Fire at Salem-

On Saturday morning just before noon the residence of Frank E. Hodgkin, Assistant Secretary of State, took fire in the roof from a defective flue. The fire was discovered by the neighbors who sent word to the Capitol, when Mr. Savage, the janitor, quickly buckled on one of Babcock's fire extinguish ers and soon had the fire "squenched" without a general alarm being sounded. -Town Talk.

With a Knife.

E. Parry, a 'longshoreman, secured the arrest of John McQuillan this morning upon a charge of assaulting him with a knife. The affray occurred near the Oregon Hotel on Saturday morning and grew out of a dispute about work. Parry said that McQuillan attacked him with foul language and began to crowd him, and when he shoved his assailant off McQuillan struck at him with a knife. The accused said that Parry began the row by abusing him for going to work at under wages and that they came together in conflict. Parry exhibited a scar on his cheek but did not know whether it was made with a knife or not, and in view of that fact the complaint was changed to assault and battery, to which McQuillan plead guilty. He was a longshoreman, and both had families.

Can Such Things Be?

A short time since, B. L. Stone, of this city, rented a one-story frame house which he owns in Tibbett's addiname of S. Simon. Subsequently he vamosed, all the doors and windows of the building becoming missing about the same time, and he rented the place to another party, whose name we could not learn. The last occupant refurnished the house with new windows but had no sooner done so than he also disappeared. Simultaneously with the latter's departure, the windows not only disappeared but also the brick chimney, which had been deliberately torn down and the brick carried off. East Portland meanness has certainly descended to a very low ebb when a few second-hand bricks becomes the object of attack. It is suggested that a watch kept over the premises might result in the arrest of the thief, who may return for chimney

A Rough and Tumble

On the base ball grounds in East Portland yesterday afternoon a quarrel occorred between Charles Drenan and Wm. Nolan, arising out of the losing by the latter of a breastpin. Drenan had found the article in question, but, thinking to play a joke on his acquaintance, retained it during the latter's inquiries for the same. Nolan cessed his search it a name which did not reflect much credit on his character. For a while they had it "hot and heavy," ponent. Nolan finally succeeded in he drew a knife, and would certainly have used it on Nolan had not the latremembered that discretion was the better part of valor and retired from the contest. Both parties were pretty badly marked, and will not be in tighting condition for some days.

The Hager Murder.

The Real Murderers Discovered Three Men Implicated in the Affair Louis Graichen One of Them-

We hear a rumor that comes in authentic shape to us, that the authorities are at last on track of the real muderers of Mrs. Hager, near Oregon City. A man named King, an ex-convict, is now under arrest, and he confesses to a knowledge of the murder, but charges the commission of the crime upon another ex-convict. Steps are taken to secure this man, who is now in this vicinity. It is believed that the track has at last been found that will lead to the conviction of the real perpetrators of this most horrible crime. The man in part, if not entirely, and it seems also that the German now under arrest, Louis Graichen, was present when the act was committed. If the story of King has any reliability at all, it is probable that the three men were interested in the commission of the dreadful deed. It may be surmised that the exconvicts met the man Graichen, who it ems was on intimate terms with the Hagars, and they must have learned from him the fact that the Hagars were lately in receipt of a large amount of money, and took their cue from his information. We may expect to hear of the other ex-convict's arrest in a few days, as he can hardly escape. It is said that the shirt collar found on the premises after the deed, was torn from the person of the man of whom the officers of justice are now in pursuit.

Dran-Near Halsey, of diphtheria, March 19th, Geo. T. Gray, son of F. M. and Mary A. Gray, aged 16 months.

Editor Willamette Farmer:

Your correspondent J. B. M. is right about our need of economy in use of straw as manure for worn-out lands. It is suicidal to take crop after crop from our land and return nothing to replace the loss, or even partially retain it by the use of rotted straw. If a man must burn his straw, let it be scattered over his poorest spots of land, thus the ashes which are invaluable fertilizers, will enrich such spots wonderfully. This entails some work, yet it will pay better than to burn all straw in one pile. The only objection to this would be the scattering of wild oats and other seeds, thereby making land more foul. In that case, it were better left to rot in a pile if not all required at the barn or stable.

