New Immigration Pamphlet. We are in receipt of a handsomely illustrated publication, entitled "The Pacific Northwest," issued for the information and guidance of settlers and others, based on information gathered about Oregon and Washington up to the present time, and covering many details of description as well as specific review of this whole region by counties. We have examined this work in detail and consider it the fullest and fairest publication of the kind that has ever been made.

A New Country. The Astorian, in the manner following, describes the country into which it is proposed to build a railroad from this city—the Seattle, Puget Sound and Gray's Harbor: The Yaquina, which came in last Wednesday night from an exploring expedition, brings news of several isolated and self-sustaining little communities of independent people who are living along the Chehalis river for a distance of seventy miles.

Assessment and Taxation.—The Farmer's Policy Ended. New Era, Feb. 13, 1882. Editor Willamette Farmer: I am glad to see your article on assessment and taxation as it will start people to thinking, and but small thought is required to see that the present mode is very imperfect.

Our Sheep. A stock man of a neighboring valley, who was visiting town this week, states that he has tried raising a great variety of stock on adjoining ranges, at different times, and that he finds the sheep husbandry to be the most lucrative in the list.

Consumption Cured. Since 1870 Dr. Sherar has each year sent from this office the means of relief and cure to thousands afflicted with disease. The correspondence necessitated by this work becoming too heavy for him, I came to his aid.

Increased Coal Demand. The building of railroads all over the Pacific Slope must greatly increase the consumption of domestic coal. It will not only do this directly, by the increased locomotive use, but it will indirectly do the same thing, by stopping the importation of foreign coal.

While the total property valuation of the United States is below that of France or Great Britain, the annual accumulation of wealth in this country is greater than that of any other modern nation. In Germany it is \$200,000,000; in Great Britain it is \$325,000,000; in France it is \$375,000,000; in the United States it is \$875,000,000.

A CARD. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send self-addressed envelope to the REV. JOSEPH T. MAX, Station D, New York City.

CROPS AND MARKETS. THURSDAY, March 2, 1882. During the past week we have had in this latitude the hardest storm of rain and wind of the season that ended on Tuesday, causing the waters to rise in all directions. The same storm was felt in California; some rain has fallen there but not generally. Wheat stands at \$1.60 per cental, though the past week has seen considerable fluctuation in the English market, which declined very considerably last Saturday, but recovered itself somewhat Tuesday. It still is weak and unsettled.
