Liquor Drinking at the Capitol.

On Saturday two resolutions were introduced in the house calling for information as to what authority has permitted the opening of a liquor selling room in the State Capitol. It is a fact that a liquor saloon is opened there and is extensively patronized, much more by outsiders than by members, indeed it is true that most of the members are not drinking men and do not patronize it, and the resolution passed by a unanimous vote. It is very proper that refreshments should be convenient to members and others, and as the Capitol is situated at a considerable distance from our hotels and restaurants it may be proper to allow some one to establish an eating room there, but the general sentiment among the members seems to be that they do not wish to be responsible for liquor selling at the Capitol, which is an indication of sober intention and good moral sentiment on part of the members.

Fresh Bread on the Fair Grounds.

Elsewhere we publish advertisement of Mesers. Strong & Bain, who give notice that they will, during the State Fair, keep at their stand, No. 31, fresh baked bread daily. They intend to have an abundance, and campers can find there also a full supply of other needful necessaries in camp life. They will have in connection therewith a candy manu-

The Plummer Premiums.

We call particular attention to the fact that W. S. Plummer patentee and manufacturer of the Plummer fruit dryer, is offering, as he says, four beautiful premiums for the best displays of dried fraits, dried by the Plummer Process. His card will be found elsewhere, As he intimates in this announcement he will build a neat pavilion of his own on the Fair Grounds, for the express purpose of exhibiting these dried fruits and to show the operation of his drying machines.

The Standard of the 16th inst., contains the The Standard of the 16th inst., contains the following: For some months past parties have been prospecting along and near Skyhomish river, believing that there were valuable dig-gings somewhere in that locality. At one time diggings paying two and three dollars per day were discovered, and some of the prospectors were content to work there several months, but othere were not as easily activity and and were content to work there several months, but others were not so easily satisfied, and con-tinued their search for the hidden treasures they were quite sure would reward their per-severance. And the report comes from Snoho-mish City that these fortune seekers have been rewarded in finding diggings about 30 mike from Snohomish City, in the river bed, that new twenty dollars nor day to the man usife pay twenty dollars per day to the man, using only pans in cleaning. The discoverers, Messre Barrett & Co., went to Snohomish City and re-Barrett & Co., went to Snohomish City and re-corded their claims. The citizens of that little city were so electrified by the news of the dis-coverers, that report says that many promi-nent men of the city left their business and proceeded at once to the digging to locate their claims. Our informant, who arrived in this city last night, says the news were brought to La Conner from Snohomish City by gentlemen who are perfectly reliable, and the report is not exaggerated, and the miners are actually taking out \$20 per day to the man without mining

Death of a Former Citisen.

Again are we called upon to record the death of a former resident of this city, after twentyfive years of suffering, having for that length of time been afflicted with a cough that would only give up its victim when the angel of death bore the spirit of Mrs. E. Ellen Robb to its haven of rest. Mrs. Robb, the oldest daughter of Mrs. Parish, sister of Mrs. S. A. May, of this city, had a large circle of warm friends, who will hear of her death with regret; during all these years of suffering she bore her affliction with true christian fortitude. The funeral will take place from her late residence, West Park street, between Morrison and Alder, Portland, to-morrow at 11 o'clock A. M. Friends of the family are invited.

Sheriff Baker Saturday morning received the following polite petition from the prisoners in the county jail:

To the honorable citizens of Salem-Mr. Jos. A. Baker, Sheriff of Marion county-Dear Sir: We, the undersigned members of the "county We, the undersigned members of the training jail," Salem, Oregon, do hereby ask permission to attend the trial of John Whitney, in the said city of Salem, on Saturday, Sept. 14, A.D. 1878. Yours very respectfully. CRAS. RINGOLD, O. D. STOTLAR,

JAS. SULLIVAN. By James Sullivan, chairman.

The request could not be granted by the Sheriff.

Mail Robbers Arrested.

