

In Memoriam.

NORTH YAMHILL, Oct. 8, 1877. At a special meeting of North Yamhill Grange, August 20, 1877, the following resolutions were adopted: Whereas, I have pleased the Divine Ruler of the universe to remove from our midst our beloved brother B. E. Stewart, whose valuable services as worthy overseer of our grange and whose earnest labors in behalf of our order endeared him to all; and Whereas, We feel with peculiar force today the vacancy caused in our grange; therefore be it Resolved, That this grange feel deeply the loss of Brother B. E. Stewart, and that the hall be draped in mourning for the space of sixty days. Resolved, That to the afflicted family, relatives and friends of our deceased brother we tender our deep and heartfelt sympathy, and commend them to the watchful care of him whose aid we, as grangers, are taught to invoke. Resolved, That these resolutions be spread on the minutes and a copy be given to the family of the deceased brother, and also one sent to the FARMER and OREGONIAN with request to publish. Signed by Mrs. M. E. Stoll, Mrs. E. Bidwell, and F. D. Stott, committee; John Dempsey, secretary.

Asland Tidings: We learn that Wagner, Anderson & Farmer's Co., who control both the Asland and Phoenix mills, are doing a heavy business this season, having already ground upwards of 45,000 bushels of wheat.

SARCAUSTIC, RATHER.

At a meeting of Alert Hook and Ladder Company No. 1, held last Friday evening, the following "Whereases and Resolves" were looked up and passed by the company. They are expressive and to the point about our life:

Whereas, the city of Salem is now out of debt, and Whereas, The Council of said city, suffering from a spasmodic attack of economy, has seen fit to cut down all expenses, necessarily incurred for the comfort, welfare and protection of the people; whereby this city is left to be lighted by the brilliant incandescence of the Councilmen, and watered with the crocodile tears, shed by certain of their numbers at the degeneracy and gross extravagance of the age, and Whereas, Among other pieces of unparalleled retrenchment the said Council has seen proper to cut down the already small allowances made to the various fire companies of this city; and has moreover declared its intention to use the Firemen's Hall as a Recorder's Office and Council Chamber without first consulting the convenience or will of said company.

Whereas, The said Council has not seen fit to adopt a like economy in other matters where it might have been exercised without injury to the true interests of this community, and Whereas, When in times past it was the custom for the representatives elected from the various fire companies to the Board of Fire Delegates to hold their meetings in the Council Chamber, the City Council saw fit, at considerable expense to the people, to carpet and furnish in an unnecessarily extravagant manner the said chamber, and then refuse said Fire Delegates the use of this room for their meetings, as though the said Delegates were unworthy of the courtesy of the city, and Whereas, When the said Fire Delegates made application to hold their meetings in the office of the City Recorder, they were in like manner refused, that office having also been furnished in too elaborate a style to conform to the humble condition of the representatives of the Fire Department; so that the said representatives had no place wherein to hold their meetings until tendered the use of the Firemen's Hall by the companies to whom said hall belonged, at the expense of the Fire Companies of this city, in a manner suitable to their requirements and humble condition, but in no way suitable to the dignity and position of the Honorable City Council. Now, therefore be it Resolved, That this company would respectfully represent to the City Council, the unsuitableness of their hall for the purpose of a Council Chamber or Recorder's office.

That a descent from their carpeted hall of ease and grandeur to the humble, bare, and unpainted floors of poverty stricken hall, would be an insult to the dignity of the highly honored, most potent and august City Council. That the removal of the carpets and furniture would incur an additional expense upon the tax-payers; and the carpets, if used in our hall, might become contaminated by the rubbings and tread of some unsuspecting fireman and rendered unfit for use by the economical guardians of our dark and dry city.

Resolved, That we therefore most respectfully decline our consent to the use of our hall for Council Chamber and Recorder's office. Resolved, That we hereby thank the Hon. Council for their great generosity in raising our allowance from five to nine dollars, and pray the Hon. body to continue on in the work of retrenchment.

