Jeweler & Optician, Bank Block, State St.

Salem. May 19, 1876. STATE FAIR OF 1877.

WALDS HILLS, Sept. 3d, 1877.

In passing over the State Fair Grounds now, persons cannot fail to perceive the energy and tact of the Managers and the Executive Committee, in general repairs, and in the erection of new buildings on the grounds. The new grand stand is 200 feet long, and stands opposite the Judges' stand. Sundry new stables are in process of erection, and great improvements are made upon the stalls for sheep, cattle, swine and poultry. Per-sons are erecting new booths or camps on sons are erecting new booths or camps on the camping grounds, and there is a new waik and platform at the Railroad depot West of the Fair Grounds. The letting off of stock at that point will be 80 yards South so as not to annoy persons coming off the care at that point. But the grand improvement on the grounds is the large theater now being erected, about 100 yards E st of the pavillon. This structure is 30x95 feet, high—box construction, with 1½x12 inch plank, of first quality—stripped with three inch laths, and the whole to be strongly built, and safe for the audience. This will accommodate thousands of theater-going accommodate thousands of theater-going people who would desire to attend and yet not willing to leave the grounds-pay back hire etc.

Preaching will also be kept up on the grounds during the Fair week.

At the price of the rents for the booths, restaurants and shops on the grounds, we can infer the estimation made by the business men who rented them, of a large attend-

ness men who rented them, of a large attendance there in 1877.

Oregon was well advertised by our esteemed Commissioner, Hon. A. J. Dufur, than whom none could have been chosen more popular and fitting. At Philadelphia, the great world saw only a small part of our products. I saw the whole in Portland in February, 1876; and I know that we can and ought to eclipse that collection at our State Fair near at hand. At least 25,000 persons will be present, if there is no great drawback from unforseen causes. And this has been a most fruitful year here, and all cereals, fruits, gardens and grasses are excellent. New discoveries have been made in our mines, and fabulous wealth from them are at hand. at hand.

at hand.

Our forests are furnishing vast varieties o' superior timber and lumber, and our fisheries and stock afford the best meats in the world. Specimens of all these, and from our floral kingdom should be brought to our State Fair in good order. Thousands of people will be there from our remote States; from Canada and from Europe.

The Managers of the Fair seem to anticipate all this, and are aiming to have all the grounds and walks put in good condition. It is to be hoped that all our manufacturers will bring up their fabrics and that our noble Oregon women will bring their handiwork and their beautiful flowers and shrubberies.

And let the raisers of fine stock of all varieties bring such up in profusion. All may not obtain premiums but a discerning public will only appreciate such stock. The bed rock farmers want to see a little army of the Percheron stock of Mr. Myers' on the Fair Grounds during Fair week. And specimens of well sawed and well dressed lumber from our saw mills, of such timber as ash, maple, alder, cedar, laurel, oak, hemlock, spruce, pine, balm and fir should be on exhibition at our Fair, and premiums awarded them. And last, but not least, the best of order should be observed; kindness extended to all, so that the multitude may have a pleasant week; old acquaintances renewed, and new ones formed and altogether, the State Fair of 1877 be a decided success. And let the raisers of fine stock of all vari-

ROLL OF HONOR.-The following named pupils having attained an average of 90 per cent. and over in scholarship and deportment, their names have been placed on the Roll of Honor:

Nettie Jarvis. Otis Gates. America Turnidge, Jaley Hester, Elwer Hester, Richard Turnidge. Mary Cushman, Helen Parmelee, Edith Parmelee, Susan Hester,

George Dodge, James Nelson, Annie Drury, Joseph Turnidge, Ashby Hester, David Smith, Mary Parmelee, Adda Cushman, Carrie Spier, Beile Gates, Willie Spier,

Lincoln Henness,

The following have not been absent or tardy during the month: Nettie Jarvis, America Turnidge, Richard Turnidge, BELLE STEELE, Teacher.

Kings Prairie, Marion Co.

Rather Mixed.

There is a strong immigration coming into Howell Prairie just now, and if there's anything in names the peace of the community may be in danger. One single house on the prairie, is occupied by new-comers named Wolf, Bear, and Lamb, not far off is an old resident whose name is Lyon, and our informant can how! (Howell) a little himself.

Garnisheed.

The judgment sgains: W. C. Griswold for \$4,000, owned by B. F. Dowell, was garnisheed, yesterday, (Tuesday) by the State Department, to satisfy a judgment obtained by the State of Oregon against Mr. Dowell, who was one of the S. E. May's sureties.

