Ashton's dairy, ditto, \$30.

COMMERCIAL

Thursday, Dec. 1st. respect, and there are positively no figures different from last week in regard to the leading products. We notice that English quotahere are considerably lower in proportion to what has been the case, compared with present rates on the spot at Liverpool, than they have been heretofore, which looks as if operators there had not confidence in the future of the market. Buyers here, however, keep up the purchasing price au \$1 60 per cental, as for a month and more back, and as this is while the Englis market is gradually weakening, and even San Francisco has dropped 3 to 5 cents a cental, it must be that they are confident of lower freightr, and very likely they can afford to pay \$1 60 while San Francisco figures are 10 to 15 cents : sental above that. We have held out always that there ought not to be any such differ ence, and are glad to see buyers coming to the same conclusion.

Some question arises as to the quantity of wheat still in store, and as to how much of to all brainworkers as THE BEST thing the in their estimates. Probably one represents the opinions and wishes of a firm that wishes to see charters come down, and the other may be from a gentleman who expects to have ships to charter. Both here and in California there seems to be no difficulties in the way of estimating the actual surplus awaiting ship ment. The fact is that a greater part of the wheat up the Willamette Valley remains unsold. Enough has been put on the market to answer all export demands and to fully satisfy the needs of shippers, so they cannot complain that the producers have hindered their transactions, and no doubt exporters have made handsomely on all shipments thus far. Producers are anxious to know what thes

chances are for price, and they would like some advance on 75 to 80c a bushel, but the market promises to be languid for some time to come, and may continue so, until after the shipping season of 1881-2 is over, for wheat not shipped in February cannot be expected to reach England in time to realize on any apparent scarcity as a result of the last harvest but will depend for its profitable sale on the prospect of the coming harvest. The prospect of lower freights in the Spring is supposed to counterbalance any drop in the wheat market.

harvest next.

So far we have to complain of too much rain is Western Oregon, so that many were late in putting in Summer-fallowed land. Grain alteracting in Summer-fallowed land. Grain alteracting so well, and we may anticipate entered.—Salem Statesman. ready sown looks well, and we may anticipate that both in Western and Eastern Oregon there will be a large acreage in wheat.

pay much attention to local markets, but so far as understood there is little change from last week.

GOLD AND STOCK COMPANY'S REPORTS.

San Francisco Markets. SAN FRANCISCO, NOV. 30. Receipts—Wheat, 11,500 ctls; flour, 1,700 ctls; eats, 15,500 ctls; potatoes, 1,700 sks;

eggs, 11,500 doz.

Wheat—The market is weak and dull; the demand is mostly local; sales of good milling at \$1 65; coast, \$1 45@1 50; a shipper bid \$1 65 for 1,000 tons No. 1 shipping; quite choice to extra choice shipping at \$1 65@ I 67½; extra choice milling, \$1 70.

Barley—The market is quiet but firm; sales of inferior bay chevalier at \$1 42\frac{1}{2}; good coast feed. \$1 46\frac{1}{2}(0) 47\frac{1}{2}.

Oats—Market is firm at full prices; sales of

choice Oregon at \$1 624@1 65; common feed, \$1 55.

\$1 55.

Potatoes — Market quiet; quotations unchanged; sales of early rose at 90c@\$1; sweet, market firmer; sold to-day at \$1 50@1 75.

Wool—There is more inquiry from the East but no change to note in quotations; unplaced eastern O.egon all taken by a local scourer.

Eggs—California fresh choice, market steady at 424c.

Butter—Fresh roll, 35@37½c. Onions—60@80c.

CHARTERED. To Cork, U.K., British ship Morning Light, 1310, 62s 6d; British bark Evangeline, 562, 62s 6d. To Cork, U.K., or Havre, German ship Roland, 1380, 66s 3d. To Liverpool, Havre, Antwerp or Cork for orders, American ship John A. Briggs, 2110, 62s 6d. To Cork, U.K., Havre or Antwerp, American ship Naucy Pendleton, 1450, 65s. All the above yee chartered prior to arrival. To Cork, U.K., British bark Routenbeck, 943, 72s 6d. There are 20 vessels suitable for the grain trade in port disengaged. port disengaged.

He offers for the Holiday trade a beautiful and extensive assortment of Rings, Broaches, Chains, Pins, Links, Studs, Buttons, Brace 1 ts, Lockets, etc., etc. All goods are plainly marked and his rule is one price for all. decl-lmo

Rich and Beautiful Things for Christmas and New Year's.

J. Van Buerden, No. 107 First street, near Ladd & Tilton's bank, has a beautiful display in his show window, which is rarely equalled in this city. During a few years past he has Thursday, Dec. 1st.

The market remains without change in any espect, and there are positively no figures different from last week in regard to the leading products. We notice that English quotasions for cargoes to be shipped immediately seers are considerably lower in proportion to what has been the case, compared with the spect at Liverpool, than process to the spot at Liverpool, than the spect at Liverpool, the spect at Liverpool at Liverpo able merchants in Portland to our readers.

