GOV. THAYER'S INAUGURAL.

When Governor Chadwick finished the delivery of his message, Judge Boise administered the official oath to Governor Thayer and he delivered his inaugural, which was an excellent treatise on State policy and public morality, and was highly applauded and commended.

Taxation should be equal and all property bear the burden, being assessed at its full value. The present system of deferring indebtedness is defective.

The Governor is allowed by law extra pay for extra services rendered, but his excellency considered the legality of such extra compensation a matter of doubt.

The different acts providing compensation for clerical aid in the office of Secretary of State should be repealed and specific compensation provided for such clerical aid, and Assistant Secretary cannot, under the constitution, exercise the powers of his principal.

The State is the parent of the people and should provide education for the masses and proper support and instruction to the impotent, such as deaf mutes and the blind.

Penitentiary management should be as economical as possible and made self-supporting at an early day. Convicts should not be restored to citizenship unless showing evidence of reformation.

Fisheries are important interests that need legislation to protect, propagate and encourage them.

Road taxes do not make good roads. The income is small and labor is often insufficiently rendered. Taxes should be paid in money and that well expended.

The State pays ten per cent. interest on outstanding warrants, while six per cent is a fair rate under the circumstances.

State funds should be protected by most careful legislation and guardianship.

The Indian system that recognizes tribal supremacy was criticized, and compared with the efficient management of the Indian tribes by our British neighbors.

The Burlingame treaty should be amended to prevent the evils that Chinese immigration is making.

The Governor closed with an eloquent dissertation on honest legislation as conducive to public morality, and expressed high confidence in the ability and integrity of motives of the present Legislature.

Mrs. Margaret Robinson, who crossed the plains with her husband, Capt. John Robinson in 1846, died near Corvallis on the 27th of August, aged 87 years, 7 months and 23 days. Her husband died about five years ago.

THE MARKETS.

Wheat has dropped and the market is temporarily depressed. Liverpool quotations show a falling off in spot quotations and we learn from private sources that floating cargoes have dropped from 51s 6d per 500 pounds to 48s 6d, within little more than a week.

Freights on the ocean continue low, and Portland quotations are \$1.50 to \$1.52 per cental for wheat sacked. It may be that an advance will take place when the river rises, and again it may be that rates at Liverpool will drop.

Health and Wealth.

Both may be easily attained by any one in heeding nature's warning and keeping a close watch over symptoms that may appear which invariably are the indications of an approaching illness. Many dollars can be saved and a great deal of suffering avoided by a little attention to the following symptoms, which are a sure sign that either the blood, liver, or digestive organs are out of order.

Constipation, indigestion, fullness of blood in the head, sour stomach, coated tongue, lead taste in the mouth, and offensive breath, dull, drowsy, and debilitated feeling, frequent headache, neuralgic pain in the side, chest, and limbs, etc., etc.

The highest medical authorities declare that over two thirds of all diseases are caused either by an impure state of the blood or some derangement of the liver and digestive organs. When the blood is pure, the liver in proper action, and the bowels regular, no one can ever be seriously or dangerously sick.

To purify the blood and thoroughly renovate the system, the blood should be purified by the use of the following medicine.

It is not right to favor individuals or localities at the expense of the public.

Taxes annually collected for current expenses cannot be otherwise diverted to other purposes, unless in excess of amount required for those expenses.
