Is a Candidate.

SAN FRANCISCO. May 17.—George Hearst publishes a card in the Econimier this morning tormally announcing himself as a candidate for governor on the Democratic ticket. He intimates that the overshadowing issue will be the Chinese question, on which his position is pronounced. He promises, if nominated, to use every honorable effort to win the fight, and if elected to discharge the duties of the office in the interest of the people.

Wolfe, in an address, referred to the recent conference of independents and regulars, and flatly denied any bargain with Cameron. He concluded as follows: "I deprecate the action which we will be obliged to take. I deprecate Democratic ascendancy in this State; but all hope of peace is at an end, and nothing is left but war against the spoils system and boxsism. Let the future take care of itself."

Nothing short of force will compethem to remain on the reservation and starve The action of Congress on this matter simply means Mescalero's extermination.

There is no change to report from the interior, and if the present favorable weather keeps on the damage re-ported of late will undoubtedly be in a measure repaired. The freight market is not a strong one, though a light amount of tonnage on the spot and tardy arrival of ships fully due have worked in its favor. MORTALITY AMONG CHINESE.-Of late the Chinese of this city have been furnishing about one funeral a day on an average. The about one ruberal a day on an average.

The cause of death seems to be directly or indirectly the result of opium, and crowded quarters in a majority of cases, though leprosy and scrofula take off many. One who was buried this morning was so emacated that his bones were quite bare. The Chinese have a horror for their sick and dead and always store them away in the dead house back of Joss House, from which they emerge feet fore most. The dead wagon going out every day is the only indication of the ravages of disease among them, as they keep very close mouthed about their sick.

Well. Posted.—The Grand Lodge I.O.O.F. has re-elected Mr. T. O. Barker, of Salem Grand Representative to the Sovereign Grand Lodge. Mr. B. is said to be more thoroughly posted in all matters pertaining to the Order than any other member in the State, and his exemplification of the unwritten work before the Grand Lodge in recent session was the most correct ever given before that body. It was owing to this that he received the honor of a re-election for two years.

The Bishop hopes to consecrate the new St. Stephen's Chapel during convocation. Early in the week following the closing exercises of St. Helen's Hall and B shop Scott Grammar School will take place. The delegates are invited to visit these services.

COOL AND STEADY.-The temperature of the water in the Willamette is taken every ranged from 30 to 52. A tew days nie, warm weather will increase the temperature some four or five degrees. A bright, sunny day will sometimes send it up 2 degrees in 24 hours. It is probable the salmon have thermometers and are waiting for the right temperature before they start on their mission up atternal.
