tion. Zoes chandler recently said to a gathering of farmers, on his Michigan farm that if he had a boy to-day he would rather that he should go to work upon an 80-acre farm than into the best political office that could be found. Let them improve the machinery and implements for farm work, improve the home attractions, and supply the wives and daughters with the best labor-saving machinery to be had, manage so that the rons will be attached to the homesteads and proud of their calling, so that they would hold up their heads like lords of creation

Information has recently been filed in the United States Court against farmers for selling leaf tobacco in violation of the revenue laws. It is usually supposed that a farmer may sell anything he produces on his farm, but such is not the case. He cannot sell tobacco, except to regular licensed manufacturers of tobacco, cigars, etc. Farmers who have tobacco should be careful and not sell any of it except to manufactur-ers, as there are men who will inform on them for the fee.

The Charlotte (N. C.) Observer says the Liberian emigration movement has broken out in that state with redoubled violence. Each emigrant is required to take \$10 worth of stock in the ship, and to furnish \$40 to buy provisions for the journey. Ten acres of land is promised to each single man, and twentyfive acres to each man and wife, together with a dwelling-house on each tract.

The value of the ore reduced and marketed in the Black Hills in 1877 is estimated at \$1,500,000. The yield of the placer claims has been less than last year, and will not probably exceed \$1,000,000. The National Grange has passed a resolution, reducing the initiation fee for men to \$3. and for Women to \$1.

A TIMELY WARNING.—Cutting timber on Government land is frequently indulged in, although there is a penalty attached to it. The authorities are becoming stricter in the observance of the law prohibiting this, and it will be well for all to take heed. Three persons found guilty of this offence in California were each recently sentenced to pay a fine of \$42 and be imprisoned for ten days in the county jail. In passing those sentences Judge Hoffman said he did not intend to be severe in cases where the offending parties were bona fide settlers and making valuable improvements on their land. He regarded the destruction of timber on Government land as great an offense as if the land belenged to a private individual. He characterized the cutting of timber on public land as stealing, which should be punished with equal severity as in cases of the theft of pri-A TIMELY WARNING.—Cutting timber on equal severity as in cases of the theft of private property. The people of Humboldt county, California, propose to build twenty five miles of railroad from Eureka to Eel River valley. A local company, with donations by citizens or a tax subsidy, is suggested. The highest es-timated cost of a broad gauge is \$500,000; a prismoldal, \$175,000.

THE FIRST CHRISTMAS TREE.

In answer to the request of Mrs. E. J. Dawne and Mrs. John Gray, "Old Santa Claus" put in his appearance last night at the Oregon Institute for the Blind. Speech of G. W. Lawson at the Green-back Meeting.

Brothers and Sisters, pray for me: (laughter and applause.) I have always been a recalcitrant to a 1 the established orders and isms of society. But now I find an order of people that go as far as I do, at least in politics; you know I fought the Lock and Dam swindle, the Cascade dam swindle and the Holladay soulless Railroad dam swindle and I now find myself fighting the great dam swindle of the Government lending money to banks and brokers only, instead of to the people.

It was asked me to day, what was my remedy for the wrongs of the

WORKING MAN.

I answered. Let our Government do as France did. Loan her credit to her artisans, mechanics, manufactures and merchants, freely at 3 or 4 per cent., all they need to produce their industries and sustain our government by love and fidelity, by egalite and fraternity, by our national corps d'esprit. Issue irredeemable treasury notes concurrent and equal in all respects with gold and silver coin. Put forth the faith of the nation in itself, alias, the people.

I DON'T SWEAR

But it I did I would say. "To Hell with the monarchy of money that has interposed itself between the constitution and the people, and that now rules this country; and makes fortunes out of the money needs of the masses." The brokers and the banks are a power unknown to the laws and the Those furrows wrought by flowing tears, constitution of our country, that rule this country with unquestioned power. When Mr. Lincoln in 1861, asked for a law to make it a crime to buy or sell gold. That unbridled power forced a repeal of the law by the same Congress. Nothing but 19 out every 20 votes of this nation can crush out this lawless, soulless tyrany.

WE MUST EDUCATE

Some men up to our standard of Reform. We must bring forward life long honesty, patriotism and non ambition take the places of our mere partisian Congressmen and Senators. The Nation's Capitol is foul as the fabled Ægean stable, or the 'emple of Jerusalem, out of which Christ scourged the money changers, "British interests" and August Belmont who is the Rothoschilds of Europe, that own \$500,000,000 of our debt, national debt, and controls the remainder. Runs our Congress, runs both the Republican and Democratic parties. But, as I said before, while I don't swear, yet, to h-l with the slaves of Europe and of London and Berlin policy. We prospose to

BE A NATION OURSELVES.

To make and coin money, and emit bills of credit, Tressury notes, legal tenders. To furnish money direct to the people and not to those hermorphrodites—the banks and brokers. Let the people enlist in our cause,

OVERTURN The crimping, cramping policy of our government that issues only enough money to banks and bankers for them to loan the people at 12 per cent interest and five per cent. for finding the money outside, and that upon only 30 days, "without grace," which means that neither God nor man can save the poor devil who has got into their claws of steal. But I have only ten minutes to talk and must close. So exhorting you to study, edu-cate up to the momentous knowledge needed for your reform, I subside, etc.

Arrested .-- Bound Over.

