New York, Oct. 22—The Herald's special from Fort Walsh, Northwest territory, Oct. 18, via Helena, Montana, Oct. 21st, says: The U. S. commission sent out by the government to find and treat for peace and good will with the Sioux chief Sitting Bull has at length succeeded in coming face to face with the redoubtable Indian chieftain and have failed to bring him to any terms, and, in short, the commission has met Sitting Bull and Sitting Bull has dismissed it abruptly and decidedly. The expedition has failed in its purpose, and the Sioux question is as far from a satisfactory solution as when Terry and his brother commissioners first set out on their long and tedious journey to the north-west.

Pittsburg, Pa., Oct. 22—The employees of the seven collieries that resumed here at an advance of 10 per cent, have been notified of a reduction in wages this amount. The miners are at work to-day, but under protest and manifestations of displeasure.

Pittsfield, Mass., Oct. 22—Three sons of Wm. Downey loaded an old gun barrel with powder and discharged it. The weapon burst, killing two of the boys and tearing off the hand of the other.

Chicago, Oct. 23—The Inter-Ocean's special says: The Sitting Bull commission is no more successful than was generally anticipated. They were sent at the earnest solicitation of the Canadian authorities, who regard the hostilities as a perpetual menace to their frontier, and the police must be augmented if they stay. This government would gain nothing by their return.

Mauch Chunk, Pa., Oct. 23—U. S. troops stationed here since the riot troubles, leave to-morrow.

San Francisco, Oct. 22—Rain has fallen here at intervals throughout the day, with a southwest wind and prospect of continuance. In Sonoma county almost no rain has fallen to start the plow. In the northern part of Sacramento valley the rainfall has been quite copious, and in the vicinity of Grass valley and elsewhere in the mountains the rain, accompanied by hail, has extended as far down as the Sacramento and lower portion of the river, with southeast or southerly wind, and indications of a continuance of the storm. In the central and southern portions of the state the weather has been cloudy and showery to-day, with warm temperature and southerly wind.

FOREIGN.

London, Oct. 22—Advices from Cape Town to Oct. 21, state that a war has broken out between Galeskas and British and their native allies. Fighting occurred Sept. 24th and 25th at South Mapassa and Ibeka. Galeskas to the number of 8,000 attacked the British, but were repulsed with a loss of 400 on Sept. 24th. Loss on the 25th unknown. British loss, one man killed and six wounded. Reinforcements have been dispatched from Shimon bay, and volunteers are being enrolled throughout the colony.

An explosion in a colliery at High Blantyr, near Glasgow, took place to-day. Four hundred men were in the mine and a large number killed.

Glasgow, Oct. 22—Latest particulars from High Blantyr show 233 killed. That number descended into the mine this morning, and none of these, except one who was working near the shaft at the time of the explosion, had been rescued up to late hour this evening. There is very little hope of rescuing the men.

The race for the Criterion state at Newmarket was won by Jeannette, Cleonina 21, Lord Olive 31.

Constantinople, Oct. 21—Suleiman Pasha telegraphs that the Russians have incorporated 18,000 Bulgarians into their army, and he expects to be attacked. He has entrenched himself so as to cover Rostchuk.

Aarif Pasha, the new Turkish ambassador to Paris, is instructed to state immediately on his arrival the terms on which Turkey would make peace, if the powers wish to mediate, in consequence of Mukhtar Pasha's disaster.

All the troops in Constantinople are being sent hastily to Trabzon, Admet Eyoub Pasha will go immediately to take command.

Ezzeroun, Oct. 23—Suleiman Pasha is about to send Col. Valerick Baker and other English officers back to Constantinople.

Carolaja, Oct. 17—Suleiman is advancing on Ezzeroun. Kara is surrounded and negotiations for its surrender have been opened. Russian headquarters are now at Vostociek. Gen. Lassaroff is marching against Ismael Pasha.

The positions at Solnek and Kladokei are abandoned for the present by the Turks. It seems evident, however, that a retrograde movement has been commenced. Suleiman Pasha has gone to make personal inspection of the fortifications of Rostchuk.

Bucharest, Oct. 22—A report is current that the Roumanians recaptured the second Grivitz redoubt on Saturday, but this is not (Sunday evening) confirmed.

