COMMERCIAL

Thursday, Dec. 15. During the past week wheat has been quiet, with hardly any transactions, and a weaker tone to the foreign market. On Tuesday efforts were made to sell round lots at | Good shipping California just shipped or \$1 60 per cental without success, as far as we | promptly to be shipped - 49s 6d; nearly due, can harn. The best figure at data seems to | 51s. can tearn. The best figure at date seems to be \$1 574 per cental. There have been two or three arrivals within the week, one of which, a wooden ship, offers to charter for 77s 6d to U. K. without takers; 75s may be considered the freight price to the United Kingdom.

Dispatches from New York intimate that it may be possible that the world has a surplus instead of a deficiency of wheat, which position is also taken by a French writer in Beerbohm's last circular. This is set forward to account for the decline in the foreign market, but Beerbohm, who is generally good authority - perhaps the best in the world - takes the opposite view. The situation is about as we defined it last week. Good prices have salled out free deliveries of home products in supplies from Russia, Turkey, India and America. The situation in the Atlantic States seems to be that very little grain is moving, probably because the greater portion of the available surplus has been sent to market. It is the opinion of Beerbohm that any decline will be made up later in the season. He evidently does not believe that the wheat supply is in excess of the need.

The Oregon Belle, a wooden yessel built in Maine and owned by Portland capitalists, not content with freights offered, has loaded with wheat on owner's account.

Various estimates have been made of the grain surplus from the Columbia river, but so far as we can judge now a very correct estimate was arrived at October 1 by taking the figures given to the O. & C. R. R. Co., and other facts then obtainable. Those figures were as follows :

1890 . 10,000
Transported in Aug. and Sept. 16,000
Stored on the Willamette river. 5,000
Surplus East of the mountains. 105,000

Making total surplus of 275,000 tons

Of this quantity it is estimated that sue and a half multion bushels will be ground up by merchants' mills to supply Sound and Vancouver's Island, leaving 20,000 tons of flour for export, and the offal of all flour sold at home will amount to... 25,000 tons.

Leaving for export a balance of .. 250,000 tons

If we should ship this entire surplus, we should then need vessels with carrying capacity of 250,000 tons, but such clean work is eldom done.

river that will load wheat and that will be loaded by Jan. 1, 1882, equals. . . 150,000 tons. Vessels on the way, already known, or to load and start

Total wheat fleet known to date 235,000 tons.

will come later, but cargoes that leave here after March first will be too late for the crop sidering all things, an year, avd will sell on the basis of the next

We are glad to notice that oats are improved and in fair demand at 48 to 50 cents per bushel.

Potatoes are being shipped freely to San Francisco, and buyers are paying 45 cents for Garnet Chili's and 50 cents for whites-such as Peerless, etc.

Green apples seem to be abundant; many bring in inferior fruit and cannot expect to good harvests this year; that of Russia is estiget good prices. Good fruit is jobbed off at 65 cents here, and retailed at 75 cents. Mr. Chas. Coolidge, of Polk county, was here with really choice apples, such as receive the best prices. It is not yet time to ship to California, so demand is limited.

Hog products are in good demand, and those who have pork to sell get 8 cents for the best.

Butter and eggs are without change from former prices. Not being very well last week we did not

do justice to the markets. GOLD AND STOCK COMPANY'S REPORTS. San Francisco Markets.

SAN FRANCISCO, Dec. 14. Receipts—Wheat, 105,000 ctls; flour, 3,000 or sks; potatoes, 2,250 sks; eggs, 9,000 doz.
Wheat—The market is weak, in sympathy with Liverpool advices; \$1 60 bid for choice with Liverpool advices; \$1 60 bid for choice shipping; a sale is reported made at \$1 60 for 500 tons No. 1 shipping; \$1 57½ bid for No. 2 shipping; sale of Danish red at \$1 47½; extra choice milling held at \$1 65.

Barley—The market is firm; prices unchanged; sales of good coast feed at \$1 47½; good brewing, \$1 57½.

Oats—\$1 65 bid for fair Washington Territory.

Oats—\$1 00 bid for lain viscoling tory.

Potatoes—No change in quotations; sweets sold to flay at \$1 50@2 12½.

Wool—There is more inquiry from buyers with more disposition to sell on the part of holders; recent sales embrace 2 500 bags Southern California at 10@12c; 100,000 lbs Santa Cruz Island at about 14c.

Butter—Fresh roll, choice to extra choice, market firm; a slight tendency in sellers' favor is noted, especially best grades.

CHARTERED.

The previously reported American ship Lu-cille, 1,394 tons, gets 70s to Laverpool or 72s 6d to Havre or Antwerp.

CHICAGO MARKET. OHICAGO, Dec. 14.

Wheat-\$1 287 January. Lard \$11 10. Pork \$16 90 January.

NEW YORK MARKETS. Naw York, Dec. 14. Wheat—Market quiet, \$1 34@1 41. Flour—Quiet and weak. BEERBOHM'S ENGLISH REPORTS.

LONDON, Dec. 14.
Floating cargoes — Rather easier.
Cargoes on passage — Buyers hold off.
Mark Lane — Quiet.
Good cargoes red winter off coast—54s.

