

TELEGRAPHIC NEWS.

Death of Mrs. Abraham Lincoln. SPRINGFIELD, Ill., July 16.—Mrs. Lincoln, widow of the late President Lincoln, died in this city at 8:15 to-night. She had been ill for a long time, but a few days ago grew worse. Saturday evening she suffered a stroke of paralysis, and from that time lay in a comatose state, until she died. Robert Lincoln left Washington to-night, and will be here Tuesday morning. The funeral announcement will be later.

The immediate cause of Mrs. Lincoln's death was apoplectic paralysis. The last words she was heard to utter were spoken last evening at 10 o'clock, when she looked to her brother-in-law, Mr. Edwards, and said "I am dying." From that time until death she was unconscious. Mrs. Mary Lincoln was born Dec. 13, 1818, in Lexington, Ky., daughter of R. S. and Elizabeth P. Todd, came to Springfield in 1839, and married Abraham Lincoln Nov. 29, 1842. Her only living child is Hon. Robert T. Lincoln, secretary of war.

Pennsylvania Political Muddle. PHILADELPHIA, July 15.—Chairman McKee, of the Independent Republican State Committee, issued a call for a meeting of that body in this city on the 27th inst., to consider the four peace propositions submitted by the regular Republican committee, and with independent candidates, speaking for themselves alone, have rejected it, and independently of this city say the committee doubtless reject the propositions, and probably refuse sanction to any agreement of candidates, Stewart, Duff, Merrick and Jaquin, are to have a new convention, at which none of the present candidates on either ticket will be eligible for renomination.

Senator Cameron has decided he would make no more overtures to independents. In conversation with leading Pennsylvanians yesterday he announced his programme for the rest of the campaign. The stalwarts in Pennsylvania will make an aggressive fight. They will consider the independents as much their enemies, if not more so than Democrats, and no concessions of any sort will be given. Senator Cameron said it would be better to make a straight out fight with certainty of defeat than patch up some sort of a compromise and then be beaten.

Star Route Cases. WASHINGTON, July 15.—Col. Bliss deems his new evidence in Star route cases amply sufficient for the grand jury to have found a presentment upon. It is reported that the grand jury was thoroughly familiar with the connection between Senator Kellogg and Walsh, as shown in the testimony taken before the congressional investigation committee before, and evidence presented them. It is understood that out of twenty-three jurors, nineteen were opposed to the presentment upon evidence upon general vote. The cases of other alleged conspirators were held under consideration until to-day when they were also dismissed, 19 to 4 as stated.

A Reducible Shot. CHICAGO, July 16.—Times' Laredo: At 7 o'clock this evening W. E. Cummings, district attorney, was shot dead by Leonard Haynes, son of the customs collector at Brownsville, for abduction of his sister, thirteen years old. Haynes ran toward the Rio Grande river, pursued by police, but his brother stopped them with a drawn revolver, and the murderer escaped into Mexico.

In Contempt. DENVER, July 15.—The Republican's Leadville special says: The mayor and city council were arrested to-day and fined \$250 each and ten days in jail for contempt of court. The police judge and city attorney were removed and new men appointed in their place.

Not Drowned as Reported. MILWAUKEE, July 15.—A dispatch received here denies that F. B. Pond, of the Turf, Field and Farm, was drowned, as lately reported, and that he is well at Stevens' Point.

Egyptian War News—Bright Resigns. LONDON, July 15.—Bright's resignation was communicated to the Queen to-day. The Pall Mall Gazette says Bright's resignation is not likely to be followed by that of any of his colleagues.

Mr. Bright has been absent from the House during all the discussions on the Egyptian crisis, and his resignation was generally expected on account of language he has generally held on the subject of war and armed intervention in affairs of other countries.

A correspondent of the Times says: I went ashore to-day. All evidences prove the truth of the report that Egyptian gunners were directed by French and Italian artillery.

According to accounts of persons who remained in the city, bands of murderers during and after bombardment forced their way into almost every house, plundering and burning. Scarcely a European dwelling was spared.

