WOLF TEETH IN HORSES.

National Live-Stock Journal, Chicago. The so-called wolf teeth are in themselves harmless enough, yet the popular prejudice has a foundation which it would be well for horsemen not to ignore.

A CRUSADE AGAINST THE BEES.

The London Daily News has published the following item: It is a disadvantage of civilization that it shows us the danger to which life is exposed.

High Farming—What is It?

To be brief, it is the growing of the best crops on the best soil under the least conditions; and finally the crop given the best profit in return.

English Views of American Poultry. The London Agricultural Gazette of Sept. 9th says: From the report of the Assistant Commissioners we find that, with the exception of turkeys, poultry in England is better than in America.

Fowls in America are reported as "exceptionally badly bred." They are "all legs and elbows." Their skin is yellow, and they are of a restless disposition.

American Grain in Russia. From the London Telegraph. Russian journalists appear to be just now painfully exercised by the announcement that two American steamers, laden with grain, have entered the port of Revel.

The London Times, in figuring on the cost of raising wheat in this country, plus its transportation to the seaboard, plus its shipment to Liverpool and changes there, gravely concludes that we cannot afford to sell our wheat in the English market at less than fifty shillings sterling for 500 lbs.

Did you ever know a man who grew rich by fraud, continued successful through life and left a fortune at death? This question was put to a gentleman who had been in business for forty years.

WE WON THE BET. Detroit Free Press. Soon after two o'clock yesterday the sash in the fourth story of a business house on Woodward avenue was raised and a man's head and shoulders appeared in sight.

"You'll break the glass if you try it!" shouted one of the fast growing group. "That cord isn't stout enough!" yelled a third.

Those desiring to make full payment at the time the Bond is issued, will be entitled to a reduction of \$10.00 on each lot, or \$5.00 on each \$50.00 paid in. As the ROAD TO WEALTH is the most certain and rapid through real estate investments, this enterprise offers far more inducements to the public than any other on the coast at this time.

WHO WANTS WISDOM? A boy being asked, "what is mist?" vaguely replied, "An umbrella." This lad has profited by his course of natural philosophy in one of our city public schools.

"If Jones undertakes to pull my ears," said a loud-mouthed fellow on a street corner, "he will just have his hands full." The crowd looked at the man's ears and agreed.

"Is the train behind time?" inquired a gentleman at the station. "No, sir," replied the porter: "it's not behind time, sir, but it's just behind the bridge beyond there."

When Ohio people see a couple of medical students with shovels, though the boys may be going to get fish worms, nothing will prevent the people from passing the night in the cemetery, armed with shot guns.

One of our "high-toned and elegant" millionaires has not long since visited Europe. A traveled friend asked him what he had seen, mentioning all the noted sights, among others if he had seen the Dardanelles.

It is said that the deepest gorge in the world has been found in Colorado. We always had the impression that the biggest gorge in this country might be witnessed at a railway station where the train stops "five minutes for dinner."

"I'd have you to know," exclaimed Mrs. Uppakrust, haughtily tossing her head, "that my family always moved in the upper circles."

Doctor (looking learned and speaking slowly)—"Well, mariner, which tooth do you want extracted? Is it the molar or incisor?" Jack (short and sharp)—"It is in the upper, near the labroad side. Bear a hand, you swab, for it is nipping my jaw like a lobster!"

The poet has referred idlers to the ant for a lesson on industry. The common house-fly, however, wears the belt for persistent perseverance. One of these creatures will go a thousand times to the same spot on a man's bald head, and yet there is nothing to be gained by it in any way.

Ventura county, Cal., the Free Press thinks is the boss county for oil, having produced coal oil, castor oil, linseed oil, mustard oil and last, but not least, some of the best olive oil that ever entered market.

PORTLAND. The Great Commercial Center of the North West. It has a population of 21,000. It is to Oregon and the territories of Washington and Idaho, what New York City is to the State of New York, and bears the same relation to that State and those territories that Chicago does to Illinois, St. Louis to Missouri, Philadelphia to Pennsylvania, and New Orleans to Louisiana.

Portland City Homestead. The land in this enterprise lies adjoining the city, and is only from ten to fifteen minutes' walk from the court-house, and a less distance than that from one of the best public schools in the city.

PRICE. All lots will be sold for \$100.00 each, payable in installments of \$5.00 per month, or the small sum of 16¢ cents per day. No interest will be charged for a good and sufficient Bond for Deeds will be given upon the payment of the first installment of \$5.00, and a Warranty Deed upon receipt of last installment, both without expense to purchaser.

ROAD TO WEALTH. In the most certain and rapid through real estate investments, this enterprise offers far more inducements to the public than any other on the coast at this time, as the price and payment are within the reach of all. Do not let this chance pass.

That not many years ago some of the best lots in San Francisco were sold for an ounce of gold dust, and that now they could not be bought for \$100,000. Also, remember that in Chicago some of the best business lots were once traded for a pair of old boots.

That of real estate investments the homestead plan is the best and safest, all who invest are interested in making the whole property more valuable. To illustrate: Suppose A builds a house on his lot, and B owns a lot adjoining; B gets the benefit of A's improvement, while A is not injured thereby.

The Overland, Oregon & California, and the Western Railroad Companies have purchased all the lands from the east line of the Homestead (which is Ninth street) to the water front for the terminus depot, machine shops, etc.; also the main line of the Narrow Gauge Railroad (limited) will locate their terminus near by—thus the greatest Railroad center on the Pacific Coast—lays in close proximity to these lots.