CALIFORNIA MARKETS. We quote from S. F. Commercial-Herald, of Dec. 8, as follows:

The State at large has been visited with a copious rainfall thus far in December, setting the plows running in all directions, and enabling the farmer to sow the seed with encouraging prospects of a plentiful yield in due season. Many thousand acres of virgin soil will this Winter be brought under cultivation and sown to wheat. The outlook at the present moment is exceedingly flattering for an-Mingland and all through the Continent of other year of great prosperity to the farmer, Europe, besides which there have been free and, in fact, to all tillers of the soil. Of late, English wheat advices have not been at all encouraging to holders; prices, in consequece, have been steadily falling for some weeks past. At the decline, holders generally are averse to making free sales; yet the timely rains tend to loosen holding strings not a little. Exporters do not experience any difficul-

ty in securing all the wheat necessary for the dispatch of vessels now upon the berth. During the month of November the exports of breadstuffs from California exceeded by far those of any preceding month in the history of the State. Seventy-six cargoes of wheat and flour (including two cargoes from Wil mington and one cargo from San Diego) cleared for Europe, aggregating 2,854,523 centals wheat, 49,792 barrels flour, and 45,178 centals barley. Two additional cargoes were cleared for Cape Town with 25,200 centals wheat and 546 barrels flour. Shipments of flour to China, Mexico, Central America, the Islands in the Pacific, etc., consisted of 32,138 barrels. The total experts by sea from California of wheat and flour, latter reduced to wheat, from July 1 to Nov. 30, 1881, aggregated 10,659, 579 centals, or about 532,979 tons of 2000 lbs, while shipments for the same time in the preceding year were only 266, 209 short tons. The stock of wheat in the State, December! was estimated at 850,000 tons of 2000 lbs. The arrivals of deep water vessels during the week have been few. Freights, in consequence, have been maintained, as will be seen by the annexed details. The total tonnage en route this port, to arrive within five months, is 282,000 tons register, against 189,000 same date last year, and 139,000 at even date 1870.

The fleet en route to Oregon now foots up 59, 000 tons register, being much the largest on record. We quote spot rates, American, 65s 667s 6d to a direct port: British Iron, 70s 72s 6d to Cork, U. K. 72s 6d to Cork, U. K.

Hops—Spot transactions are few and far between. We quote Russian River 256, Soc. other choice California, 26,622sc; Oregon, 20,625c; Washington Territory, 23,6225c. The bulk of receipts from the North were bought long since and come here in transit for the East. W. H. & H. Le May, under date of London, Nov. 10th, says: "The tone of the

· tendocino. A London writer to In Interest's Journal re-United Kingdom and of the Continental States, sums up as follows:

O its of stock quite nys: "The sales rairly liberal con-hear of consider-

forthern descrip-

Thus it will be seen that England, France and Belgium may together be expected to require 200,000,000 bushels from foreign sources and the question is where is this amount to be found. Russia and India have both of them same extent per head as are France, Spain and Italy, and both are known to have a large surplus for exporta ion—how much it is quite impossible to say. Neither is Germany so large a consumer of wheat as the countries of Western Europe. Germany sowed 4.530,000 acres with wheat this year, and, taking all together, has not done very well. Anstria, with her 2.520,000 acres, has fared better. Hungary, with 6,500,000 acres of wheat, suffered during with 6,500,000 acres of wheat, suffered during the harvesting period, and Germany, Hunga-ry and Austria, taken together, may be re-garded as something more than self-support-ing. There may be counted on, if necessary, perhaps 40 per cent. of the required 200,000, 000 bushels from sources other than the Uni-ted States. Indeed, if England chose to bid high, those countries could probably do better for us than that; but the United States, if the groun in that country, resches to anything like

crop in that country reaches to anything like 400,000,000 bushels, will doubtless have 490,000,000 bushels, will doubtless have a very considerable quantity available for Europe, and people here are beginning to look forward with more confidence to a reduction rather than to any further rise in the value of imported grain. What the Atlantic ports are holding back the Pacific ports are sending, and it is thought that, if New York continues to restrict Wheat shipshipments here, San Francisco farmers will probably reap the benefit. Meanwhile British farmers are reaping as far as they can the probably reap the benefit. Meanwhile Brit-ish farmers are reaping as far as they can the advantage of current high prices, and are sending grain rapidly to market. It is highly probable that not many months to come toreign Wheat will be selling here a good many shillings a quarter cheaper than it is to-

Messrs. Fishel & Roberts give notice that they have a special motive for disposing of their immense stock of clothing and gentlenen's furnishing goods immediately, which we learn is the probable removal of the first named member of the firm, whose withdrawal named hemoer of the him, whose withdrawal necessitates rapid sales at low prices. This being the largest and best stocked house of the kind in this city, the inducement to trade with them is therefore greater than ever.

Mr. J. G. Eberhard, of Champoeg, left on Wednesday last per steamer State of California for a visit to relatives in Michigan.

A Large Music Store.

Wiley B. Allen, 153 Third street, Portland, has the largest stock of skeet music in Oregon. Publisher of the monthly "Musical Pastime," 50 cents per year. All orders by mail filled promptly. dec9-1m