Exhaustion from Brain Work.

Few of our business or professional men reach the age of forty-five without brain and nervous exhaustion—often to an extent that forces them to relax effort, or abandon work forces them to relax effort, or abandon work for a time, if not altogether. An occasional use of that vitalizing agent, now so widely known as "Compound Oxygen," would give nature the power to restore these wasted forces in a large number of cases. Rev. D.D. Reed, of South Amboy, who was greatly rundown by over work, and consequent waste of nervous energy, after being restored to health through the use of this agent, gives it his voluntery and strong endorsement: "After a most thorough and continued trial of its worth as a remedial and restorative agent, I pronounce its value to be above that of gold and silver. I freely and voluntarily commend it to all brainworkers as THE EEST thing they the Columbia river surplus is yet left over to be shipped. Communications in the city daily papers, evidently written by leading wheat shippers, differ as muth as 50,000 tons all who write for it. It contains a record of many remarkable cures.

Returned from Illinois

Mr. Wm. West, of Chehalis, W. T, returned ome on the last trip of the State of Califor nia, and called upon us. Mr West, as we mentioned some weeks ago, took back with him many samples of our products, consisting of wheat, cats, barley, peas, buckwheat, fruit and potatoes. These samples he exhibited in Pittsfield, Illinois, and reports that they were much admired and sought after. He also says that he is perfectly contented to stay on this coast. The Oregon fever is great there, and we can expect to see some immigration from that part of the country.

Meeting of the Board.

SALEM. Nov. 29, 1881. The Board of Managers of the Oregon State Agricultural Society will hold its annual meeting in Salem, commencing Tuesday, De cember 6th, at 10 o'clock a. M. The premium list for the fair of 1662 will be arranged, and other matters pertaining to said fair consid

Art Department.

The Art Department of the Willamette University is steadily growing in popularity and adds much to the institution. Miss Quivey There is a large quantity of wheat yet up this has quite a number of students, a large share valley, although the quantity brought down of whom are not students at the University. the railroads exceed the transportation of any previous year.

There has not been sufficient rain in California to answer farmers' needs, and the extent of Fall seeding is but small. Farmers, there are very much disappointed, and unless more fortunate than they usually are after this time, California will not be able to have a big erop of wheat this year, and will have a small harvest next.

On whom are not students at the University. There is a young lady from Eugene City stopping at the Woman's College for the special purpose of taking a course in the Art Department. It will be seen from the above that stedents come and stop at this place, even from a city where one of the best universities in Oregon is located, for the especial purpose of learning what is not taught in any other institution in this State. The departments of elecution and music are also attracting constitution in the art department: Pencil drawing 30 cents per lesson or \$5 and the care is a young lady from Eugene City stopping at the Woman's College for the special purpose of taking a course in the Art Department. It will be seen from the above that stedents come and stop at this place, even from a city where one of the best universities in Oregon is located, for the especial purpose of learning what is not taught in any other institution in this State. A New Departure.

The Oregon Improvement Company's outfit for developing their lands arrived in the vicinity of James S. Davis' last Friday, the 11th, and began operations at once on section 13. township 18, range 43. The train consisted of six wagons heavily loaded with agricultural implements, tents, commissary stores, Everything a Farmer wants for sale Everything a Far etc., forming the best outfit of the kind that has ever come to our notice. We understand it is the purpose of the company, as far as may be found available, to employ the teams of the farmers, in addition to their own, and vigorously prosecute the work of plowing and seeding until at least 20,000 acres of their lands are prepared for the harvest.

For many reasons we congratulate the farmers of the Palouse country upon this action of the Improvement Company. A wealthy corporation, owning, perhaps, the facst body of agricultural lands in the Northwest, engaged in their cultivation. To our people, and especially to our land owners, the company say: We have such confidence in the unfailing resources of your country that we are willing to risk large sums in the cultivation of our lands adjoining you. The action of the ompany enhances the value of every acre of land in the Palouse country. It gives almost positive assurance of the early construction of a railroad line, in time to move the crop of the coming season. A few not engaged in agriculture will dislike to see so large an area of grazing country broken up, but this is a narrow consideration compared with the standing it will give our farming lands and stimulus it will bring to our country. As we inderstand, the company propose to sell these lands, plowed or seeded, whenever the settler most deems it to his interest to buy them in this condition. As a business, this extensive cultivation of land by the Improvement Com-pany is no hazardous undertaking; every acre

pany is no hazardous undertaking; every acre of land will be worth and really sell for the additional cost of plowing.

Unless the efforts of the company are threatened by an unprecedented failure of crops, a yield of from sixty to sevesty thousand bushels of grain will be the result, which will leave them with their lands cultivated and a handsome profit. Fencing, and the erection of small houses, for which the company have some three million feet of lumber accumulated at their flume at Dayton, will follow in early Spring.—Palouse Gazette follow in early Spring. - Palouse Gazette