As for ashes as a fertilizer whether of wood or straw, anyone can see their effect on either new or old ground. I have newly grubbed hill land with its first crop of white wheat now on it, and wherever ash heaps were scattered, there the plant has spread far more and looks much stronger and infinitely better in every way than elsewhere.

Last harvest I threshed on the poorest spot of land I had and when done hauling straw fired the remaining chaff. Right there is my best wheat; it stood the frost better and by observations last summer it will stand drought much better. If some scientific farmer can tell me what is the main chemical ingredient of such ashes, so wonderful as a fertilizer, also where and at what cost obtainable, he will confer a favor. Ashes in sufficient quantities are to be obtained, but if it were potash or some other chemicals, they may pay to buy, as they do in Europe and the Eastern States, why not here? By inserting this in your valuable paper you will confer a favor on a subscriber and well-wisher. PHENIX.

Jottings from Linn County.

Editor Willamette Farmer:

Everywhere the farmers are busy, and are pushing their farm operations with unprecedented vigor. The grain already sown looks very fine, and present prospects promise tion to East Portland to a party by the the most productive season we have enjoyed for many years.

The PARMER is daily becoming more popu lar with our substantial farmers.

Rev. Condit, of Astoria, has been trans ferred by the Presbyterian Presbytery of Western Oregon from that place to Albany, and will assume control of the Albany College and pastor of the Presbyterian Church. Mr. J. E. Hannon recently sold his fine span of sorrel horses for upwards of \$400.

The Harbor of Refuge is the engrossing subject among our business men and citizens. Everybody thinks Cape Foulweather the most feasable point. Our people are determined to have an outlet to the sea at that place, whether or not the Government establishes a harbor of refuge there.

The District Teachers' Institute met Albany last week. The meetings were full of interest and profit, and were well attended.

[Our correspondent closes with rather severe strictures upon the manner, or want of manner, with which the State Superintendent presided at the Institute. Mr. Powell is more earnest than graceful, but we think he means all right.]

Home Mutual Insurance Company.

The advertisement of this well-known in urance company, will be found in our advertising columns this week. The agent in this by calling the man who might have city is Mr. Goo. L. Story, one of the oldest residents of Portland. The company was organized in San Francisco in 1864, with \$300,000 capital, and since that time has done when Drenan, apparently getting the a safe and posperous business. It has paid worst of it, seized a baseball bat, with out \$1,400,000 in losses, and now has a a safe and posperous business. It has paid which he commenced belaboring his op- reserve of about twice its original capital to make good all its policiest An Oregon wresting the bat from his grasp, when Branch of this corporation controls the business for this State and a fair proportion of its means are invested here. The company has always been content with moderate dividends and maintains a fund in reserve, in addition to its capital, that is abundant security for its promises. Its stock is not in the market, or subject to speculative movements, but is held by cautious men who conduct the busiprinciples. It will be seen that to patronize this corporation is to keep our money at home, for all the surplus of Oregon receipts is invested here among us.

Literary Contest.

HALSEY, April 8, 1879

Editor Willamette Farmer The Franklin Literary Society are gaining great notoricty from the fact that they car ried off the honors at a debate in this place on Saturday evening last on the question, Resolved that a Literary Society would be of more benefit to Halsey than a Good Templars Lodge. There were five speakers from each organization, and prominent among them were Hon. T. L. Porter, and Judge W. J. Stewart of Halsey. The Franklin boys are very proud of their victory and they feel competent to meet any similar organization of Linn County in the arena of debate in a friendly contest.

Representatives.

At the Marion County Grange Convention the following persons were elected Representatives to Oregon State Grange, which meets at Salem on the fourth Tuesday of May, 1879: Hon. R. P. Boise, Mrs. J. L. Hilleary, Hon. Geo. S. Downing, Mrs. Mary Downing.

