

ISSUED EVERY FRIDAY, BY CLARKE & CRAIG, PUBLISHERS AND PROPRIETORS.

Terms of Subscription: One copy, one year (12 numbers) \$2.50; One copy, six months (6 numbers) \$1.25; One copy, three months (3 numbers) .75.

SALEM, FRIDAY, NOV. 29, 1878.

Cash and Credit. Our readers see, hear and read of many examples of the advantage of having coin in hand to do business with...

At the present time we have many thousands of dollars due us on back subscriptions, and if every one had paid us in advance, as should be the case for you cannot get any first-class journal in the world without advance payment...

We recognize that the country needs a first-class popular journal to represent the producer, and we have lately assumed greater liabilities and expenses by enlargement, believing that we shall be sustained. The way to maintain us is to secure us all the cash subscribers you can, and pay your own subscription promptly in advance.

One reason why we have enlarged was because we thought if we made a first-class paper we could collect payment in advance, and if we cannot do that, we do not care to do business. There is more to be made at most any other place than selling newspapers on credit.

Any man can easily raise \$2.50 in advance than \$3.00 at the end of the year; and as the year will soon begin again, we request all to renew promptly, to pay in advance and pay in advance for 1879, and then this farm journal will stand by them with a stout hand, with all debts paid, and means to use to best advantage.

The FARMER is essentially the family newspaper, and we request every member of the family to interest themselves to see that it is paid for. Sometimes the richest farmers on our list are the most negligent, and it is often more neglect that we are not paid. If the good wife and mother will watch out for us and see that we are paid, no doubt her influence will secure the desired end.

It is a shame and disgrace to Oregon that the only paper in the State that can be called the people's own advocate and defender, is hampered and embarrassed because it cannot collect its dues. That kind of "patronage" is about "played out." This refers to those who owe over one year, and at the same time they give it distinctly to be understood that hereafter we expect payment within six months of commencement of subscription.

Subscription Rates. A subscriber suggests that we make our rates \$2.00 payable within six months instead of three months, and \$3 after six months, and we accept the amendment, suggesting to those who can pay in advance that of course will be very acceptable, but in cases where our friends did money stringency we will accept \$2.50 within that time.

Many Thanks. Our request for payment of back numbers brought favorable answers from a few, and our return thanks to all who thus responded, but there is room for about a thousand more to do likewise, and the money is much needed in our business. Donning is disagreeable to us, and we much better enjoy giving thanks for each receipt.

The Boss Farmer. W. E. Peck and J. S. Anderson are traveling through the Willamette Valley selling the orchardists a new pruner, of recent invention that is evidently the greatest improvement made in that line. They have their headquarters with H. Hansen, of Portland, orchardist and nurseryman, who called attention to it, claiming it to be the cleverest seen by him.

Grades as Milkers.

A recent writer suggests two very important questions, the facts in relation to which, and the principles controlling the case, should be well understood by all dairymen and breeders of dairy stock. His query is, do heifers from native or scrub mothers by bulls of thoroughbred milking stock make better milkers than their dams; and if so, why? Why take the qualities of the stock from the sire rather than the dam? It is an indisputable fact that many native cows are superior milkers and butter makers and this quality is transmitted to the daughters in some cases, until a family exists of local celebrity.

At the present time we have many thousands of dollars due us on back subscriptions, and if every one had paid us in advance, as should be the case for you cannot get any first-class journal in the world without advance payment, we should have money to conduct every department in the most thorough business shape, and not owe any man a dollar; could put on more editorial force, and use spare means to canvass all parts of the State, to lay in supplies of paper and material, and you would have as much benefit as we from that state of things.

As it is, we lose \$1,000 or more a year, had debts; lose interest on sums due us, and pay out heavy percentages to collect many back accounts. So that our losses may be placed at \$2,000 a year by doing a credit business. About one-third of our subscribers pay promptly in advance, and we owe it to them that we can succeed at all.

The "Dehance" Spring Wheat is coming to the front, if the trials, as far reported, in competition for the prize offered by Messrs. H. K. Blue & Sons, are a fair indication. We commend a few of the reports of our own state: (1) California in various ways in dollars (each acre) 1.04 of an acre area 3 tons barley and mixture applied, yield, 316 lbs, equal to 327 bushels per acre; (2) Colorado 16 acres sown; yield, 240 lbs; (3) Colorado 14 acres sown; area, 22x107 ft; yield, 200 lbs; (4) Vermont 16 acres sown thickly on damp land; yield, 50 lbs; none of the heads 7 inches long. These reports show that this is a superior variety of spring wheat, and also what is possible in wheat yields under the highest cultivation.

Elsewhere we publish for Mr. F. Flannan, a dispatch received from L. Green, proprietor of the Western Beehive Nursery, Perry, Ohio, now at West Oakland, Cal., regarding that Flannan is his agent. Any person interested in call at this office, and see the letter to Mr. Flannan, where Green positively says he has no agents, and does not know Robinson, Flannan's partner. Mr. Green's own family, he considered reliable in case of this contradictory statement. Last winter one Miller, then a partner of Flannan, is to add Perry Watson, length 211 trees and 100 lbs of H. W. Peck's nursery, San Francisco, with which he filled orders received for Eastern associates. These trees, lately received, may have come from Ohio, but the conduct of Mr. Flannan, and the various and frequent contradictions of these tree peddlers, give people who have ordered trees a natural distrust, which will be hard to overcome.

Mr. F. Flannan desires us to inform our readers that the following telegram has been received from L. Green: WEST OAKLAND, CAL., NOV. 25, 1878. To C. H. Howard: Mr. Flannan is our agent. Trees packed as sold. L. GREEN. Nov. 20th 1878. For NEXT WEEK.—Pencil notes from "Charity Grange, in old Linn county," came to hand just as we were writing ready to adjourn for Thanksgiving, and will appear next week. Some other matters are in keeping for another issue.

The Legislature at the late session passed a new fence law. All "worn" fences must be five feet high to the top of the top rail. Other kinds of

Don't Buy My Note!

Notice is hereby given that I will not pay a certain promissory note said to have been given by me to the Howe Sewing Machine Co. for \$50, dated some time in August, 1876. I deny giving my note to said company for the sum of \$50, or any other sum of money, and if said company hold my note for the payment of any sum of money whatever, it was obtained through fraud and misrepresentation on the part of the said company. Sincerely, Oregon, Nov. 25, 1878. J. W. DAVIS.

THE Scientific American.

THIRTY-FOURTH YEAR. The Most Popular Scientific Paper in the World. Only \$3.20 a Year, including Postage. Weekly. 52 Numbers a year. 4,000 book pages.
