All kinds of cotton goods higher with upward tendency.

San Francisco Market.

SAN FRANCISCO, July 8.
 Wheat—Cala choice milling sold at \$1.70; choice to extra choice shipping large sales at \$1.60; also large sales for July delivery at \$1.62 to \$1.65; demand good for all purposes; market strong and tending higher, being affected by European advices; the undertone is seemingly very strong.
 Potatoes—Firm.
 Oats—Feed—Sales of poor at \$1.12; medium, \$1.25; choice Washington Territory feed, \$1.50; extra choice superfine, \$1.65, which is an extreme.
 Flour—Oregon and Wally Walls in somewhat better demand; but only local, and market generally firm at full price, being mainly on the wheat market, and may advance; stocks moderate.

Chicago Market.

CHICAGO, July 8.
 Wheat—50¢ per bu paid for August delivery.
Beerholm's Wheat Market.
 LONDON, July 8.
 Floating cargoes, strong.
 Chicago on passage and for shipment, firm.
 Quotations of good cargoes, off coast, 480 lbs. sea damage for seller's account, less 10¢ per cent. commission; Mex. Ch. or Ml. 45¢; Red Winter, 45¢ California, 500 lbs. 46¢.
 Good shipping California on passage, per 500 lbs. Quotations for orders, just shipped or to be promptly shipped, 46¢; nearly due, 46¢; average Ch. or Ml. for shipment during the present month and following one, 480 lbs. on American terms, 11¢; Oregon for shipment, 47¢.
 Liverpool fair to choice shipping club per cental, 45 1/2 to 46.
 Liverpool fair to choice shipping Calx per cental 46 1/2 to 47.
 Liverpool Red Am Spring shipping No. 5 to No. 5 per cental 70 to 75 lbs 70¢.
 Fax to good shipping Oregon, per cental, 70 to 75 lbs 60¢; good to choice shipping Oregon, per cental, 90 to 100 lbs 51¢. Liverpool wheat spot, strong.
 London Am. state flour per cental, 115 to 6d.
 Liverpool Am. extra state flour per cental, 115 to 6d.

COMMERCIAL.

TUESDAY MORNING, July 8, 1879.

We make up the market report on Tuesday, this week, as the editor will be absent the rest of the week.

WHEAT HAS ADVANCED.

In Liverpool equal to three pence on a cental, so that orders for shipment here (if there was any) to ship, which there is not, would equal 47¢ in place of 46¢. This advance is caused by the bad weather prevailing in the British Islands that threatens loss to the coming crop, and we also hear that the outlook for crops on the continent is not generally good. There is a fair chance that wheat will maintain the advance, but an almost certainty that any advance in foreign price will be offset by equal advance in freights, and we shall be fortunate if the price of wheat in September shall be as good as it was in May. The Oregonian has been quoting wheat at \$1.55 to \$1.60 per cental for some time past, while the price for Eastern for shipment has ranged from \$1.50 to \$1.52 1/2, and only the choicest milling could touch \$1.60. We pronounce those quotations unfair.

OATS ARE WORTH.

From 48¢ to 51¢ per bushel, grading from ordinary feed to choice milling, and from what we can learn that is the top of the market by the car load, though a farmer may be able to sell to a private customer at a trifle

STOCK RANCH FOR SALE!

A Great Bargain for \$8,000—A Ranch in Marion County.
 A section of land, on the North Fork of the Santiam, one mile east of Mehama, and ten miles from Stayton by a good and level road, will be sold at a bargain.
 It is admirably adapted for a stock ranch. The soil is very rich. Thirteen acres are now in clover and timothy, and a great portion of the 540 acres can be reduced to cultivation at small cost.
 The location, in the foot hills, is delightful, and mountain air, and the heat and purest of spring water insures health.
 This offers a good bargain for some well-to-do farmer who wishes to start his boys, or who desires to engage more extensively in stock raising.
 It will make farms for three families who wish to locate together in a good neighborhood; for it is thickly settled all around, and adjoins Mehama, with its stores, blacksmith shop, saw mill, etc., and is near the district school house.
 Persons who wish to see the place can call on J. J. Blair, merchant, at Mehama, who knows the premises and the terms. The location of this land on the line of the Minto Pass Wagon Road makes it desirable, and the completion of the road will add greatly to its value.
 For further particulars apply to
 S. A. CLARKE,
 PORTLAND, July 10th. Portland, Or.

WOOL REMAINS AS LAST WEEK.