The Marion County Pomona Grange held an enthusiastic meeting on the 4th inst., conferred the fifth degree on a class, and adopted resolutions favoring Cape Foulweather as a Harbor of Refuge. W. M. HILLMARY, Deputy S. M.

SALEM, April 5, 1879.

Death of a Pioneer.

BUTTEVILLE, April 7, 1879. Editor Willamette Farmer:

Died, on the morning of the 4th of April, 1879, after a lingering illness at the residence of his son near Butteville, Marion County, Oregon, David Extcheller. Deceased was born in Massachasetts, raised in New York, moved to Illinois in 1836, and crossed the moved to Illinois in 1853, baving been a plains to Oregon in 1853, baving been a Methodist for more than half a century. Illinois and California papers please copy. J. W. B.

State and Territorial.

Western Oregon

S. F. Bennett is to have charge of the school at Bethel.

John McGrew is to erect a new store buil ding at Perrydale.

The people of Lewiston, Polk county, are to have a big hunt the 1st of May. A revival, conducted by Rev. Mr. Bower-sox, is reported at Soap Creek, Polk county.

Over \$2,000 of the stock for the Minto Pass wagon road have been subscribed up to last Saturday night. A team belonging to H. M. Clark, Salem, ran away and threw out his son aged 15, who

was severely injured. The Town Talk says C. M. Cartwright and family will leave Salem to take up their resi-

dence in Eastern Oregon. James L. Folkes of Salem, was a member of Jeff Davis' regiment, the Mississippi Rifles, during the Mexican war.

H. Cornell, of Portland was lately married to Miss Emily Parmenter, of Dallas, formerly of Salem, a teacher at La Grande academy

the past Winter. The Wild Horse Rangers-Capt. Rober Eastland's company—met last Saturday at the Elk Horn school house for inspection of arms and drill. Forty-six members present.

Dennis Madder, living midway between Dixie and Bethel, was thrown from a horse a week or so ago, and sustained fracture of both bones of the wrist and dislocation of the John Wilson, who was convicted of larceny

and sentenced to the penitentiary from Umatilla county a short time since, has com-menced an action agaist A. Waugh, T. Ayers and others, for \$20,000 damages for false in prisonment.

The Pendleton Independent learns that diphtheria exists at Upper Little Grease-wood. Mr. A. R. Osborn has lost two children in as many days, and Mr. J. Gallegar one, a little boy Others of Mr. Osborne's family are afflicted.

At a city election held at Eugene, the temperance men elected B. F. Dorris, President of the council; J. McCheng, F. B. Dunn and John Church, councilmen; Horace Knox, recorder; J. E. Atterberry, marshal. The tax-papers succeeded in electing one man—J. S. Luckey for transparent Luckey, for treasurer.

W. F. Rayburn, ex-city Marshal of Corval-lis is guilty of a number of crimes, viz. Se-duction, attempted abortion, forgery, and the embezzlement of \$430 city money. After several unsuccessful attempts to break jail, he with the assistance of parties on the out-side made his escape, Monday, April 7th., at 4 P. M. Was last seen about a mile west of Corvallis on a brother's horse, at a dead run. Corvallis on a brother's horse, at a dead run, waving a revolver, and verbally sending a farewell message to the sheriff and his various friends in and about Corvallis, A reward of \$200 is offered for the apprehension of the

Southern Oregon. The Daily Plaindealer has weakened or at

least become weekly.

The Gussie Telfair has been reconstructed new machinery, etc., and runs to Coos Bay. Uncle George Jones, in the sixtics, has marrie i Mrs. Elizabeth Moffatt at Roseburg. J. W. Olliver and Miss Nannie Wils-liams were married March 30th at Looking

Glass.

Miners still very busy all over Josephine county, generally running their claims night and day. The Oak Creek, Douglas Co., hunting party was out on a hunting expedition, and killed

eleven deer.
About \$26,000 of the total tax for Jackso County has been collected, leaving \$7,000 outstanding.