Organs.

If you want a good, round, smooth, sweettoned Organ—one that is made of the best of material, and will last a lifetime-get the Whitney & Holmes, of J. H. Robbins, Portland, Oregon.

To the Afflicted-Ladies in particular.

Why need you suffer with Paralysis when you can be cured?—Why will you suffer with Rheumatism when you can be cured? And why have so many aches and pains when it is within your reach to be cured?

I am now established in Salem, prepared to treat all Chronic Diseases, such as Rheumatism, Neuralgia, Consumption, Kidney diseases, and in fact all diseases that human flesh is heir to. Special attention paid to Female Weakness and nervous prostration, which is so common to Ladies. Children's diseases not excepted. In connection with my practice, I have one of the celebrated Medicated Vapor Lightning Cream Baths, which side vastly in removing all chronic discases. It opens the pores of the skip, and throws off the slimy, morbid matter, which is one of the great causes of so much suffering. When we once think that two thirds of all we take into our system passes off through the pores of the skin, we need not stop long to wonder why we are sick, when we pay so little attention to the most important emunctory of our bodies. Buring the part nine months I have had Far-Sighted and Near-Sighted, this bath in operation, and many can testify to its efficacy. I treat patients by the week, or by single

Ladies will do well to give me a call. Residence, southeast corner of Center and Summer Streets, MRS. D. W. CHAIG, M. D.

A Good Yield.

We learn that Mr. T. H. Hubbard, on the old Keizur place below town, has inished harvesting 160 acres of wheat, and has 4 480 bushels, machine measure, which if weighed will probably average 30 bushels per acre. He sowed last of March and in April. Off of 24 acres of oats he got 887 bushels. The neighbors prophesied they would starve on this ground, but it was summer fallowed to begin with and has yielded more and more each yeur. They plow twice and cultivate well and are making good profit off of land that was foul and was considered worn out. Another thing they ship their wheat without leaving the field, as the river fences one side, with convenit nt place to skip from. He cut threshed and shipped the 166 acres of wheat in six days work and claims a bine ribbon from somebody.

Half a Millon Short.

For the past few months every one in the valley counties has been expecting a larger grain crop than ever befor. But since har-vesting has commenced, their hopes have vesting has commenced, their hopes have faded. The fall grain turned out very well, and so also does the early sown Spring grain, but that which was sown late in the Spring is very short. Owing to the rains a great deal of late grain has been sown and the rust has affected it to such an extent that some fields will hardly pay for harvesting. From what we can learn from different parts of this county, we think it probable that our crop will fall fully one-third short. A short time ago we sent down Linn county's wheat yield this year at 2,000,000 bushels, but vield this year at 2,000,000 bushels, but judging from what we have heard during the last few days, we will do extremely well to turn out 1,500,000.—Albany Democrat.

His First School.

Master Sumter Craig, of the Willamette Farmer office, aged 14 years made his debut this morning for the first time in his life in a school room. For the past five years, Sumter has worked steadily at a case and is probably the fastest compositor of his age on the coast. During the past few months he has published as editor and proprietor (doing the publishing out of regular work hours,) the semi-monthly Argus, a very creditable little paper. Even before he could write a word himself he could set up a manuscript article neatly and correctly. At the age of about 10 he surprised everybody in the office by setting up a long article with but few mistakes, from Hon. John Minto's pen, and that gentleman's "hand write" is not as plain as the Spencerian system by any means His First School. plain as the Spencerian system by any means With Sumter's past experience in a printing office we predict for him a fine scholastic

The Yaquina Railroad.

Daniel Bringle of Linn county, will leave on the Elder and proceed eastward to purchase railroad iron for the Williamette purchase railroad iron for the Williamette Valley and Coast Railroad. The Gazette, referring to the road, says: "Work is steadily and constantly progressing on the railroad West of Corvallis, and the graders are beyond Philomath, with all the gaps filled. The nerve and vim exhibited by those in charge of the enterprise commands the confidence of our people and fully insures the success of the road, the completion of which is only a question of time and that time not far in the future."

Stolen Goods Found.

Friday isst a search warrant was put in the hands of officer Minto, requiring bim to search the premises of Lu Marshall, for certain articles of wearing apparel stolen from the residence of J. Quinn Thornton. The command of the warrant was executed and the articles found at the premises of the courtesan Marshall, who says they were brought to her house by James Wilson alias, Mathew H. Thornton.

