EASTERN.

The Pausma Canal Company.

New York, Oct. 1t. Ex-Secretary of the Navy, Thompson, president of the American branches of the Panama Canal Company, yesterday issued a statement of the present status of the work, made up from reports of engin-eers, superintendents, etc., just received. It begins by devoting considerable space to the sanitary condition of the Isthmus and laborers on the canal. It is rumored that reports of sickness have been much exaggerated. The status of sickness since January shows twensickness have been much exaggerated. The status of sickness since January shows twen-ty-seven deaths. In regard to the work done the report states that there have been opened and recorded transversely to the axis of the canal 200 kilometres of paths and also a pass-age of from 20 to 30 metres has been made from one end of the isthmus to the other acfrom one end of the isthmus to the other according to the proposed lines of the canal commission. For meteorological studies to which especial attention has been given, four stations have been established, at Colon, Gamboax, Dabya Del, Rio Grande and Noos island. Geological surveys have been made and are now in progress. It has been ascertained that between Colon and Lyon Hill the canal will not encounter any rocks. At present two steam sounding apparatus are being put up similar to those at Colon. The thickness of the mellow soil is quite remarkable, and the soundings have given results beyond expectations on the whole line of the canal. Work on the canal has been commenced. The company now have 200 cars, 12 flat boats and two dredges. The storehouses at Colon cover an afea of 1,400 metres, and are full. Five barges and two steamboats are playing upon the Chagres river and another steamboat at Panam is used for hydrographic surveys of base. ma is used for hydrographic surveys of base. The fears which have been enter ained by some that the company would be unable to obtain a sufficient number of laborers are not likely to be realized. The adjoining provinces will furnish more men than can be employed. Progress of the Texas and Pacific Battrond.

LITTLE ROCK, Oct. 10.—A Gazette special dated at the end of the Texas and Pacific railroad ed at the end of the Texas and Pacific railroad track, says the road is now complete and in operation at a point 145 miles of El Pasco and 492 miles west of Dallas, in Lympha mountains, 4200 feet higher than Dallas. About 12 miles of track laying is the average of every week, at which rate El Pasco will be reached before the first of January. The grading is completed except a few miles in Crues pass, which will be finished in three weeks. The bridges, 160 in number, between San Rachael and Eagle pass, are being put in as fast as the track approaches. Over 100 trackmen are employed on station houses and depots. Water tanks are put in every 20 miles, and where a stream is not found. trackmen are employed on station houses and depots. Water tanks are put in every 20 miles, and where a stream is not found, wells are dug by steam machinery and an abundance of water obtained. The track laying force is kept up to 300 men and fifty teams. Seventeen cars of iron and forty cars of ties per day are used. The telegraph wire is kept up with the end of the track. Weather is frosty. No cattle are on the range west, except 200 head. There is sufficient range west of the pass to feed all the cattle and sleep in the mountains. All kinds of game is abundant. No Indians have been along the ine for two months. On the first of January, through passenger trains will run between brough passenger trains will run between st. Louis and San Erancisco and all points in

fornia and Oregen. Macqin to be Retained in the Cabinet.

Washington, Oct. 9.—President Arthur a decided to retain Robert Lincoln as sectary of war. The President is considering a names for the other six places in the cabit. It is the intention of the President to the a cabinet of such a strong and representative men that it will command the confidence and admiration of the country. It has been decided to give the secretaryship of the treasury to New York. The most reliable nan for this place is Judge Folger of the New York Court of Appeals. He is the man whom Conkling recommended to Garfield, and was at one time very favorably considered by the late President. It is equally probale that ex-senator Fredinghuysen of New Jersey will be made secretary of state. The greatest trouble now experienced by the President is in selecting a suitable man for attriney general. Good pressure is being breight to bear on President Arthur to retail present cabinet until the December session. Lincoln to be Retained in the Cabinet. present cabinet until the December sesot Congress. The President is very ous that the senate adjourn at an early offices. While it is not absolutely determined to end in a new cabinet to the senate during the special session, it is believed by those ner Arthur that it will be done. Senator Ds id Davis has been the object of a great de of attention to-day. The Democratic senators know that they are absolutely potenties without his vote. They have been ver anxious to know whether he can be reupon to act with them. They desire to him pledged in advance to follow what-

two ring in the newly-elected senators. So elves in difficulty. It is barely periods that the Democrats will change their nings about selecting Bayard. Some of the nibis about selecting Bayard. Some of the corthern Democratic senators are also very nuch against Bayard. They say that the people of the North have rejected Bayard as candidate for the Presidency over and over upain, on account of his rebel sympathics combilicans have only been doubtful whether udge Davis would permit his name to be need be no unnecessary delay in procuring witnesses after the trial has commenced, and for this reason he has decided not to hasten the arrangement. ing however, is certain, that if nominated

Guiteau's Counsel.