The thermometer stood at 95" in the shade, Monday, March 31, at Roseburg, the Inde-

The Western Star says: "To this date tax-es to the amount of \$40,000 have been collect-

ed in the county." The Green Bros. of Jackson county, are still running two arastras and their rock is yieling big returns.

Quack Woon, a Chinaman, arrested for robbing Marks & Co.'s safe, Roseburg, has given bonds to appear in \$1,000. Little Lilly Banister, child of R. B. Banis-ter, of Applegate, died from the effects of drinking lye several weeks since.

The Jacksonville Times says that stock isers in that country are preparing to drive their stock cast of the mountains,

The Roseburg Independent says: Mr. Dan Applegate killed three large rattlescakes, while plowing in his field on April 1st.

Quartz mining, the Democratic Times says. gurs well for the interests of Southern Oregon. Granville Naylor unearthed an extensive cinnabar ledge not long since, near his place, four miles from Jacksonville. Ore

Clark Cornutt of Cow Dreek, died on the 30th inst. the Plaindealer says. His death was caused by the kick of a horse. A child of deceased died on the 1st inst.

A full set of hands is to be placed in the Lucky Queen mine and mill soon, and the lesses will adopt a new method for working

the ore. Late assays show rich ore. The farmers of Douglas Co. are putting in their crops and are behind with their work on account of the late rains. The majority of

the farmers are putting in large crops. Billy Watkins and Alick Ireland are

champion grouse hunters at Roseburg. One day last week they killed nine grouse, three pheasants, a grey squirrel, a quail and a coon. The Sentinel says: "Little Mattic Sisley, siece of Mr. and Mrs. E. D. Foudray, accidentally chopped one of her toes so nearly off that it hung only by a little piece of skin."

Wm. Bybes returned from his claim on Rogue river on Monday, and reports a slide in the claim, that carried away a quantity of pipe and caused a short suspension of opera-tions.

J. Dascomb of the signal service, who has been stationed at Roseburg since the estab-lishment of the signal office; leaves with his estimable lady in a short time for Olympia, to take charge of that station.

Judge Hanna, of this district, has notified Messrs. Willis and Abrahams to appear and answer by April 10th, whether or not they have any moneys in their hands belonging to the Canyon Road Company.

R. M. Garret, mail contractor on the route between Jacksonville and Croscent City, whose stock was wrongfully attached by creditors of a former contractor, won his suit at Crescent City last week.

The mining season promises to be a profit-able one for Josephine County. Ex-Governor Chadwick and H. P. McNevin have purchased a ledge near Fisher's Ferry, on Rogue Rivor, which has been lately prospected. The Coos Bay News says: "The new steam-er at Empire, built by Hon. John Dully will seen be ready, and will make daily trips from Sumner to Empire City, and give a shorter and better road from Eoseburg to the Eay."

Following are the transactions of the Rose-burg land office for March: Timber applica tions, 2; pre-emption fillings, 6; donation cer-tificates, 2; homestead entries, 7-766 acres; final homestead certificates, 7-934 acres;

The stock holders of the Umpqua and Coos Bay railroad held a meeting, at which the following named gentlemen were elected directors for the ensuing year. S. S. Mann, G. Wingate, A. Nasburn, Asher Marks, B. Hermann, A. A. Fink and Aaron Rose.

On Thursday last, the miners in Tellurium tunnel reached a much improved grade of ore.
The building for the quartz mill is nearly completed, but the managers are in favor of getting a larger mill than the one they have. They expect to have the stamps at work in a few weeks. Tellurium is firm, with little to be found for sale as it is non-assessable.

The quartz lode, partially prospected by Beekman, Fisher and Klippel, and located on the land of Oscar Gansard, has been purchased by Mr. H. P. Maenevin, of Virginia City, the Sentinel says. This lode is a continuation of the land of the land. the Sentinel says. This lode is a continua-tion of the famous Gold Hill mine and lies on the north side of Rogue river. Mr. Macnevin is a quartz miner of thirty years experience in Mexico, Arizona and Nevada, and will prospect the property thoroughly during the coming Summer.

East of the Mountains.