A Good Scheme. The N. Y. Advocate of July 19th says: "Sellers of liquor in Oregon are not required, under a new law, to be licensed; but every drinker must pay five dollars a year for a license, and whosoever sells to an unlicensed person may be imprisoned. The names of procurers of licenses are to be published every six months." Surely you have to go away from home to learn the news. Of course there's no such law in Oregon, but it wouldn't be a bad one nevertheless, and we are rather in favor of it.

Blankets Stolen. Mrs. Goodhue's house, situated south of the College campus, was entered on Saturday last by some unknown parties and robbed of four pair of blankets, some eatables, cooking utensils and a few dollars in money. Mrs. Goodhue can ill afford to sustain this loss, she being dependent upon her own labor for support of herself and a dependent family.

Pavilion Marshals. Mr. D. D. Prentyman the Chief Marshal of the pavilion, has selected as his aids the following persons, J. Henry Brown, of Marion; C. G. Burkhardt, of Linn county; B. W. Harriet, Polk; A. N. Lewylen, Clackamas; L. W. Morgan, Multnomah and L. C. Prentyman of Polk.

New Daily and Weekly. We learn that next week will usher into life a new Daily and Weekly in the enterprising city of Albany. The new paper will be called "The Observer." Messrs. E. Cartwright and Wm. Steel are to be the publishers, editors and proprietors.

A SMALL AFFAIR. The moon of Mars, which has just been discovered, is not over ten miles in diameter or thirty in circumference, so that a man could walk around the little globe in a day. It is the smallest known world in the universe, and is distant from its principal only 30,000 miles. Our moon is 240,000 miles off.

How it is Done. The first object in life with the American people is to "get rich"; the second, how to regain good health. The first can be obtained by energy, honesty and saving; the second, (good health) by using GREEN'S AUGUST FLOWER. Should you be a despondent sufferer from any of the effects of Dyspepsia, Liver Complaint, Indigestion, &c., such as Sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Constipation, Dizziness of the Head, Nervous Prostration, Low Spirits, &c., you need not suffer another day. Two doses of AUGUST FLOWER will relieve you at once. Sample Box 10 cents. Regular size 75 cents. Positively sold by all first class Druggists in the U. S.

Let the People Rejoice. For the bountiful harvest of 1877 has now placed in the hands of the people the golden corn, that they may see to W. P. Johnson & Co. and secure such pictures as will please them and their friends, and be a blessing to generations to come. Remember the place, over Willis' Bookstore, State St., Salem, Or.

A HEALTH PRESERVING TREE.

The Eucalyptus Globulus, or Australian Blue Gum Tree, as a Preventive of Disease in Malarious Districts.

Some years ago the Algerians commenced to plant the Eucalyptus throughout the French possessions in Africa, and the following are some of the results obtained, as reported by M. Trother to the French authorities. "About twenty miles from Algiers at Pondok, he says I owned a property near the river Hamyze; the emanations from which produced intermittent fever among the farmers and their servants every year. In the spring of 1867 I planted upon this farm 13,000 plants of the Eucalyptus Globulus. In the July of that year, the season in which the fever usually appears; the farmers were completely free from it; though the trees had scarcely attained a height of more than eight or ten feet. Since that time the settled population has been entirely free from fevers. "Fourteen thousand Eucalyptus trees were planted on the farm of Ben Mochidim in the vicinity of Constantine; it has for years past been noted for its insalubrity, being surrounded with marshes the entire year. The trouble entirely disappeared, and the soil became perfectly dry in five years; the atmosphere is constantly charged with aromatic vapors; the farmers are no longer troubled with disease; and their children are bright with health and vigor.

The operations of the manufactory of Guile, in Constantine, were rendered wholly impracticable during the summer months, on account of the pestilential emanations from the surrounding marshes; the Superintendent, M. Soulier, planted a large number of Eucalyptus trees in the marshes, and in three years about twelve acres were converted into a fine park, the water completely disappeared, and the health of the workmen has since been in good condition.