The Oregonian of Saturday says, Mr. Geo, A. Steel, postal agent, received a dispatch from the sheriff of Siskiyou county, California, which conveyed the welcotos information that the mail robbers have been captured after a long and vigorous search in the mountains. The names of the gang are not given. These are the same fellows who attempted to rob the stage near Yreka a few days ago, and one of whose number was killed by Wells, Farge & Co's messenger, Mr. Reynalds.

Large Fire.

Friday night of last week a destructive fire occured at Forest Grove which will prove a heavy loss to that community. Some time during the night two large warehouses-one belonging to W. D. Hoxter and the other to Measre. Hinds & Burkhardt-caught or was set on fire and consumed. About 40,000 hushels of wheat were stored in the buildings, all of which was totally destroyed. The grain was stored in the warehouses awaiting shipment. It principly belonged to the farmers in that vicinity, on whom the loss falls heavily. The loss will scarcely fall short of \$50,000. The fire is supposed to be the work of an incendiary. We are unable to state whether or not the property was insured.

Successful Operations with Horses.

Pavors a Dog Tax.

OAKLAND, Sept. 12, 1878. MR. EDITOR: I was pleased to notice an notice an article in your paper on a dog tax. What we need is a tax upon all dog to the amount of five dollars on each, the smallest ones are the worst of all in enticing others. Also a bounty upon bears of \$25, panthers the same, wolves \$50, and wild cats \$10. Last week I found fifteen killed in one place. If a dog can't pay his way kill him and keep a pig instead. Another law we need as much as a dog tax, is a law to make every one keep his stock upon his own premises. I find it an easy matter to keep stock in an enclosure, that is the question, and a difficult one but to keep others out that are half starved. If something is not done to protect those that keep their stock enclosed, there will be serious

trouble in Douglas county before long. Making lawful fences is played out; if the stock can't make a gap the owner will.

L. HALL, Senior.

Man Caught, but not Johnson.

On Monday Chief Besser, of Portland, received a telegram from Shedd's Station, saying that the notorious Johnson had been caught, and asking for instructions. At once typestickers on the city papers were put to work making up sensational head-lines, and the re-port went out that the real man Johnson had been caught; but on arrival of the officers at Shedd's Station, it was found that a man had been caught, but that man was not "the fellow who caused so much trouble and uneasiness,' and consequently he was not taken to Portland.

The O. S. snag boat is at Buena Vista Bar doing good service; it will reach Salem this week, and then drop on down the river, moving snags between this city and the Willamette Locks.

SHRDDS. Sept. 12, 1878. MR. EDITOR: In order that farmers and owners of ridgling horses may know of my successful treatment of ridgling, I will refer briefly to a few men who have lately tried my work, which should settle at least three questions: First, that ridgling horses, by Miles' new method, can be gelded as safely, and the percentage of loss by death, from the operation, no greater than common stallions, under the old style of clamps, fire, cords and poisons. (See Spirit of the Times.) Second, that it matters not where the sign is, or the season of the year, so the work is done right. Third, that exercise at work or under the saddle is absolutely necessary after the operation, especially ridglings, as the following certificate will clearly show: BELLEVIEW, YAMHILL Co., Sept. 5, 1878.

Mr. Lee-Dear Sir: Yours of the second inst. at hand. I am well pleased with your work. I worked my horse in the thresher and to a header wagon almost every day, and am now hauling grain to Dayton. There has been some inquiry as to your whereabouts, for there are others that have worked for you to do since they have seen and heard how successful you was with my horse.

Yours with respect, ANDREW J. BAKER. Mr. D. C. Stewart, of North Yamhill, Or-egon, says the ridgling I gelded for him, Aug. egon, says the radging I gented for him, Aug. 24th, is all right, and in short he has done ex-ceedingly well, and he is satisfied with the operation. Mr. N. McPeursifull of Millers, Oregon, says: "Dr. Lee gelded a ridgling horse for me; I worked him every day just the same as before the operation. He has doubled the value of my horm." the value of my horse.

I cannot attend to all the work offered on ac count of it being so santtered it woold take too much time to go to it, (time is money.) I will try to fill promptly each appointment adveritsel in this paper, so that all -no matter bow far you may live from your country town -can have your work done and work your horse WM. LEE, V. S.