British ships are at the entrance to Suez Canal, ready to enter at a moment's notice from home. Advice from Cairo state a sanguinary revolution prevails there despite endeavors of authorities to maintain order. The German consul is preparing to leave with his countrymen. The Italian consul advises his countrymen to go to Ismailia.

ALEXANDRIA, July 16.—It is reported that Arabi Pasha is awaiting reinforcements from Cairo. Firing was heard outside the town during the night. All available marines and soldiers were sent to the front last evening in expectation that Arabi Pasha would attempt to enter the city.

ALEXANDRIA, July 15.—American marines were the first to land and restore order. The Germans followed. Both landed without any political instructions from their respective governments. All vessels in the harbor, except those of Austria and Greece, landed men. A famine is apprehended, also an epidemic on account of unburied dead. Arabi Pasha appropriated \$25,000 from the custom house before leaving.

San Francisco Dispatches. The steamship Gaelic, which sailed yesterday for Hong Kong, carried away about 75 Chinese passengers. Among the latter was the celebrated giant Chang Chihang, who for years past has been attached to Barnum's show, and who returns to the land of his birth loaded with many shekels. Chang Chihang is one of the largest living giants. He stands eight feet and six inches high, and weighs 600 pounds. A bunk had to be constructed for his special accommodation.

The Escambia wrecking company was incorporated yesterday: capital stock, \$25,000, of which \$16,125 has already been subscribed. The object is to raise the sunken steamship Escambia. The company proposes to commence operations to-morrow.

Bonds have been given in the sum of \$4000 in the case British steamer Cairnmar held in custody of Marshal Drew for an infringement of the law regulating passenger berths, and the vessel released from her berth. Four British steamers, the Anjer Head, Serapis, Strathgairn and Cairnmar, at present in this port are libeled in various amounts for irregular construction of berths.

Senator Kellogg, and he became very much irritated at it. He finally decided upon a determined course. He took a carriage, went to the White House, and had a confidential talk with the President. He said: "I want this thing stopped right now. If you propose to let that man Bliss go ahead and indict on testimony of that damned scoundrel Walsh, I will resign my seat in the Senate quicker than a flash. That will leave your Senate in the hands of Democrats." He explained to the President his connection with Walsh, and said it was perfectly legitimate. He had borrowed money of him as a broker, and their relations were such as would be justified in holding with a broker. "Now," said Kellogg, "I did not come up to threaten, or anything of that sort; I merely show you the position I take. If this thing goes any further, I resign." This is given as one of the explanations for the sudden dropping of the case. Walsh is not satisfied with his position of a discredited witness, and he has prepared a statement for general publication, in which he reviews the history of J. B. Price as far as his connection with it is concerned, and as far as his knowledge of the alleged connection of Senator Kellogg with the case reaches. The substance of Walsh's public statement is this:

The route between San Antonio, Texas, and Corpus Christi was expedited, and for this expedition the postoffice department agreed to pay \$20,000 a year for four years; that the first sum of \$20,000 to pay for expedition was drawn by Price in five drafts of \$3000 each and by another draft or note of \$5000; that these were deposited with Walsh, who was then a banker in the city of Washington, for collection, with instructions to pay one half of the proceeds to Senator Kellogg and the other half to Thos. J. Brady; that Walsh did collect the drafts and place the money, one half to the credit of these parties, who each drew for their share by check; that Walsh, that correspondence passed between Walsh and these parties in the shape of letters and telegrams, and that the latter transaction appears in the papers which Walsh now has in his possession; that these papers which are originals, show conclusively, independent of Walsh's testimony, that the money was drawn from the Treasury of the United States on account of service on the route between Corpus Christi and San Antonio, and that \$10,000 of it was paid to Brady and \$10,000 to Senator Kellogg.

Postal Changes. WASHINGTON, July 17.—Established: Arthur King county, W. T., Charles O. Russell, P. M.; Hardison, Kluckit county, W. T., James W. Hardison, P. M.; Mount Baker, Whatcom county, W. T., Milton B. Cook, P. M.; Stephens, Spokane county, W. T., Mary Clarke, P. M.; discontinued: Cottage Glen, Yakima county, W. T.; Hiko, Clallam county, W. T.

