Burned to Beath. New York, Aug. 16.—Four dend bodies were found this morning in the ruins of the hotel burned last night at Locust Grove. They were those of Jos. W. Pierce, W. Schu-Kate Rafter, (chambermaid) and Lenis Cook.

Investigating Immigration.

WASHINGTON, Aug. 18 .- It is ascertained at the State department that a dispatch from Consul Mosby at Hongkong, relating to Chinese immigration fees published in to-day's papers, was acted upon immediately upon receipt. The department directed him to comply with its former instructions, which requested all fees for immigration certificates to be accounted for and deposited in the treasury and that the examination which he was authorized to make should be full and thorough. At the same time a consular offi-cer, of long experience in the East, was dispatched to Hongkong and other ports to make a complete investigation of the whole subject of Chinese emigration in its relation to the consular service, as well as of other matters on which information was desired. 000 to \$300,000 Reports on these subjects are expected at an early day, mustery Weather.

New York, Aug. 18.—Considerable damage has been done to buildings in course of creetion about the city by a heavy fall of rain. In some instances foundations have been

undermined and walls have fallen. In the evening the rain gave place to a heavy gale.

Wilmington, Aug. 18.—A terrific storm of wind and rain visited this section this morning at 4 A. M. The velocity of wind reached 68 miles per hour. A large number of shade trees were prostrated and several houses and unroofed. A British bark is ashore, and it is feared that serious damage has been done to crops.

The storm along the Hudson was severe. and boats and trains are delayed by trees across the track.

Row in Canada.

QUEDEC, Aug. 18 .- Irish ship laborers resolved not to accept any reduction of wages, as asked by the French section. In both St. Patrick's and French churches the clergy recommended moderation. A number of ladies, who are remaining in town, have sought the protection of the citadel. The magistrates of the city will call a meeting of interested persons and will ask the governor to enforce the Blake act. The arms of companies of the Quebec battalion have been stolen at Lorete by people from

Cape Blane.

LATER.—Everything quiet. Rain is clearing the streets of rioters. In the Irish part of the city, all passers by and all carriages, during the night, were challenged, stopped and examined by armed men. The Eighth Royal Rifles have been removed from the skating rink to the queen's wharf.

85,000 Barrels of Oil Burned.

TITUSVILLE, Aug. 16 .- Three tanks of oil burned from the effects of the late stroke of lightning; the third catching this morning and exploding with terrine force. Eightyfive thousand barrels of oil have been con sumed in all. The town was threatened this morning by oil running into the river, which became a sheet of flame, frightening the in-habitants and driving them to the hills for

The War in Canada

QUEEEC, Aug. 17.—The Irish in Cham-plain and Montealm wards are all prepared to defend their homes and families have barricaded, in some instances, their houses. Passengers by the North Shore train from Montreal last night state that the cars were stoned in passing through St. Rochs, and Bishop Racine of Chicoulimix and other passengers were slightly hurt by An old man named Crowley was fatally beaten this afternoon by three men at Cape Blane. Giroux was killed by boat hooks and stones, not by a bullet. In St. Rochs, several brutal assaults are reported. The people have stopped the street cars, as there are a number of English speaking employes. A young man named Brown was badly beaten. The first part of Champlain street leading up to the Coves from the city s inhabited principally by Irish, higher up that portion of the street, called Cape Blane s known as the French district. vieur are principally Freuch districts, and Montealm ward, Irish and French. Estimates of the expenses to the city by the riot are over \$50,000, exclusive of commercial oss, which must ensue. Rioting and assaults at Cape Blane continue at intervals, but there is not much apprehension of auother stand fight. The ninth batalion, composed principally of French Canadians, has been deprived of its arms. A meeting of members of the old ship laborers society is called for to-night on Priest's wharf, the object being to induce extremists in the so-ciety to accept terms desired by the French.

Fishing Troubles.

Washington, Aug. 19.--In regard to the demand of our government upon England for \$103,000 damages for Fortune Bay out-rages, it is the wish of the United States government that the matter should be settled, es it seems sure to result in difficulties of a grave nature unless an early understanding is reached. It is felt that under the treaty as construed by the English govern-ment the privileges entailed upon the United States are not proportionate to the price paid

Peace Ahend. Quenec, Aug. 19 .- Members of the Irish and French societies with priests and others, have appointed a committee to arrange peace.

A September Gale.

