir : I have made a requisition for guns and amunition under your request, of Department Commander at Portland, Gen. O. O. Howard.

By the enclosed resolution (published above) you will see that I can get no Springfield rifles or needle guns, for the reason that they are the guns now used by the U.S. troops, I can only get the guns not used by by the troops, which are muskets. You will see by this that I have done the best I could. You will see further that I have to give a bond to return these guns or pay for them.

You will therefore account to me for them when the use of them has ceased. Your most ob't Servant.

S. F. Chadwick, Governor. General Brown has directed the Capital Guards to be filled up at once, and hold themselves ready for marching orders.

The Guards will meet to-night for drill and to receive volucteers. Gen. Howard telegraphs Portland this

A. M. that the Indians have all crossed Snake River and seem to be pushing to the South East.

Recruiting at Salem.

brill meetings will be held at the Armory every night for the purpose of instructing the new recruits in the manual of arms and marching evolutions.

The probability is strong that the company will be required to go early in the coming week to the neighborhood of the Wallowa Valley to set a proposition against the Valley to act as a preventative sgainst the Indians of that section participating in the outbreak of Joseph's band, rather than to do any fighting.

It is thought that the presence of a large force will soon quell the disturbance. Those of our crizens who can leave their homes and business should hasten to fill

out of 5,000 people, Salem should have no difficulty in raising in 24 hours a good company of 100 men. "Come to the center."