San Francisco Dispatches. SAN FRANCISCO, July 17.—Several vessels are overdue at this port. The ship Davy Crockett, from New York, is overdue some 25 days; and the British ship Theobald is out 216 days from Philadelphia. She has never been spoken, and as she should have accomplished the voyage in 150 days, her chances for ever coming are considered slim by shipping men. She carried a load of general merchandise. The British ship Hermes is now out from Glasgow 226 days. She should have made the trip in 125 days. She was last spoken off Rathlin. Rumors of her burning at sea have been officially denied and chances of her ever reaching her destination are about equal to those of the Theobald.

The cargo of the wooden bark Rowell Sprague, lying in Mission bay, has been removed, and repairs on the vessel will soon commence. Fire broke out this morning in a row of wooden buildings near the corner of Market and Spear streets. The firemen had a hard battle with the flames before subduing them. The fire lasted over an hour, during which a number of buildings were destroyed. Loss will probably reach \$50,000; partially insured.

It is learned on good authority that President Arthur and several members of his cabinet expect to visit the Colorado mining exposition, which will open at Denver on August 1st. From Denver it is stated the presidential party will proceed to San Francisco by way of the southern route.

The British sea tramp Malabar arrived to-day from Hongkong. She brings 795 Chinese passengers. The vessel has been temporarily quarantined, pending inspection of passengers by health officers.

Going to the Races. NEW YORK, July 17.—The Times has the following: President Arthur has decided to spend his approaching vacation at Coney Island. He is to have a suite of rooms at the Oriental hotel and will probably occupy them for several weeks. Ex-Senator Platt spent yesterday at the seaside, and he said he was making the preliminary arrangements for the President's accommodation. He looked carefully through the hotel, accompanied by his wife, noting carefully the good points of various rooms of the house.

Mrs. Lincoln's Sanity. SPRINGFIELD, Ill., July 17.—It is generally believed by Mrs. Lincoln's friends that her reason was seriously disturbed by the assassination of her husband. She became possessed of some very peculiar whims; among others was the idea that she would suddenly come to want, and she could not be shaken in this belief, despite the fact that she had \$90,000 and was entirely free from debt. Another queer fancy she had was for accumulating window curtains, and while staying at a hotel in Chicago, without any idea of again living in a house of her own, she had piled up over her room over sixty pairs of window curtains.

Too Much of a Good Thing. CINCINNATI, July 17.—The arrival of 250 Jewish Russian refugees, sent here in a starved condition and without a word of notice to the Jewish relief committee of this city, created considerable indignation among Israelites, who have notified the committees in London and Hamburg to send no more here.

Indian Sun Dance. LITTLE ROCK, July 17.—An Indian Territory dispatch says the Cheyenne sun dance is progressing with great trials of physical endurance. Young bucks cut slits down their backs and run sticks through. A rope is tied to the sticks and fastened to a pony. The pony is driven off and tears strips from the back, and the strips are thrown at the foot of a pole in the centre of the camp. Ceremonies to the sun continue three days.

East of Gardfield. PAINESVILLE, Ohio, July 17.—Preston Powers, of Italy, has just completed a model for a boat of Gardfield, from a photograph by Tibbals, being the same one used on the five cent postage stamp. Mrs. Gardfield and the late President's mother were here yesterday to view the work and pronounced it beyond criticism. Mr. Powers started for the East with the cast to-night, from whence it will be taken to Italy to be cut in marble. It is to be life size and one of the finest ever brought to this country.

From Central America. PANAMA, July 8.—The revolution in Ecuador continues to progress. Alford, the revolutionary leader, has declared that he will shoot all officers that he may capture who fight for Veintemala, the actual president. He asserts that in sustaining a dictatorship they become traitors to their country, and, as such, deserve death. Ambato, a large city on the road from Guayaquil to Quito, has

fallen into their hands. All hopes of foreign intervention seems to have died out in Peru.

A serious railway accident occurred on Tall railway on June 15th, in which ten lives were lost, and property valued at \$15,000 was destroyed.