New York, Aug. 19.—The storm at Morehead City, North Carolina, was the most violent which ever visited that place. At, 6 A. M. it blew a hurricane from the northeast, and at midday hauled to the southwest, a change which saved Beaufort and Morehead from entire destruction. The Atlantic house, the largest hotel in that part of the country, is entirely demolished, not a vestige being left. There were 150 guests in it, and there was not a particle of clothing saved by any of them. People did not begin to leave until the waves were literally breaking the hotel to pieces; then there was houses are ruined. There is not a wharf 425,000 spindles are left in Beaufort, and only two or three of work on short time. hundreds of sail boats are fit to sail. More-head City also suffered terribly.

Yellow Pever

MEMPHIS, Ang. 17.—Twenty-five new cases were reported to-day, 15 of whem are colored, and four deaths. Several cases of persons stricken beyond the corporation line have also been reported. A man died of yellow fever this morning at Balley Station, Tenn., 20 miles east of this city on the Charleston tailroad. Weather clear and cool. The thermometer has ranged between 62 and 76 degrees.

Washington, Ang. 17.—Comptroller Por-ter, of the treasury department, says that the national board of health is of the opinion that contributions for the support of the people in Memphis in camps is necessary to prevent the spread of yellow fever into other States. A requisition upon the \$100,000, appropriated by Congress will be honored.

MEMPHIS, Aug. 18.—Eight new cases were reported up to noon; five deaths. Gen. John S. Skeffington, a prominent criminal lawyer, was prostrated this morning. His case has not yet been reported to the board of health. The weather has grown warmer,

Thirteen cases in all reported to-day; two deaths have occurred.

PROVIDENCE, R. I., Aug. 18.—The schooner Susan Stetson, from Marigoane for Provi-dence has arrived here. The captain's wife died at Hayti, and two seaman died on the voyage from yellow fever.

MEMPHIS, Aug. 19.—Thirty-one cases in all were reported to the board of health today, thirteen of whom are colored. One death is reported. The case of fever and death at Bailey Station, Tenn., has been traced to infection from some baggage removed from within the infected district to ddence of Mr. Julian Bedford, whose son Edward had sickened and died.

The Fishing Trouble.

Washington, Aug. 20 .- Advices received by the State Department from the North American coast represent that although no netual violence has occurred this year, our fisherman are deterred by apprehensions of violence from approaching the shore and carrying on their business with the freedom we are therefore deriving no benefit from our agreement with the British government and getting no return for our money. The state of feeling which prevails between our north coast fishermen and British American fishermen, who consider themselves justified in using force to carry out local prohibitory laws, is regarded by our government as ex-tremely dangerous and liable at any moment to lead to bloodshed and serious international misunderstanding, and it is therefore very anxious that some steps should be taken by the British government to do away with the local prohibitory laws of the Ca-nadian provinces which now practically override and nullify the treaty provisions of a far higher authority.

ECRERA, Aug. 19.—The coal war has broken out afresh. A Sheriff's posse at-tacked the coal ranch at Fish creek between sundown and dark last evening. Many shots were fired, and five Italians killed, six badly wounded and several prisoners taken. None of the Sheriff's posse received a scratch in the fight, and this causes many to believe that the coal burners were not armed. On the other hand the messenger reports that the Italians fired the first shot. The exact truth cannot be ascertained until the return of the coroner. The sheriff's party numbered nine men. The messenger asserts they were confronted by over 100 Italians, all well armed. General Sabin, command-ing this division, had on yesterday issued an order which relieved military companies from active duty. On learning this morn-ing of the Fish creek fight he promulgated another order mustering them all in again.

If not for those interferences it would have afforded us much pleasure to have went over and killled the animal for them, thereby saving them the dangers of being injured should they wound the bear only and be unable to escape.

Wheat Raising.

The question is frequently asked: 2,000 to 3,000 bushels per day. Harvest hands receive from \$2 to \$3 per day and board. The yield this year is larger and heavier than usual and ranges all the way from 25 to 60 bushels the acre. Wheat, according to the above figures, can be raised and sacked for 24 cents a bushel and is worth to day 50 cents, which shows conclusively that our farmers have a perfect little bonanza.

Harvesting at Night.

Many farmers throughout the valley are doing their harvesting after night in consequence of the grain having be come so ripe. The dews which fall at sundown dampen the heads so that the grain does not shell nor the stalks break in binding either by hand or machine. It is a novel sight to see harvesting machines illumined with lanterns moving around the broad fields gathering in the

An acre to plow, sow and seed; \$1 25 to cut and one-half inches deep. Besides this, and head, and about 7 cents per bushel the sharp sickle edge on the belly is a for wheat to thrash and sack it, that is puzzler. No shad has that peculiarity. including wages, board of hired help I should think from your description, it and horse feed. A header usually works might be some variety of the herring up from 15 to 20 acres, and threshers, family, peculiar to the Pacific coast, for with good machinery, clean up from I know of no such fish in our Atlantic waters.