A member of the Red Cross society says orders have been received to prepare for the reception of 6,000 wounded. This evidently is a gross exaggeration. There is probably about 800 or 900.

It is said the Turks had mined the Grivitz redoubt and waiting until it was full of Roumanians to explode it, and then make an assault. It is thought fighting is still going on.

A special from Torlak, dated Saturday, says the Turks have evacuated Kadofa for fear the Russians would block up their communications with Rostchuk and have retired to Rasgrad.

Russian cavalry from Dobrudacha have advanced as far as Kavanna.

A late telegram from Rasgrad says a detachment of the army arrived at that place, London, Oct. 23—A correspondent in Plevna telegraphs that the Turks are actively constructing new interior lines of formidable defenses. Cases of sickness are comparatively rare. Provisions never failed, but it is impossible to get fodder for the thousands of oxen and horses. A correspondent telegraphs from Sofia that 6,000 provision carts are now on the road to Plevna. Osman Pasha has ordered all Cossack irregulars, Bulgarians and non-combatants, and Armenian medians to quit Plevna.

A special dated Shumla, Monday, says the Russians attacked the Turkish positions at Valerick to-day. The result is unknown.

A dispatch from Constantinople states that Achmed Eyoub's appointment to the command of Ezzeroun has been countermanded.

London, Oct. 23—A Constantinople dispatch says the Russians from Medjidia are making daring reconnaissances as far as Bazjak and Silentria.

Vienna, Oct. 23—Russia has ordered the mobilization of all Cossacks not yet in active service. These will amount to ninety-one regiments.

London, Oct. 23—A correspondent telegraphs that the inhabitants of Westsich district, Montenegro, numbering 21,000, are stricken with famine. An Ezzeroun dispatch dated Tuesday, contains the following: Mukhtar Pasha has occupied a strong position at Venieka, west of Sagunm Daugh. Ismael Pasha's retreat and junction with Mukhtar are seriously menaced.

A correspondent at Biela reports that the czar's fleet is pushing forward against Rasgrad leaving one corps to operate against Rostchuk.

Glasgow, Oct. 23—2 p. m.—The special train to bring in the injured from the colliery explosion to the Glasgow infirmary has returned. No one has yet been got out alive. Twenty dead bodies have been recovered. It is feared the entire four hundred in the colliery when the explosion occurred perished.

London, Oct. 23—The work of exploring the colliery at High Blantyr in which the explosion occurred yesterday proceeded throughout the night. Four miners were discovered alive about 11, but in so exhausted a condition that one died before morning. Another is hopelessly prostrate. Mining experts say all the men in the pits have perished; but even if any are alive, no rescue party can reach them 8 or 10 days. The work of bringing up the dead was resumed this morning. Bodies are burned and mangled. The explosion was of terrific violence.

Paris, Oct. 23—The Moniteur (semi-official) says: At the close of this morning's council President MacMahon plainly informed Messrs. De Broglie and Fortou that the idea of ministerial changes could not be entertained at present.

Leading American residents of Paris met at the American legation to-day and decided to give Gen. Grant a splendid subscription banquet on Saturday. Five hundred guests, including ladies have been invited. Minister Hayes informed the meeting that President MacMahon would not be present at the dinner at the legation on Monday, but would be at the subsequent reception. Gen. Grant will probably visit President MacMahon Tuesday. Wednesday President MacMahon will give a dinner at the Elysee to General Grant and the American legation.

Constantinople, Oct. 17—Suleiman Pasha on Tuesday made a reconnaissance in person as far as Tirstrik. A battle with the czar's army is momentarily expected. Snow in Schlipka pass is one metre deep and operations there impossible.

London, Oct. 17—An official dispatch from Mukhtar Pasha, dated Kara, Monday 15th, says:

Our center, after being exposed for four hours to an overwhelming cannonade and incessant assaults, was compelled to retreat, leaving Awallis hill in the hands of the enemy. The Russians then occupied all strategic points in the direction of Kara, to which place we withdrew with one division to prepare our revenge. Another division, including corps commanded by Rashed Omar, Kiazim Mousa and Chevet Pashas continues to hold its positions on Karadagh. Mukhtar says his loss is only 800, which is obviously untrue. He claims that a regiment and a half of Russian cavalry and four battalions of infantry were totally destroyed. Mukhtar attributes his defeat to a Russian reinforcement and the fact that they were able to place in position 200 guns manned by skilled artillerymen.

