WOMAN'S RIGHTS.

Dear Patrons: As the woman question is being agitated through the columns of the FARMER I will send you a few extracts from an essay on that subject, read before Turner Grange.

lately has nothing to complain of. She has filled almost every office, even to the Mason's chair. Whoever she has ability to do, there she is placed, and in most instances, well does she act her part, and just so soon as woman is capable of higher trust, just so soon will she be advanced.

It is useless for us to peck at these old "resisters" who never heard of "woman's rights" in their boyhood; really they think it is a sin to even think of them, and when the pecking becomes irksome and too much to be borne with perfect equanimity they will present a more deplorable aspect than did our veritable political chicken since the 7th of November.

Now sisters, this kind of work will never gain for us the object we are seeking. We must begin with the boys and girls of to day, Teach them what is needed. Teach them that woman should be taken into full partnership. Show them the power woman can wield for good and advancement.

The earliest history tells of woman's influence over man. Sure it is that woman has always possessed a great influence morally. It is very plain that had she not passed into bondage in the long ago, past, the moral and political condition of the present would have been far in advance of what it now is.

The feeling now prevailing among women is right. They want to be independent and not so completely dependent on man as they have been. They want to be doing something to benefit themselves. Have a fair show in the field at what ever they like.

Should we vote, it would not, as Sister Caulfield fears, cause us to be degraded or less respect be shown us. It does not lessen the manly politeness and kindly consideration of the men in the grange because we vote and have an equal say in all things.

Chief Marshal at State Fair. We observe by our various Oregon and Washington Territory exchanges that the attendance at the State Fair is expected to be much larger than ever before, and that there is in consequence a general demand for the preservation of good order and a more strict enforcement of the police regulations than heretofore.

ARMED CAP-A-PIE.

WALDO HILLS, Sept. 18, 1877. While our folks are arguing, feasting and prospering, concerning the "Heathen Chinese" in Marion county, those little Celestials are arming themselves with formidable weapons—mattocks and axes—forming into squads of from ten to forty persons; and striking out into the brush districts of our county; and taking contrivances of grubbing and clearing up our rich brush lands.

However strange it may seem to many persons, yet it is true, that our oak, fir and hazel lands are the strongest and most durable grain land which we have. I know that the question of China labor has two sides to it. Prophets and Seers look into the future, and see ruin before us, on account of these Chinese grubbers and rough work laborers.

Well, no one wishes to compel them to do such work, unless they are disposed to do it. And here, in conclusion, let me offer one of the very strongest inducements to hire Chinamen that we have here: We all know that the number of women in the number men in Western Oregon, is about one to four.

THE FAMILY. The family is the educator of the race. Here men and women are made. What they are in the world, that they were in the family as children.

TRUE FRIENDSHIP. True friendship says: "Let our friends prosper; let them go higher and be better than we are. If to us hearing is denied, and they it, let us be thankful that they have it. Let us be thankful for all the blessings that they receive."

A Bear Story. Monday forenoon Mr. S. F. Mathews, wife and Mrs. Thomas, of Minnesota, went to the country for the purpose of gathering mosses, mistletoes, and other sentimental "green things" to decorate the parlors of the Cheneketa Hotel with for Fair week.

Mr. Mathews' wife, however, went in search of brim, saw his tracks, but his royal highness had scudded off into the dense bushes and as Mr. M. hadn't lost any bears, he didn't make much of a hunt.

OUR COUNTY TAXES.

Believing that the tax-payers of Marion county are interested in knowing upon what basis the tax levy is made, I have prepared the following statement, and submit the same for their consideration:

Table showing tax assessment details: Gross valuation, assessed value, and various taxes like State tax, school tax, and county tax.

Total estimated current expenses, \$29,450. To meet the foregoing a levy of seven mills on the dollar may be required for current expenses, and a special levy of four mills on the dollar to apply on the indebtedness of the county.

Total State, school and county tax, \$90,148 40. It will be observed from the foregoing that over one-third of the property listed is exempt from taxation under the operation of our laws.

1,000,000 BOTTLES OF THE CENTAUR LINIMENTS.

have been sold the last year, and not one complaint has reached us that they have not done all that is claimed for them. Indeed, scientific skill cannot go beyond the result reached in these wonderful preparations. Added to Carbolic, Arnicin, Mentha, Senega-Oil and Witch Hazel, are other ingredients, which makes a family liniment that defies rivalry.

Rev. Josiah Westlake, of Marysville, O., writes: "For years my Rheumatism has been so bad that I have been unable to stir from the house. I have tried every remedy I could hear of. Finally, I learned of the Centaur Liniment. The first three bottles enabled me to walk without my crutches. I am mending rapidly. I think your Liniment simply a marvel."

Rev. Geo. W. Ferris, Manokill, Schoharie Co., N. Y. says: "My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure and I considered him worthless until I commenced to use Centaur Liniment, which rapidly cured him. I heartily recommend it."

It makes very little difference whether the case be "wrench," sprain, spavin or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeney, Spavin, Ring-bone, Galls and Scratches. This Liniment is worth millions of dollars yearly to the Stockgrowers, Livermen, Farmers, and those having valuable animals to care for. We warrant its effects and refer to any Farrier who has ever used it.
