

Commercial

MARKET REPORT.

SOME PRODUCE MARKET. The following represent wholesale rates from producers or first hands:

WHEAT.—In jobbing lots standard brands, \$1.75@5.00; best country brands, \$4.25@5.75. WHEAT.—Valley \$1.58@1.60; Walla Walla, \$1.60 for new crop; 57 to 60 cents net to farmer a bushel at Walla Walla and near points.

difference was in the quality. Any man who uses care and judgment can have good wool and grow heavy fleeces, if he really wishes to, but even wool won't grow without it is planted and carefully cultivated.

Reviewed and corrected weekly by J. B. Knapp, produce commission dealer 267 First street, Portland, Oregon:

Wheat may fairly be quoted here at \$1.60. Yesterday's telegrams from Europe report a decline in the English markets, owing to very favorable harvest weather, which secures their own crops in good condition. The indications are that the new crop here may open a little under \$1.60.

Oats.—A little advance in San Francisco has given a better tone to this market, without materially advancing the rates; quotable for fair quality, 50@52; choice white, 54@56c. Bacon has advanced 1c, owing to demand and shipment to San Francisco.

in face of the prospects, holders will not sell unless at an advance. Brewers are turning their attention to old hops, and several hundred pockets of the best of those that are left are now in consumption at fall rates, or have been taken by brewers as a slight cover in case the crop should turn out as bad as the present condition of the vine predicts.

Philadelphia Wool Market. PHILADELPHIA, July 25.—Wool steady and in good demand. Medium washed combings and delaine, 47 1/2@48c; New Mexican and Colorado medium, 27@28c; coarse carpet wool, 22@23c; other grades unchanged.

RESTLESSNESS at night, nervous twitching, nightmare, etc., give way to peaceful slumber, nature's sweet restorer, by using Pfander's Oregon Balm.

GENERAL CROP PROSPECTS. COLUMBUS, July 24.—The Board of Agriculture gives the following estimate from 1,120 reports from correspondents.

Wheat, 100 per cent, or 39,283,000 bushels against 37,881,000 last year; corn, 90 per cent, or 66 1/2 millions bushels, against 74 millions in 1881, and 85 1/2 millions in 1880; barley, 90 per cent; oats, 112; timothy hay, 131; clover, 97; pastures, 123; potatoes, 137; tobacco, 85; apples, 37; pears, 40; peaches, 38; grapes, 84.

Wheat.—The market is dull; buyers and sellers disagree; \$1.70 is bid for choice shipping; \$1.72@1.73 for extra choice milling. Barley.—Market is firm with a good demand, \$1.27@1.35; sales No. 1 feed July, \$1.31@1.32.

TOPEKA, July 21.—The estimated wheat crop of Kansas this year amounts to thirty-million bushels; quality, first class, the greater portion grading No. 2.

WASHINGTON, July 20.—The completed report of the Department of Agriculture on the condition of crops for July shows there is an increased area of potatoes in nearly every State and Territory—the natural effect of high prices.

CHICAGO, July 26. Wheat—99c, August. Pork—\$21, August. Lard—\$12 1/2, August.

CHICAGO, July 26. Floating cargoes—Dull. Cargoes on passage—About 6d cheaper. Mark Lane—Slow.

ST. LOUIS, July 25.—The Secretary of the Dallas (Texas) Board of Trade makes the following report for Northern Texas: Copious rains have fallen all over North Texas.
