ALEXANDRIA, Ang. 5 —In a reconnoissance Thursday breastworks were found finished on a point on Mahmoudieh canal, already occu-pied by the British picket. It is clear that Pashs intends to remain on the Arabi Pasis real resistance will be at Kafr el Dwar. We could have skirmishes every day if Gen. Allison allowed the English to amuse themselves, but he has forbidden mere pot-ting of Arabi's men who appear within range The health of the troops is excellent, only one and a half per cent being sick. Affairs at Port Said are quiet. On Tue-day a quarter of a million pounds for service debt was collected in the provinces in obedience to the orders of Arabi Pa-ha. A Bedonin sheikh states that Arabi has about 20 000 Bedonins, who will be sent to various parts on the coast. The sheikh also says Arabi is in communica The sheikh also says Arabi is in communica-tion with the false prophet of Soularn, and that when beaten he will not retire to Cairo, but to Wah el Dakhel. Adda, who has just arrived from Cairo, states that there is a counarrived from Cairo, states that there is a council of war every evening at the ministry of war in cairo. At 5 o'clock this afternoon the British troops with a number of field guns served by sailors, attacked the advance guard of Arabi Pasta near Ramleh, between the canal and

oanal, and the South Staffordshire regiment and mounted infantry upon the east bank. The enemy were driven in from all their advanced ports and compelled to bring into action all their troops available in front of their principal line of intrenchments at Kafrel Dwar, namely, about four battellons of integrations of i el Dwar, namely, about four battalions of in-fantry, a force of cavalry and several guns. The latter were completely silenced by the accurate fire of our 40 pounders. The Egyptian infantry held their ground with considian infantry held their ground with considerable steadiness, but the mariners on the railread, who were under the immediate command of Gen. Allison, pushed the enemy back upon their second line of intrenchments toward Kafrel Dwar. The mariners were supported by the South Staffordshire regiment and rifles. They suffered somewhat, but behaved with the greatest calmness and steadings. ness under the heavy fire. The object of the British operations, which was to compel the enemy to display what force and what guns they had in front of their main position, was npletely attained. This was ascertained nightfall, when the British were slowly by nightfall, when the Driven west return and steadily withdrawn. No accurate return of killed and wounded is as yet attainable. The enemy's loss is unknown. A large num-ber of the wounded fell into the hands of the British and many dead were seen. A considerable number of the enemy were made pris-

oners.

The losses of the enemy appear to have been very great, and they were so dispirited that, contrary to the usual practice of Asiatics, they made no attempt to follow up our withdrawal. As a reconnoissance the success of our move was all I could wish. I repret to state our loss was somewhat heavy. Lieut. Vyse was one of the most promising officers I ever met. Our total loss was four killed and

Yellow Fever Increasing.

GALVESTON, Aug. 5 — The quarantine offi-cer reports the arrival of the schooner Henrietta from Brazos, and two suspicious cases of sickness aboard. The vessel was ordered under strict quarantine, and quarantine declared against Matamoras, Brownsville, Brazos and antingo.

LAREDO, Tex., Aug. 5.—The prevailing increasing

fever at Matamoras is reported as increasing and seven deaths occurred to-day. There is no exact account of the total number of cases no exact account of the total number of cases but they are reported as between 300 and 400. The disease prevails among the higher classes as well as among the lower. There has been a number of deaths among farmers. Many stores are only open part of the day, which gives the city a very desolate appearance. Last night Manana Flores, a Mexican druggist, the first case of fever in Brownsville, died. He was taken in a cart to the graveyard and buried this morning. A case in the garrison at Ft. Brown died this morning. His name was Busting and he belonged in the garrison at Ft. Both officials were notified that the treaty with Corea was not ratified, and to govern themselves accordingly.

Russia and England at Outs.

St. Peter-sure, Aug. 5.—There is no longer any doubt that a divergence of views exists between England and Russia, which will exercise a very prejudicial influence upon all attempts to harmonize English action in Egypt with the legitimate rights and wishes of the powers. It is not unlikely this divergence will lead to a brake of the conference at an early date without any tangible result.

CON-TANTINOPLE, August 6.—At sitting of
the conference vesterday the British ambassador accepted the principle of collective protection of the Suez canal. The French ambassedor was forced to reserve his opinion, owing to the political crisis in Paris. The other delegates, including the Turkish, reported in favor of collective protection with the modification that there should only be provisional supervision of the canal. Lord Dufferin again insisted upon the preclamation of Arabi Pasha as a rebel. He points out the fact that rumors prevail in Egypt that the suitan protected Arabi Pasha and would send troops to drive out the English. He further called attention to the fact that the porte had not yet given a written state-ment of its adhesion to the identical note, and said England might regard delay as actual re

Smalley's Opinion.

NEW YORK, Aug. 7.—Smalley, the Trib-une's London correspondent, gives the true inwardness of the Egyptian embroglio. He writes: "Arabi Pasha is nothing more nor less than an uncornpulous military adventurer, with an army largely made up of ex-con-victs and other criminals. His object is in conduct at the battle of Five Forks he has to render the meeting both highly profitable showed signs of great mental depression. wicts and other criminals. His object is married to establish a military despotism in Egypt for the benefit of himself and his followers. To put down such an adventurer and to establish the authority of law again are to work directly in favor of a better future for Egypt, and this is giving the true national party in that country a chance."

This county lies west of the Columbia river, extending from the Cascade range to that river on the east and bounded south by Klickitat county. It is becoming more an attraction to settlers as it acquires transportation facilities, and an exchange describes it in brief, as follows :

One of the sections of Eastern Washington which offers attraction for immigration, is Yakima county, which lies between the Columbia river, above the Snake, on the east, the Cascade range of mountains on the west, British Columbia on the north, and Klickitat county on the south, has been the paradise of the stock raiser. The foothill valleys have furnished unequaled summer range, while the valley of Lower Yakima river has furnished a fine winter range for cattle. Lately various sections of Yakima have been tested by the grower with saiisfactory results. Until this season, however, the grower had to depend on a home market. But, now, the O. R. & N. Co. propose to carry away the products of the county at reasonable freight charges from convenient points on the Columbia, above the menth of Snake river. Acting under this stimulus the acreage of grain in the Yakima, Kittitas and other valleys has been largely increased this year, and will be multiplied ten-fold next year. The county is broken into hills and valleys, through the latter of which run sparkling streams, led by everlasting snows of the Cascade Mountains. Timber is abundant in the western portion of the country, and rich mineral deposits have been found in the foothills of the mountains. Coal is reported at several points on the eastern slop of the Cascades. -Northwestern Tribune.