A correspondent at Vienna telegraphs under date of Thursday night that it is rumored that the assault upon Plevna was recommenced to-night.

Vienna, Oct. 19—The storming of Plevna will probably be attempted Friday or Saturday.

St. Petersburg, Oct. 19—On receiving information of Mukhtar Pasha's defeat, Ismael Pasha withdrew from the neighborhood of Igdyr to the heights of Zar, near the frontier. It is believed that he is on the point of completely evacuating our territory.

Chicago, Oct. 19—The Times' London correspondent at Bucharest thinks Osman Pasha is near the point of surrender, owing to the want of food and medicine, and that he will be forced to capitulate without a Russian assault. All reports from Turkish deserters show that Osman is reduced to great straits, but no great reliance can be placed on their statements.

A correspondent at Pera says Osman has supplies for sixty days, and every contingency is met in his ability to hold his position. Osman is unable to move, and the responsibility now rests on Suleiman.

Reports from Shumla assert that Suleiman's advance has felt the Russians and will give battle without delay. Heavy fighting is expected from him, but no success, as the Russians occupy a position nearly as strong as that of the Turks at Plevna.

The Russians before Plevna have received reinforcements of 10,000 infantry. Ezzeroun, Oct. 19—To-day Kara is said to be already partially blockaded. It is rumored the Russians have occupied Persek.

London, Oct. 19—A dispatch from Tiflis says it is estimated that the Russians captured in the battle on Monday last 32 battalions of Turks, 4 brigades of artillery, 100 officers and 2,000 horses. Among the killed are a son of the Cossack chief Chanryl, and the Turkish general of cavalry, Loussa Pasha. The Russians estimated the total Turkish loss at 16,000 men, together with great stores of munitions and provisions.

THE MARKETS.

The wheat market remains without material change since last week. Salem buyers are still paying \$1.10 per bushel, but the condition of the roads prevents much wheat coming in from the country at the present time.

Portland figures are the same as last week. Oats are a trifle weaker at San Francisco, which effects the market here. The stock on hand in this city is increased, and as they cannot be immediately shipped, Mr. Herren desires us to inform those who have sacks, and expect to bring oats to him, not to haul them at present, as he has no storage room.

PILES!! PILES!!! A NEW DEPARTURE. IN THE "MEDICAL TREATMENT" OF SPECIAL diseases, is in placing in the hands of the sufferer the "Cure and Prevention," the letters I am permitted to publish from JOHN M. BACON, Postmaster at Oregon City and Grand Secretary of the Grand Lodge of I. O. O. F., explains the results of the "WIGHTMAN PROCESS." He says: "I tried everything, and no doctor gave me relief, and I thought they were incurable. I would not have tried your Process, but my friend E. M. Waite, of Salem, recommended you so highly. I enclose you postal order for amount; and please send by express." Here is his letter after 15 days' use:

OSGEOO CITY, ORE., April 8, 1876. DR. T. F. WIGHTMAN—Dear Sir: It is with pleasure that I inform you that no appearances of piles have shown themselves since the second time that I used your most "valuable process." It is now two weeks since I commenced, and it is the first two weeks that I have been free from this dreadful disease for twenty-five years. I am truly grateful to my friend who recommended you to me. Yours, etc., J. M. BACON, P. M.

In answer to a letter from San Francisco, asking if he had the same good opinion of the "Process," he writes: OREGON CITY, May 9, 1877. DR. T. F. WIGHTMAN—I will inform you it is some fifteen months since I used your "Process," and I am pleased to inform you that it cured me entirely and permanently. I never spent money to go to a good purpose as when I procured your valuable remedy. Yours, truly, J. M. BACON, P. M.

The above shows, with the "Wightman Process," that it can be cured entirely. It gives a short history of one case of a man that is well known to be above deception. I have many testimonials similar to these. There is no use of knife, ligature, or caustic, or any painful operation. R. M. Waite, Esq., Secretary State Agricultural Society, Salem, says—"In ten days I was completely cured. I recommend Dr. Wightman to others." The above shows that with the "Wightman Process" Piles can be cured in 15 days. The "Process" can be sent by Express (not mail).