Garge Scoville, Guiteau's counsel and ther-in-law, recently returned from New He said he did not make any arranget in that city for counsel to assist him in the city for counsel to assist him in the said, to ask Richard T. Merrick, a ment lawyer of this city, to act as assoment lawyer of this city, to act as assoment lawyer of the court to assign Merrick or some other the court to assign Merrick or some other than the court to assign Merrick or some other than the court to assign Merrick or some other than the court to assign Merrick or some other than the court to assign Merrick counter the court of the court of the court to assign Merrick counter the court of the court cont attorney to assist him. Scoville Guiteau will be arraigned Tuesday, and if he (Scoville) conducts the case alone put Guiteau on the stand in his own

became President until to-day. We had a conversation upon various subjects. I do not know when I shall see him again. I had thought I could call on him with as much safety as any other of his friends, but it seems that the gentlemen of the press are exercised over it. I assure you that you have no reason to be and I wish you a very good evening.

The Ohio Election.

Columbus, O., Oct. 11, 10:10 p. m.—One hundred and sixty-six wards and precincts show a net Democratic gain of 243. There are 2,232 wards and precincts in the State. At this rate of gain Bookwalter will gain in the State less than 400, which would leave Foster a majority of 15,000.

11:45 p. m.—George K. Nash, chairman of the Republicon State Central Committee, declines to claim anything yet except that the Republicans have carried the State.

The Quartermaster-Generalship. The Ohio Election.

The Quartermaster-Generalship.

WASHINGTON, Oct. 10.—There is a great deal of unfavorable comment in army circles found in a sufficiently healthy condition of mind and body to transact a business matter he (Mr. Blaine) would demand that his signamind and body to transact a business matter
he (Mr. Blaine) would demand that his signature be placed to documents of vastly more
consequence to the United States than the
question of who shall succeed General Meigs
in the quartermaster general's office. No
further movement was made by the Rockwell
party until after the death of General Garfield
when it is alleged Mrs. Garfield was requested
to and did write a letter to President Arthur
recommending the appointment of Rockwell
tas quartermaster general. About the same
date or soon after General Grant sent a letter
to the President stating that he had long desired and now recommended the appointment
of General Rufus Ingalls to be quartermaster
general when the office become vacant." The
ex-army officer who gives this information to
the Republican is a "chum" of the same rank
of officers of the army, and says he knew generally whereof he spoke.

Arthur's Cabinet.

Arthur's Cabinet.

Various rumors were current last night with regard to impending changes in the cabinet. It's the general belief that the President will have a new or partly new set of advisers be-fore Congress meets in December, and nomina-tions are likely at any time to be sent to the Senate. Secretary Windom desires to be re-liezed at the Presiden't earliest convenience. He told a prominent Senator to-day that the President promised to nominate his successor within the next forty-eight hours. Judge Folger, of the New York court of appeals, is mentioned as a successor of Windom.

Wouldn't Defend Him, Anyhow.

Scoville, Guiteau's counsel, had an interview with R. T. Merrick of the District har to-day and endeavored to obtain the services of that gentlemen as leading counsel in the defense of Guiteau. Merrick declined to connect him-self-with the case for the defense, assigning various reasons, among others an overpressure of business in other directions. He also in-formed Scoville that even if his business permitted he would not defend Guiteau.

The New President's Appointments.

