Forest lires.

Milwaerer, June 15.—Specials from the region of the forest fires in Wisconsin to the Republican Sentinel state that at least 30,000, 5000 feet of standing pine has been destroyed in Pike River county, and the fire is still raging in the region of the northwestern portion of Wisconsin and the peninsula of Michigan. Reports in the line of the Wisconsin and Central road state that the rain last night has checked the fire somewhat, but doubtless not checked the fire somewhat, but doubtless not extinguished it. Latest reports from Mels-ville, in the central portion of the State, and where the most serious fires were, state heavy rains have extingui-hed the fires and all denger has passed. Many million feet of pine have been destroyed, but even the approximate loss cannot be determined.

Deaths by the Flood.

Beaths by the Flord.

INDIANAPOLIS, June 15.—Five bodies have been recovered from the flood here yesterday. They are those of Kate Golderman, George F. Scoville, O. K. Saunders, attorney-at-law, Edward Tifford, son of S. E. Tifford, and George W. Smith, of Clearment. Other bodies have been floating, but could not be been floating, but could not be reached. It is supposed that at least ten persons were drowned. Terrible Storm.

Leavenworth, Ks., June 17.—A terrible wind storm prevailed between 12 and 1 o'clock this morning and Mount St. Mary's academy, four miles senth of the city, soffered terribly. four miles senth of the city, soffered terriby. The main tower was blown over on the dormitory, crushing in the roof, and Ida Golden, Annie McDonaid and Mabel McLachin, of this city, and Mary Austin, of Carrollton, Mo., aged from II to 15 years, were instantly killed, and three other children injured. The Kausas central elevator was blown down; loss 850,000. Loss in city and country about \$500,000. Wheat was not seriously injured. Fruit was half stripped from the trees but will still be a good crop. An unknown man was blown into the river and drowned. Barns and houses were blown down and unroofed all over the city and trees uprooted and gen-

eral devastation wrought, VALLEY FALLS, Ks., June 17.—A severe wind storm passed over this section about 12 o'clock last night. E. D. Hillyer was struck by lightning and seriously injured. A large part of the roof of a livery stable was blown away, and another building moved from its foundation. In the country a number of houses and harns were blown down. No one was hurt Damage done crehards and other fruit crops is very great, and hundreds of trees are broken down. Field crops are not much hurt.

The New Commissioners.

The President to-day completed the list of members of the tariff commission, nominated the Utah commission and appointed a board of government directors of the Union Pacific railroad. Mr. Hays, of Boston, is made chairman of the tariff commission, and the two men chosen to fill the places of Messis. Wheeler and Phelps are Alexander R. Botteller, of West Virginia, and William H. Mc-Mahon, of New Jersey. The former is a broken down politician and the latter is a clerk in the New York custom house. Mr. Botteller was born in Shepperdstown, Jefferson county, West Virginia, May 16, 1816. He graduated from Princeton college in 1835. and since that time has been a farmer and politician. He was an old line whig, and in 1852 and 1856 was on the whig and American lectoral ticket. He strove assiduously for many years to defeat Henry Biddington and Class. J. Faulkner for congress, and in 1859 he was at last elected representative from Virginia to the 36th congress. Bottellor was recommended by Senators Davis and Camden of West Virginia, and it is expected their votes will be east for confirmation of the commission, thus assuring success of the nomina-tions. Very little is known here about Me-Mahon. He has been a clerk in the New York custom hause for many years, and Sen-ator Lapham says he is in charge of the cus-toms division and is an expert on matters of

Of the members of the Utah commission, ex Senators Ramsay and Paddock had no prospect of re-entering public life in their respective States, and they are well provided for. The salary of the commissioners is \$5000 each, and the job well last until Utah is admitted as a State. Goodrey, the third Re-publican member of the commission, is said to be a well-informed lawyer and competent man. Carlton and Petting-ew are Democratic members of the commission. The former is a members of the commission. The former is a Terre Haute lawyer who was formerly a part ner of Daniel Voerbees, and the latter is at present journal clerk of the Senate. Pettingrew was backed for the place by Senators Walker and Garland. He is by profession a lawyer, and has served his term as a country newspaper editor. Ex-Senator Spencer, cf Alabama, now of Daketa, is provided for as a government director of the Union Facilite railroad. I. Bromley, formerly of the Tribune, also has a place in the directory. Neither Robert H. Baker, of Wise-nain, George G. Haven, of New York, nor Watson Parish, of Nebraska, have ever been in congress. Sits Down on Arthur.

SALT LAKE, June 17.—The Tribune, after speaking favorably of the men appointed on the Utah commission, says: "At the same time the nomination of this commission is a slight and repreach to Utah. To ignore a whole people; to not be able to find one man in Utah, who in the President's estimation, is worthy to be named on this commission, is simply a proof that in the carrow estimation of the east, there is here both a low order of intellect and of integrity. It is the same feeling which in the east caused men in Congress and these creatures wno are given control of a corporation press, to refer to the seleme petition of 150,000 voters of California, as simply a sand lot manifesto. It is a little south, stationed where they will do the most ple who, while strong in the aggregate individually, are so weak that it would take a lower kingdom. The number of white men the usand of them to supply manhood enough for one gray-shirted miner of the west; but it will all come right after a while. We do not doubt but President Arthur has done what he thought was best, with one jack Mormon adviser in his cabinet and one man who knows nothing but the tricky side of politics, who in every appointment seeks to place a support where it will be convenient to rest upon when the labor of putting up conven-tions two years hence will have to be done. We understand all this; but when a petition signed by the foremost men of the territory and backed by senators and judges of the Supreme court of the United States, asking for an appointment on the score of eminent worth, stainless integrity and a full knowl-edge both of the law and of the facts, is con-temptionally ignored, it would be cowardly not to say that the people here who have the greatest direct interest in this business, and those whose voices ought to have the most weight, feel that they have been personally and unjustly slighted, and that the President of the United States has served a notice upon the country, that in his estimation there is very little difference between the men here who are trying to upheld this Republic, and those others who are crying to tear it down.

KEEP SCRAPING. -We hope the scraping now in progress on the bar, says the Astorian, will be continued until there is plenty of water to float any ship that floats, and not be stopped when it is half done. Whenever a few feet more water is obtained the fact should be telegraphed to the Maritime Register and other shipping newspapers, so that ship owners may be apprised of the fact, and allow their vessels to be sent here for this season's crop. We notice a Callao freight circular says that the large ships from that port season's crop.