Egyptian War Notes. ALEXANDRIA, July 17.—Advices are received at the palace that Arabi Pasha has dispatched the under secretary of war to Cairo to bring up immediately all available troops, and that he is busily intruding at Khedive Dwar. He evidently means to fight there.

The latest news is that Arabi Pasha has 6000 infantry, 36 guns, 400 cavalry, one rocket and one gatling battery. He also has a large body of irregulars. Order is very loosely kept and he was obliged yesterday to shoot 20 Bedouins for robbing his soldiers of plunder they had taken at Alexandria.

Americans Render Assistance. Americans did excellent service in checking the fire. Indeed, they arrested it altogether at several points. They went aboard their vessels last night, but a fresh party landed to-day. All action taken is in the name of the khedive, who only sanctioned the order for shooting and flogging incendiaries after considerable pressure.

One of the results of shops being broken into in demoralization of soldiers and sailors. One American sailor was cut down to-day by his officer, Lieut. Graham, for bad behavior. Refugees continue to be found in large numbers. To-day many American houses were blown up by English and Americans, in order to stop the fire.

Seymour Takes Full Control. ALEXANDRIA, July 17.—Admiral Seymour has issued a manifesto, announcing that he has undertaken with consent of the Egyptian government restoration of order, and nobody is allowed to leave town after sunset.

Several fresh fires occurred last night. Troops from the troop ship Tenaire are disembarking and will raise the total British force to 6000 men.

LONDON, July 16.—The Observer to-day says that the torpedo boats at Devonport are ordered to prepare for sea. It is believed they will patrol the Suez canal. They are capable of speed of 24 miles per hour. It is intended to send to Egypt a reserve squadron under the Duke of Edinburgh.

NICOMEDIA, Cyprus, July 16.—The Agincourt, Salamis and Northumberland, the last with 700 men, and the hired transport Nerissa, with Maj. Gen. Allison, sailed for Egypt Saturday. The Lunar, with 91 marines, arrived at Limassol during the night and started for Alexandria.

France Will Assist. PARIS, July 17.—The cabinet council has resolved to accept the invitation to protect the Suez canal jointly with England.

The Egyptian War. ALEXANDRIA, July 18.—Arabi Pasha has out the telegraph which connected him with the palace and by which the ministry constantly communicated with him, and messengers also have been pacing to and fro with documents. The British outposts stopped an Egyptian officer bearing the khedive's dismissal of Arabi, which perforce has not reached the palace. The authorities allege that they can find nobody willing to convey a document to Arabi, as he would probably behead any officer bearing his dismissal.

LATER.—The khedive has found an officer willing to undertake to carry a decree for Arabi Pasha's dismissal to his camp. Ravages continue to be found. The offer of rations, which Admiral Seymour has made to each Egyptian soldier as a choice to return to their allegiance to the khedive, will be a considerable inducement to loyalty, and will increase the staff available for sanitary operations. A large number of dead bodies were buried to-day.

Americans have stopped the fire at several points. They went aboard their vessels last night, but a fresh party was landed to-day. Arabi Pasha's army is strongly posted, and all Bedouins lately hovering around the city have disappeared.

ALEXANDRIA, July 18.—Ramelh will not be occupied, and five hundred marines will occupy seven different centers guarding the whole town. Native police are organizing to aid military detectives in searching for suspicious persons.

Very few houses are now on fire. Refugees from Cairo report a holy war being proclaimed and Europeans being massacred in Tautuh, Mansurah and Seagraig. A consul has been killed at the latter place.

ROME, July 18.—Government has ordered the men-of-war Barbaric, Colona and Rapido to hold themselves in readiness to escort Italian merchant vessels through the Suez canal.

LONDON, July 18.—A leading editorial article in the Morning Post says the behavior of the American admiral and his men at Alexandria is beyond all praise.

Post editorial: Amid diplomatic protests, European concerns and conferences, and naval demonstrations of imbecility, it is refreshing to find a commander who is able and willing on his own account to say what he thinks, and do what he says. Sixty marines physically speaking, could not do much, but there is a way of giving support which quadruples its value. The conduct of the Americans during the night of the alarm that Arabi Pasha was coming contrasts remarkably with that of French and Italians.