Viz: Eastern, 170 to 190; Valley, 200 to 225; Unipqua, 240 to 250. Buyers who paid too much in the start are trying to make it up now by bearing the market, and claim a heavy Eastern decline. Eastern news is that manufacturers are supplied and the market is dull. A very reliable commission house assures us the market stands as one week since, and says the effort to put down prices is un-called for, though it is true that the Eastern market is duller. He says he would send wool below before he would accept the figures now offered in Portland.
 While we think we give full figures for wool—all the market East will stand, and more than many dealers are offering—we find the Oregonian puts Eastern wool 190 to 230 and valley wools as high as 25c, which we think very little of it will bring to-day.
 Our contemporary seems trying to make up for lost time by putting everything a little above the top notch, but while our interests are entirely with the producers, we think it is as well to deceive them by too high figures as to swindle them by placing them too low.
 Manger & Avery's wool circular dated June 14th says: Oregon wools have not arrived on the seaboard in sufficient quantities to make a market. Receipts at San Francisco are increasing, and the wools freely taken at 200 to 28 cents for Eastern wools. The condition of Eastern wool is said to be better than average.
 For a short time to come we shall be away from Portland part of the time and may not keep up market reports, which will not be so necessary for a month to come, as there is nothing doing in wheat and the wool clip is mostly marketed.
 As soon as trade revives and anything can be made of the foreign market we shall endeavor to give our readers all reliable information that can be had, and meantime shall endeavor to keep them posted as to the prospects that interest them in the future.

WE NEED MONEY.

All who owe us, and can pay us now, will confer a great favor to do so. We shall never need money worse than now, and hope never to need it so badly again. When you sell your wool, if you owe us, don't forget us.

REGISTER SILVER CHEAPLY.

Under the new law of Congress you can send silver as third class matter, at one cent an ounce, and ten cents for registering it.
 By this rule \$2.50 can be sent by mail for 13 cents, and \$5 for 16 cents. You cannot enclose a letter; but you can write your name on the outside, or can write a postal card and send in the same mail.

THE CALIFORNIA MARKETS.

The Commercial Herald says the honey crop in California is a failure this year.
 California wheat and barley promise to be much better quality than last year.
 Eighteen vessels were waiting at San Francisco to load wheat of the new crop.
 Freight in San Francisco were nominally \$2 to a direct port, with no charters recorded.
 The Commercial Herald of July 3d says: The Oregon wool clip is estimated at 7,500,000 lbs, and of this amount about one-half has been marketed. The State of California brought us 1,503 aiks and 74 bales compressed. The Oregon brought 1,527 aiks. With us there is very little business; stocks light and buyers scarce, even at the decline in price. The extreme price for best fleeces is placed at 27 1/2 cents.
 Speaking of wheat the Commercial Herald says: As yet very little of the new crop has been brought to market, nor do we expect a free delivery thereof for at least a fortnight to come. There is no concert of action between leading houses engaged in the business—all is hap-hazard. There is no recognized head; no headquarters to go for advice or counsel. "Every one for himself and the devil take the hindmost" is about the situation.
 There is an opening here for a man of brains backed up with capital to take the place of one who departed a year since and whose place has never been filled, and we fear the time is far distant when we are to behold one like unto the "grain king," who left us suddenly July 11, 1878. Ever since the demise of Isaac Friellander the grain trade of this port has been sadly demoralized. Transactions for the week under review have been unimportant. We have considerable old wheat yet in the State, and why it is hard to say. The sales are thus recorded: 9,500 cts choice milling in three lots, \$1.70; 1,115 aiks do, \$1.72; 14,550 cts good do, in lots, \$1.67; 2,300 cts good shipping, \$1.65; 3,000 cts fair do, \$1.60; 300 cts superfine \$1.35.

LOCAL MARKETS.

In the monetary market we quote silver coin 1 per cent. discount.
 Butter, choice dairy, is quoted at 22 1/2—this is for good choice dairy only—and country brands are dull, with low price.
 Eggs are still quoted at 18 to 20c with full supply on the market.
 Potatoes, new, 50 to 60c per bushel. Old potatoes are scarce, with poor sale.

Bishop Scott Grammar School.

We have received the catalogue of this school, well known at Portland, where many youths are well grounded in the rudiments of knowledge. It had seventeen boarders and forty-six day scholars last term, and from its high reputation there can be no doubt of its excellence.
 ERRATA.—Mrs. Hillery calls attention to some errors made in setting up her communication: Where it says the grain is "fried" up, put it "tired" up—a mere transposition of letters that was overlooked. The jail was "hardly" larger than a smokehouse, and the compositor skipped the "hardly." Also in the commencement exercises it should have been McQuinn, instead of McGinn who delivered the address on "Oregon Past and Present." Errors constantly occur, but we can assure her that authors notice a thousand errors that other people easily overlook.
 EVERY family should have a life-size picture of father and mother, and such can be obtained of Frank Abell. Anyone wishing to see some really good life-size work would do well to take a look at his porcelain and crayon work.
 AN old poultry raiser, who believes in milk for fowls, says: "It is meat and drink both. Some of the finest chickens I ever saw were raised upon the free use of milk with their food. Hens lay as well, or better, when furnished with this than upon any known article offered them."

Sir Asley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.
 It is not a stimulant nor excitant, is perfectly safe to take, is not a quack nostrum, and produces results that are wonderful.
 Price, 83 a bottle. Four times the quantity, \$10. Bew a bottle. It will not disappoint. For sale by all druggists, Hodge, Davis & Co. wholesale agents.
 To all who are suffering with the errors and indications of youth, nervous weakness, early decay, loss of manhood, etc., will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in the South America. Send a self-addressed envelope to THE REV. JOSEPH T. LEWIS, Station D, New York City. JAN 17 1879

A GOOD PLAN!