The Teachers' Institute for Umatilla County, is to be held at Weston, The hills around Pendleton are green and

Spring like: beautiful indeed. Pendleton people are subscribing liberally o have a road made to Granite Creek.

Considerable damage has been done, the Bellingham Bay Mail says, to farming interests by overflow on the Skagit river.

The water is two feet deep on the Dawam-ish bottom lands, and it will be impossible to plant anything for three weeks to come. Passengers from La Conner say the whole country is excited over the news from the Skagit river mines and in a few weeks there will be a perfect stropede for that rich re-

gion. The waters of the streams emptying into Puget sound have been unusually high of late. This is the case, particularly with White and Skagit rivers, where a good deal of loss has been sustained by loggers and farmers.

The Courier says: "Mr. W. Burnell, Chief Clerk to Major Gillespie of the Engineer corps, was in Olympia this week. His visit to the Sound was to look up the question of title to the proposed sites of the light-house, and other matters preliminary to the work of construction.

Quite an exciting scene transpired at the Quite an exciting scene transpired at the Methodist Church, a few minutes before the commencement of service. The Experiment says: "One of the chandeliers, containing six burners, together with their globes and chimneys, fell with a crash to the floor. The ignited oil spread in all directions, and but for the timely efforts of the few who were in the church at the times a general configuration. church at the time, a general conflagration

The Seattle Post says: "The people of the Snohomish are turning their attention to ag-riculture. Where two years ago only a few hundred bushels of wheat were raised, several thousand bushels were raised last year, and this year the amount will be increased by forty or fifty thousand bushels. The yield on the dyked lands is said to range from fifty to sixty bushels per acre, on the uplands from twenty-five to forty, and on the bottoms from thirty-five to fifty bushels.

Weather Report for March, 1879.

During March, 1879, there were 20 days during which rain fell, with an aggregate of 10.66 inches of water; four clear days and seven cloudy days other than those on which rain fell. The mean temperature for the month was 41.25°; highest daily mean temperature, 65° on the 31st; lowest daily mean temperature, 33" on the 7th. Mean temperature for the month at 2 o'clock r. M., 53.38". Highest record of thermometer during the nonth, 76° at 2 o'clock P. M. on the 31st; lowest record, 32° at 7 o'clock A. M. on the 12th.

There were occasional showers of hail, snow and rain during the 2d, 3d and 4th, the snow melting as it reached the ground.
On the 7th it snowed nearly all day, the

snow melting as it fell until evening, when it ceased to melt, and by the morning of the 8th there was 4½ inches on the ground, the most of which went off during the day, and all disappeared on the 9th.

The prevailing winds were from the north during nine days, south-west 16 days, south

buring March, 1878, there were 16 days, south six days.

During March, 1878, there were 16 days during which rain fell, and 6.59 inches of water; one clear day and 14 cloudy days.

Mean temperature for the month, 57.33°.

Highest daily mean temperature for the month, 59° on the 23d. Lowest daily mean temperature for the month, 39" on the 7th.
EGLA, April 1, 1879. T. PEARCE.

WORMS IN HOGS.-Before administering a Wolms in Hoos.—Hefore administering a vermifuge, it is always proper to relax and clear the intestines of accumulations of ingesta. For this purpose give to each hog, in the morning, an hour before feeding, according to the size of the animal, from two to four ounces of castor oil, mixed with one drachm of oil of turpentine. Next day, and once daily during a week, administer remedies which combine in themselves the properties which combine in themselves the properties of a tonic, a bitter and an astringent. For this purpose we recommend the sulphate of iron and gentian root, in doses of one scruple to half a drachm of the powdered sulphate of iron, and one to two drachms of the powdered gentine root. For the purpose of ready administration, such a powder may be mixed with a teaspoonful of honey or treacle, and in the shape of thick paste or electuary, smeared upon the root of the tongue which is far preferable to drenching. It is best given in the morning, an hour before feeding. A frequent change of food, plenty of sour milk, and always ready access to pure drinking and always ready access to pure drinking water are essential.—National Live-Stock water are esser Journal, Chicago.
