#### THE STATE FAIR.

The Attendance Increasing—Beautiful Floral as for Display.

Second Day ... Thursday, June 30th.

The second day of the State Fair was great improvement over the first. The number in attendance was much larger than on the second day of last year, and the exhibitors were bringing in their displays very rapidly. There is considerable fine stock on the ground already, and much more is coming, while the pavilion exhibition was quite creditable and some very rare articles may be seen. One of the handsomest attractions in the pavilion is the corner occupied by Mr. Abell of this city. The display of farm products will probably not be as large as form-riv, except early vegetables and seasonable fruits. We noticed one attractive feature to the State Fair which is a great improvement on the manner such ex-hibits have heretofore been made.

A LARGE GARDEN

Has been attached to the pavilion, which i devoted to floral exhibits, under the special charge of Mr. Miller, of Milwaukee, and his admirable taste displays the rich and rare plants to admirable advantage. It is certainly one of the main features to be seen. The articles for the pavilion are not yet sufficiently placed on exhibition for us to make any special mention. There are probably more blooded horses on the ground than have ever been at any one place in Oregon, and the races promise to be very interesting and thoroughly contested. Yesterday's races were as spirited as we have ever seen on the track. The track was in splendid order and in the first race of three quarters of a mile, free-for-all, for a purse of \$500, six horses started, as follows: Tillie C, Torence, Jim Merritt, Mayflower, Heenau, Billy Musgrove. Tillie C was

THE FAVORITE,

Jim Merritt and Heenan, second and third, They got off in good style and made the distance in 1:172. Jim Merritt winning the race, Tilla C. second and Heenan third in the outcome. In the trotting race which followed, Inauguration, Fanny Kellogg and Western were entered. After considerable e they got off, with Western Chief on the inside, Fanny Kellogy second and Inau-guration third. The first heat was slow, the inside, Fanny Kellogg second and Inau-guration third. The first heat was slow, being 2:42, Inauguration coming first, fol-lowed closely by Tilla C. and Western Chief in the rear. The second heat resulted the same, the horses coming in in the same order in 2:38‡. The third heat showed still better speed, and the horses came in as before in 2:241. All these are fine look my horses Inauspeed, and the norses came of 2:34. All three are fine looking horses, Inaugaration being owned by Andy Bray of Sa-lem. Fanny Kellogg by Mr. Hogaboom of Walla Walla and Western Chief by Chas. Hyde of this city. The races to-day promise to be of more than ordinary interest and will

This will be full bowed by a trotting race free for all horses that have never beaten 2:38, best 3 in 5, for a residy to try them on innocent fair goers at a research of the decimal property of the preliminary of the preliminar purse of \$400. The following are the entries for the contest: Van B. DeLashmutt names J. C. Kelly, L. B. Lindsay names Pedro. H. S. Hogaboom names Fanny Kellogg. This is to be a spirited contest. There is a marked to be a spirited contest. There is a marked improvement for the convenience of persons on the grounds this year. The crowded state of the enclosure with hacks and carriages is almost done away with, and there is no dust nordeafening yelling of "all aboard for Salem." The railroad runs into town every 15 min-utes, which does nearly all the passenger insiness. The booths are

NOT ALL OCCUPIED

From the fact that a few persons attempted to monopolize their respective lines of trade. There is a remarkable absence of penny shows also observably, and there is one booth occupied by one of the worst systems of gambling, known as the envelope game, which might as well be dispensed with. Such institutions

From abroad, is a great and a much needed help for our home flocks. Besides the imported sheep, that hardly can be called in competition with our flocks that are exposed to most of the weather brough all seasons, there are exhibits from D. M. Guthrie, John Minto. Thomas Cross and many others, but I regret to say, that for a country that is so much in-terested in sheep husbandry, and has so many supposed to be in the Umpqua, because that pastoral region produces the most desirable and highest priced fleeces, not a sheep or a fleece from there is here on exhibit; neither is there any representations, so far as 1 can see, of the immense flocks we hear so much from in Eastern Oregon. If more inducement in the way of premiums is necessary, could not the society make some award in the shape of mileage, to secure presence of sheep from remoter sections of Gregon and Washington? If this is to be a "State Foir," veritable, then let us have a wider representation

Several years ago Chanti-cieer and all his family were here, from the proud strutting games, and lubb-rly cachies, lown to the the tiniest of bantham, all were here, and there was hardly room to do them justice. About those times chicken fanciers used to compete and better still they used to advertise, but a great deal of time, talent and noney, was thrown away by ambitio s men

The Fair has not really commoment's notice. Outside the pavilion, the "irrepressible conflict" between the various twine binders is going on. The machinery rattles to the propelling power of steam farm engine, and the world looks on while the competing machines toil and their various properties were and their various and their various contents of the conflict representives sweat and swelter in showing representives sweat and swelter in showing off and declaiming. So goes the world, and so especially goes a State Fair. In passing let me say that the people are not yet here in great numbers, and will hardly arrive in multitudes before Sunday, but all next week, and especially on Mond y, the Fourth, the lair g ou ds will be a sight to behold.

THE PAVILION Loke clean and cool with its freshly sprinkled floors. The fountain sends up its cool jets from the central aisle, wreaths of evergreens about the pillars, flags and pictures everywhere show the decorative taste of the ladies comprising the State Fair Association; are no credit to the society or the public and the bright badges of the marshals show that should not be allowed on the ground. We expect the fair will be a grand success this year, and we sine-rely hope in may be, as the officers of the society are doing all in their power to make it such. We shall give details of exhibitions in our issue to-morrow.

Here it is, the fourth day of the Fair, and the crowd is not yet here. There are not as many on the grounds to-day as there usually were on the first day in the old times when October was the season for holding them and they commenced Monday and closed Saturday. This is a care of "linked sweetnesslong drawn act," with a vengeance. To-morrow is Sunday, when there will be an idle row is Sunday, when there will be an idle crowd around and all anxious for Sunday to be over. The display can be summed up to few words as creditable, so far as it goes The exhibit of horses is the best of record, so at least they say; the Pavilion shows to better garden extension this year that is a great at traction and blooms like an oasis in a wilder ness of utility: like an Eden, as it is, greatly to the credit of Henry Miller, Portland's veteran florist, and some others, all of which your lady correspondent will do justice to.

Yesterday were the best we have seen on the Salem track. The first was a running racy, one and a quarter miles for a purse of \$500. There were entered five horses as follows: Trade Doller, Winters, Jack Douglas, Jim Merritt, and Caddie R. The horses got off after a very little trouble in the order named. The first was the favorite in the pool, and buying was quite liberal. When the five horses assent and the safest way to review stock and machinery is to do it with knowledge of where fair promises to be a financial success, and so far the receipter run about the same as in 1881, when the society netted handsomely.