THE CITY SCHOOLS.

As heretofore announced all of the city Public Schools commenced their Fall terms yesterday. The attendance was much larger than was ever before known on the opening day. At South Salem there were 51 scholars; at East Salem, 126; North Salem, 52; Central School, 84; and the wee small children's school taught by Miss Marie E. Smit. and Maria D'Arcy 78, making in all a total of 389 children on the opening day.

Bitten by a Dog.

Mr. James X. Smith, the proprietor of the town site of Mehama, was badly bitten by a dog last Saturday. The animal was a pet of Mr. Smith's, and had just been run over by a wagon, and he was endeavoring to examine the injury done when the dog, in the agonies of death, seized the hand of its owner, lace rating it badly. As "dog days" are over, Mr Smith will probably suffer no inconvenience from the bite otherwise than considerable soreness for some time to come.

Incorporated.

Articles of incorporation were filed this morning in the Secretary of States' office for the King's Prairie and Quartaville Wagon Road Company. The road will start from near Hennis' and go to Quartaville, a dis-tance of 18 miles. The incorporators are Dr. H. Smith, D. S. Greenman and Dr. J. W. Merideth. Capital stock \$10,000, shares, \$1 each. Principal place of business, Salem.

A True Woman.

Most everybody in the course of their lifetime have been irresistibly drawn towards a
really homely, plain unassuming woman,
whose soft silver tones and quiet ways, have made her positively attractive. In the social circle, how pleasant it is to hear a weman talk in that low key which always speak the true lady. In the home circle how such a voice soothes the fretful child and cheers the weary husband.

Arrests for August. During the month just closed John W. Minto, Chief of Police, has presented to Recorder, C. W. Bowie, twenty-eight cases. Eighteen for drunkeness. one for vagrancy, one for robbery, two for assault and battery, five for larceny and one for peddling without

Silver King Mining Company.

The Directors of this Company held in meeting last evening in Seth R. rismmer's office. By-laws were adopted, and Dr. S. R. Jessup was elected one of the Directors. The Company expect to push the work upon their mine vigorously during the present Fall and coming Winter.

An Honest Tramp.

A cow belonging to Mr. Charles Wilkins of North Salam came home the other morning with a bit of paper as ened to her horn, containing ten cents and this dote, "enclosed find 10 cents for one quart of milk taken thi morning," signed a tramp.

PEACHES -- Mr. John Martin, Salem Prairie, a few days since brought us some fine seedling peaches from trees three years old from the seed. The trees, this season, aver-age from four to five bushels each.

Accident; -T. M. Lasbo writes us from Yaq itus Bay that, on the 22d of August, his mother, Mrs. Mary Leabo, fell and broke her arm between the cibow and wrist. Mrs. Leabo formerly lived at Salem.

The l'ust thing that is lost is hope.

NOTICE TO PERSONS INTENDING TO EMIGRATE TO OREGON.

Direct Passage from New York to Portland, Oregon.

LAND DEPARTMENT O. & C. R., i
PORTLAND, June 25, 1877. 
THE CREGON STRAM-HIP COMPANY HAS
agreed to carry on its iron steamebip, now being
built at Chester Pa, by John Roach & Son, upon her
completion, on or about the 15th day of January,
1878 stearage passengers from New York to Portland,
direct, via the Straits of Magellan, at the extremely
low rate of \$75.00 currency, board included.
This steamer will be the best, strongest an i most
comfortably arranged ship ever built in the United
States Sueed, 1878 knots. Dimensions: 280 set in
length; 25 feet beam; 21% depth of hold; capacity,
7,2 0 tous: 250 cabin and 500 steerage passengers.
The 6 ting up of the steerage will receive special attention; it will be provided with all modern improvements and its ventilation will be perfect. Every attentio; will be paid to the comfort of passengers,
and the fare will be of the best qualit. Part of the
deck r one will be fitted up for refrigerating purposes, with a view to furnish passengers fresh meat during the whole vovace.
The vo age will be made in about sixty days.
To assist persons who desire to emigrate to Orogon,
agricultural and other implements will be takes at
very low rates.
For persons here who have friends in the Atlantic
States wishing to come to Oregon this offers a rare
opp-runity, as the annoyances and fatigue of the
overrand route by rail are avoided, and the passage is
considerably less.
For particular information address F. C. Schmidt,