Our readers will remember that'on the store of J. G. Holbert was broken open and several thousand eigars taken. Officer Minto has been on the close watch for the thief, or some signs whereby he could get a clue. A few days ago he discovered about fifteen or twenty boxes of cigars carefully stowed away in the cellar beneath Mallory's brick, corner State and Liberty streets. Minto em-ployed Mr. Al Faulkner to "shadow" the place and on the second night about half past 11 o'clock a native of the Flowery kingdom, by the name of Tay Fook made his appearance, and went into the cellar and was handling the boxes when Mr. Falk-ner stepped in and "scooped" him up. He was brought before Judge Bowie this morn-ing and had an examination and was bound over in the sum of \$150 to await the action of the Grand Jury; in default of the required funds was turned over to the Deputy Sheriff for safe keeping.—[Record, Dec 21.

A New Industry.

Mr. B. K. Myres, formerly of this city, is at present in town in the interest of the new mode of manufacturing glass in all of its varied forms, invented by Mr. S. P. Chase of Stawsburg, Pennsylvania. Mr. Chase is at present in San Jose, 'California, where he has small works for the manufacture of glass without the aid of the "mouth and lungs." He is looking for a place for a permanent lo-cation of his works, and if a suitable place can be found in Oregon will probably locate bere. Parties wishing full particulars of this new proposed industry, should interview

Rebuilding the Dam.

The old dam, just above Kinney's mill washed out with the recent high water, and Messrs. Finney Bro's have a force of men chopping brush and rebuilding the dam so as to prevent the gravel from washing down into the channel below and thus prevent the steamers from coming up to the elevator to discharge their loads.

Taxes Paid.

Hon, R. S. Crystal, Treasurer of Polk county, to-day paid up the State taxes of Polk county, in fall, to the State Treasurer. This speaks well for this county. We learn that there is but one other county that has paid anything this year and that is Laue.

Work on his famous mine appears to be progressing favorably. A dispatch was re-

THERE IS SORROW UPON THY BROW.

Dear Pather mine, The pen of time, Writes shadows on li'e's western isle, And, ob, I fear, Each coming year, To see thy sun, fade from the dial.

There's sorrow now Upon thy brow, And silver's weaving in thy hair, Griefs premature. Thou dost endure, Layed on thee by the hand of care.

The smothered sigh, And pensive eye, Thy "feeble, measured step, and slow,"

All seem to say,

Thou art a prey, My father, to some secret woe.

Like etherial tide, With rapid glide, Or clouds that seek the evening sky, And sink to rest. Low in the West.

Thy life, like them, seems hurrying by. Upon thy child, Thou once did smile, But now it is no longer so,

It seems so strange.

That thou should change, Or that you should eccentric grow. 'Tis sad to trace. Upon thy face,

And feel a blow, I may not know. Has smote the thoughts of other years. That from the heart All must depart,

Of those sweet streams, that used to flow, On thy dear face, That I must trace. Decline so softly, sad and slow.

At dewy eve, No more to weave, With thee bright wreaths, for future years. No more to glean From pangs sheen, But with pale, melancholy's tears,

Life's ebbing stream, Like pale moon's beam Receding o'er the Western sea, Is burning low

With feeble glow

Thy gentle life, From care and strife, Will soon beyond these shadows go, And thy dear breast Will be at rest,

And soon, alas! must cease to be.

From sorrow's rude, uncessing flow. Then I will bring. The flowers of Spring And place them on thy lonely bier;

And o'er thine urn Shall ever burn, Affection's tribute, memories tear.

Then sweet thy rest, My father blest, Until in yonder realm of love, 'Tis yours' to know

Through pain and woel Though [man MAN is false, that God is love. MATHEW.

Peruvian Syrup.

Brooks, Me., Sept. 7, 1870.

Dear Sir—From early youth I was in feeble bealth, troubled with humor in my blood, weakness and debility of the system generally; was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria which left my limbs paralized and useless, so I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrur, I concluded to give it a trial, and to my great joy soon found my health improving, I continued the use of the Syrur until three bottles had been used. three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health extirely to the use of PERUVIAN SYRUP, and hold it in high estimation. I cannot speak too highly in its praise. I have in several cases recommended it in cases very similar to my own with the same good results.

CHARLES E. PEARCY. Yours truly,

From S. Thatcher, M. D., of Hermon, N. Y. "WISTAR'S BALSAM OF WILD CHERRY gives universal satisfaction. It seems to cure a cough by loosening and cleansing the lungs, and aliaying irritation, thus removing the cause, instead of drying up the cough and leaving the cause behind. I consider the BALSAM the best cough medicine with which I am acquainted." Sold by all druggists.

To the Afflicted-Ladies in particular.

Why need you suffer with Paralysis when you can be cured?—Why will you suffer with Rheumatism when you can be cured?

And why have so many sches and pains when it is within your reach to be cured?

I am now established in Salem, prepared to treat all Chronic Diseases, such as Rheumatism, Neura'g a, Consumption, Kidney diseases, and in fact all disease es that human flesh is heir to. Special attention paid to Pemale Weakness and nervous prostration, which is so common to Ladies. Children's diseases not excepted. In connection with my practice, I have one of the celebrated Medicated Vapor Lightning Cream Baths, which aids vastly in removing all chronic diseases. It opens the pores of the skin, and throws off the slimy, morbid matter, which is one of the great causes of so much suffering. When we ence think that two thirds of all we take into our system passes off through the pores of the skin, we need not stop long to wonder why we are sick, when we pay so little attention to the most important emunctory of our bodies. During the past nine months I have had tals bath in operation, and many can testify to its efficacy. I treat patients by the week, or by single