On the banks of the Var is situated a garrison house; the malaria made it necessary to change the guard each year; two years ago M. Villard, the engineer in charge, planted a number of Eucalyptus trees in the vicinity of the buildings, and since that time, this post has been the most healthy in the country.

M. Gimbert also reports to the French Academy of sciences as follows: "The Eucalyptus tree has the property of absorbing directly and rapidly, the malarial emanations, thus preventing the malaria from fixing; it also gives to the atmosphere antiseptic camphorated emanations, which play a very important part in improving the health of malarious districts.

The Society of Physical and Natural Sciences of Algeria, report that in many localities it was impossible for Europeans to live in those districts where the blue gum tree grows; though there are all the elements of malarious disease around; but in those parts where the blue gum tree does not grow, the full effect of the malaria is felt, and fever and ague prevail.

It is the exhalations from the leaves which has such miraculous effects, but the gum and bark of the tree also, have curative qualities and it is from the whole of them, leaves gum and bark that the medicine is extracted, which has so powerful effects in preventing and curing ague, and giving tone to the digestive system; in fact it is more certain than quinine in its action, without the evil effects which result from a frequent use of that drug. It also has great healing qualities for sores or wounds. The aboriginal natives of Australia use the leaves of the gum tree mixed with earth, as a remedy for wounds after a battle, and the rapidly with which their flesh heals under this treatment, astonishes all who witness it.

A tree which possesses all these useful qualities recommends itself to the notice of all who live as we do, in a district subject to intermittent fever and it would be a wise and beneficial act in any one to plant some of them in the neighborhood of his dwelling as it would be a source of safety both to his own and his neighbor's families.

CUTTING AFFRAY.

SILVERTON, Oct. 7th, 1877. It is rather an unpleasant task, but nevertheless incumbent upon your humble correspondent to make note of an affair which occurred upon the streets of this quiet village on yesterday evening. At about 8 p. m. it appears that several young men having some previous difficulty met on the sidewalk near the Good Templars' Hall, and passing a few angry words, got into what was supposed at the time, to be a general fist fight.

After peace was restored it was ascertained that Tillman Hutton, son of the late Dr. Hutton had received two severe wounds from a knife in the hands of one of the opposing parties. One of the wounds in the left arm below the elbow and the other on the same side in the region of the heart, barely escaping instant death. Young Hutton was taken to the office of Dr. Sanford where his wounds were dressed, and although very weak from loss of blood is thought to be out of danger at present.

Constable J. M. Brow being absent at the time no arrests have been made up to the present time. MAC.

From Malheur Agency. Yesterday we met Mr. F. M. Johnson, farmer on the Malheur Indian Agency, who informs us that 1,500 bushels of grain, 2,000 bushels of potatoes, 1,500 bushels of other esculents have been raised there the past season. About 80 tons of hay has been put up. A large area of land has been fenced the past summer, and preparations are making to raise wheat sufficient for home consumption. The great need of the agency is a flouring mill, which it is hoped Congress will provide for at the next session. There are about 700 Indians on the reservation. (Statesman.)

Has Returned. Dr. Davis has just returned from Southern Oregon where he has spent the Summer pleasantly, and says no better or kinder-hearted people live anywhere than are to be found there. Professionally he has achieved an excellent reputation and a good name, thus adding fresh laurels to a good reputation already his in this section. Several of his surgical operations have been highly spoken of by both friends and the press.

Interesting Exhibit. Livingston Stone, Supr. of the O. & W. Fish Protecting Company will exhibit at the State Fair, three jars from the hatching ponds on the Clackamas; the first contains salmon eggs; the second eggs showing a spots, and the third young salmon; the first artificially hatched in Oregon.

GOOD CANVASSERS WANTED.

We wish to make a thorough canvass in the interest of this paper through this State and Washington Territory, and would like to have, after harvest, or during the winter, active canvassers in each county, and if possible in each precinct.