NEW EVERY WEEK. Oregon Kidney Tea. From the multitude of certificates received from well known citizens who have been benefited by the use of this remedy, the proprietors, Messrs. Holge, Davis & Co., have contracted to publish two new ones each week for the year ending April 1, 1883, that all our readers may see the great benefits it has conferred on the afflicted.

INDEPENDENCE, Or., Dec. 13, 1879. Both myself and wife have been for some years afflicted with disease of the Kidney, and had tried many remedies without obtaining any permanent relief. About three months ago we were induced to try a package of the Oregon Kidney Tea, which has apparently entirely cured both of us, as since taking it two weeks we have felt no symptoms of the disease. We can heartily recommend it to others similarly afflicted, as we believe it will do all that is claimed for it.

M. L. WHITE. ASTORIA, Or., Dec. 28, 1879. I take pleasure in testifying to the merits of the Oregon Kidney Tea. For the past three years I have been suffering from Kidney troubles, and during the time have tried nearly every kind of Kidney medicine in the market, almost without relief. Having heard that the Oregon Kidney Tea possessed wonderful properties, I purchased a package, and from the first obtained relief, and by the use of the one package feel completely cured.

SAMUEL GRAY. General Crook has been assigned to duty in Arizona and is the reason given for General Howard's appointment to the department of the Platte.

"Ruchungaba." Quick, complete cure, all show long Kidney, Bladder and Urinary Diseases. H. Druggist.

D. M. OSBORNE & CO., Harvesting Machinery,

Agents in all the Principal Towns of Oregon and Washington Territory and Western Idaho.

FACTORY AT AUBURN, NEW YORK.

WE OFFER FOR THE HARVEST OF 1882 THE MOST COMPLETE AND LATEST IMPROVED MACHINERY OF ANY HOUSE on the Pacific Coast. Our Combined Twine and Wire Self Binding Harvester, for 1882,

is not only the most perfect machine offered to the Farmers of Oregon, but it is the cheapest, as it places the Farmer in an Independent position, enabling him to use either TWINE OR WIRE, whichever may be the cheapest.

- Our No. 6 Combined Reaper and Mower, Has no equal as a Combined Machine.
Our No. 3 Independent Reaper, Cuts 5 Feet, Is light, durable and easily operated, none equal it as an Independent Reaper, just the same for small farmers.
Our No. 8 Independent Reaper, In the same as the No. 3 except in width of cut, which is only 4 feet, it is light, cheap and just the thing for small farmers.
Our No. 1 Mower, is Front Cut, 4 feet and 3 inches in width and is so well known that it needs no praise.
Our No. 5 is Rear Cut, Cuts Four feet and three inch swath and the favorite.
Our No. 2 is Front Cut, year, all giving perfect satisfaction. No other mower in Oregon has met with equal success.
We have a large stock of both Wire and Twine which will be sold at market rates.
Our stock of Extras is complete and we are prepared to furnish duplicate parts to any OSBORNE machine sold in our Territory, and at our published list price, which is 25 per cent lower than any other house on the Pacific Coast.
Thanking our friends for their generous patronage in the past, we invite their future attention.

Send for Circulars and Price-List. D. M. OSBORNE & CO.,

ACME FRUIT DRYER,

This is a cut of the complete Dryer with all its extensions and ways of using heat, though it cannot show how it uses the heat over and over and regulates it in the most perfect manner.

R. E. Burns, the inventor, having sold all the counties of California and taken the gold medal in competition over all other methods of evaporating fruit, is now visiting Oregon and Washington to introduce his dryer and dispose of county rights.

All who see it pronounce it superior to any known method and the greatest fruit growers in California say it excels all the others. Mr. Burns is now at Walla Walla and will return to this valley and visit Salem about the first of August. He has already sold Multnomah and Clackamas counties.

J.B. CONGLE & CO.,

110 Front Street, East Side, Portland, Oregon. Again in Business. MANUFACTURERS AND IMPORTERS OF Saddles, Harness, Bridles, Whips, Saddlery Hardware, Etc., Etc. Repairing Neatly and Promptly Attended to.