WASHINGTON, Oct. 12.—The President has so far appointed without question all persons recommended by the Garfield cabinet, and he has now over a hundred names selected in the same way that he has not examined the credentials or recommendations of a single one of them. The Stalwarts think this has gone far them. The Stalwarts think this has gone far enough, and an attempt is to be made at once to induce the President to give some security to those not yet in. Among them are some very pronounced anti-Grant men whose intemperate expression against Conkling and Arthur subsequently to Garfield's wounding are now to be placed before the President. Garfield made several appropriate in this district and had selected ithout making any fight over the While it is not absolutely determined men for several more which are particularly ob noxious to the Stalwarts. Among those who would have been appointed had Garfield lived, is Sayles J. Bowen as commissioner of the District. He was once mayor of Washington and is not favorably remembered in that connection. He was a Blaine delegate to Chicago. Certain large taxpayers, fearing sentimental considerations may lead Arthur to carry out Garfield's intention in this case, have sent strong protests against it. Politiciaus are watching the fate of Ramsdell, appointed him pledged in advance to follow what policy they may pursue, as much as if he a member of their cancus and subject to to succeed Webster. He was appointed by Grant 12 years ago, and his summary removal greatly incensed Grant. Ramsiell, as correspondent of the Philadelphia Times, was very abusive of Grant, Conkling and Arthur. It is a control in proceeding to an election before said to night that Arthur has positively de-cided to send all names appointed by Garfield, and this one, not ithstanding Grant and Conkling's special request otherwise.

The Assassin's Indictment.

WASHINGTON, Oct. 12. - District Attorney Corkhill says the arraingement of Guiteau would probably not take place this week. The candidate for the Presidency over and over gain, on account of his rebel sympathies arry in the war, and that to put him now in he line of succession would be considered an thrage by the mass of Republican voters.

E. W. Whipple & Bro., of Forest Grove, says the Eugene Guard, have, during the past two months, taken contracts for 300,000 ties and 1,100 cords of wood for the O. & C. R. R., of which 40,000 ties and 700 cords of wood have been delivered. They have also three saw mills running daily sawing ties.

Mr. Wm. Adair, who is one of the pioneer gardeners in this part of the country, says the Salem Talk, planted this season one-half bushel of the Beauty of Hebron potatoes, which matured in sixty days from the time of planting, and yielded over 30 bushels. The half bushel was the product of three rather diminutive potatoes received by J. Voorhees of Woodburn, from the Agriultural Department at Washington last year. at Washington last year.

#### A NOVEL ENTERPRISE.

Tacoma a short time since with a cargo of railroad material for the N. P. R. R. Not wishing to be at the expense of shifting ports, wishing to be at the expense of shifting ports, always a costly operation, her commander, Captain Gilky, visited this city to endeaver to make arrangements whereby he could have a cargo of wheat sent to Tacoma via Kalama and the N. P. R. R. In this he finally succeeded in having chartered his ship to Messrs. Balfour, Guthrie & Co. at 90s, he to receive and receipt for the cargo here and to assum and receipt for the cargo here and to assume all responsility for loss during the transfer to Tacoma. He secured special rates from the O. R. & N. Co., something less than \$2 per ton we understand, and on or about Friday next the first shipment will take place. Many next the first shipment will take place. Many suppose that this transaction will be a heavy blow to the interests of Portland, but such is not the case. The Dakota being at Tacoma it is possible to carry out this transaction profitably, but it would not be possible to a ship arriving off the mouth of the Columbia either with a cargo for this place or in ballast to go away around into and up the Sound, and have her cargo sent there as cheaply as she could come here even at the most disadvantageous season of the year. So most disadvantageous season of the year. So there need be no fears of Tacoma becoming a port for shipping the product of the grain fields of this State.

COMPLETED. - The dam across the channel between Sauvie's island and Coon island at the mouth of the Willamette, the completion the mouth of the Willamette, the completion of which was prevented last year by the rising of the river, is now finished, and the work was yesterday inspected by Mr. R. A. Habersham, Assistant U. S. Engineer. It is a most substantial piece of work, 1600 feet in length, consisting of two rows of piles about ten feet apart, driven as deeply as possible, and rising two feet above low water mark thoroughly braced and secured by the mark thoroughly braced and secured by the bolts at short intervals and having two timbers, eech 10x12 in hes, bolted the entire length of the dam on each side. The space in the interior is filled with fascicles of brush and rock. The work in the shape of a revetment is extended the entire length of Coon Island some 1,400 feet, protecting the shore from be ing washed away by the current, and cannot fail to have a beneficial effect in preventing the further shoaling of the river at this point