Anybody can learn to make money rapidly operating in stocks, by the "Two Inverting Rules for Success," in Messrs. Lawrence & Co's new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and co-operated as a mighty whole, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from \$5 to \$5,000, or more, can be used successfully. N. Y. Herald-Week, Sept. 20th, 1875, says: "By the combination system \$15 would make \$75, or 5 per cent.; \$50 pays \$250, or 7 per cent.; \$100 makes \$1,000, or 10 per cent. on the stock, during the month, according to the market." Frank Leslie's Illustrated Newspaper, June 20th: "The combination method of operating stocks is the most successful ever adopted." New York Independent, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co. Brooklyn Journal, April 20th: "Our editor made a net profit of \$101.25 from \$20 in one of Messrs. Lawrence & Co's combinations." New circular (mailed free), explains everything. Stocks and bonds wanted. Government bonds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N. Y. June 6-3m

WILLIAM DUNBAR, FEED, FARM, PRODUCE AND EXPORTER OF GRAIN, FLOUR, Wool, Feed, Fruits, Eggs, etc.
 Cor. Front and Oak Sts., Portland, Or. July 11

DR. J. P. VAN DENBERGH, SR., No. 212 First St., bet. Taylor and Salmon, Portland, Oregon, the Great Worm Exterminator
 Late of San Francisco.

MURDER WILL OUT.
 One bottle of Dr. Van Denbergh's Worm Syrup expelled over 200 worms from my son Lewis, which had the effect of curing him of nervous spasms. I reside on 1st Street, bet. F and G, Portland.
 POSTLAND, AUG 25, 1879. BERNARD H. NYE.

This is to certify that I had been afflicted for some time and became entirely helpless to walk or move, severe pain in my back, no rest day or night, to use of my limbs whatever, until I commenced taking Dr. J. P. Van Denbergh's medicine; then I got relieved from all my misery, and in one week's time was able to walk without crutches and without help, and now, with the skillful treatment of Dr. J. P. Van Denbergh I enjoy the best of health, and am able in every respect to follow my daily business.
 No. 5143 Mission Street, San Francisco, April 29, 1879.

A CARD.
 Dr. J. P. VAN DENBERGH—Dear Sir: I deem it my duty to make the following statement: For the last three years I have been suffering with constant gnawing pain and a quivering sensation in my stomach, also pain in my chest and heart; my food would not digest, and I was so nervous that it was with difficulty I could follow my occupation, which has been here in Salem for the past ten years, as a practical dentist. In fact, from the constant pain and misery, I had wanted to a mere skeleton; I had been doctoring a great deal without any benefit, and believing there was no help for me but to linger on until death would relieve me. My friends thought I had worms, and had better see Dr. Van Denbergh. He told me at once that worms were the cause of all my troubles, so he gave me five small powders, and in about four hours about 700 worms, from one inch to one and a half inches long, came away from me that day, and the following night some more came, and I am now happy to say I feel like another man again, and am gaining strength from day to day.
 H. SMITH, M. D.
 SALMO, OR., Sept. 23, 1871.

A Large Teacupful of Worms Expelled.
 One bottle of Dr. Van Denbergh's Worm Syrup expelled over 7,000 worms from my son, 12 years of age. B. GAYNOR, 27 Salmon Street, Portland, May 21, 1879.

This is to certify that Dr. Van Denbergh expelled a large teacupful of worms from me, some measuring eight to ten inches in length, and now I feel like a new man again. I reside on 2nd Street, between E and F, Portland, Oregon.
 A. LANSING.

Over 3,000 Worms Expelled.
 One bottle of Dr. Van Denbergh's Worm Syrup expelled over 3,000 worms from my son, 12 years of age. B. GAYNOR, 27 Salmon Street, Portland, May 21, 1879.

BUCKEYE MOWER & REAPER,
 The Leading Harvesting Machine of the World.

So large a portion of the Grass and Grain Crops of the Pacific Coast have been cut by the BUCKEYE, that no farmer here can be ignorant of its merits; or require argument to convince him of its superiority; as it is too well and favorably known to need comment. It is the perfection of all Mower and Mowing Machines.

We call especial attention to our New and Perfected

CANTON PITTS THRESHER,

New in detail and new general feature. **DISTINGUISHED** and **PECULIAR**, and it now stands the **CHAMPION** THRESHER OF THE WORLD.

Threshermen who have used or employed this new style of Thresher, all unite in testifying that they are the **BEST THRESHERS** OF USE. It is designed and built expressly for Oregon and Washington, by one who thoroughly understands the requirements of the country, and the difficulties to be overcome.

HAINES' (Genuine) SINGLE GEARED HEADER,
 Specially Improved for this Season—Ten or Twelve feet cut.

Scuttler Farm, Freight, and Spring Wagons. Studebaker Wagons, Studebaker Spring Hacks, Regulator, Wind Mills, The most complete windmill in use. Elward Harvesters, Vastly superior to any other hand binder Harvester in market. Will handle lodged or fallen grain, and elevate it better than any known machine of its class.
