The Egyptian War.

Kassassin, Sept. 9.—The moon attack of the enemy has been repulsed, but the action still continues along the front, which extends a distance of three miles. All the tro-ps are out from the British camp, and wounded are being brought in; but the total casualties are not yet exactly known. The British loss at a rough estimate, is 100 killed and wounded. Many shells fell in the British camp before

Many shells fell in the British camp before the enemy were repulsed.

Twenty of the enemy's dead were counted near one spot. Numbers of the enemy are lying about fearfully wounded. Our wounded include 10 marines, whose wounds are serious. The Thirteenth Bengal lancers commenced the engagement and killed 10 of the enemy. They lost one sikah in the first charge. The lancers held the ground gallantly until the force arrived. Had the Highland brigade come up and supported them we could ere now have captured Tel el Kebir.

The enemy's force numbers 13,000 men with twelve guns. Five guns and many prisoners were captured. The British during the day advanced within range of Tel el Kebir.

CONSTANTINOPLE, Sept. 10.—A difficulty in regard to the final signing of the draft of the Anglo-Turkish military hinges upon the question whether troops, having arrived at Port Said, shall be allowed to disembark or be required to wait instruction from General Wolsely. The Porte claims it has proved its sincerity by proclaiming Arabi Pasha a rebel, and that it is justified in expecting an immediate signing. Now England has the temerity to turn round and accuse the Porte of disloyalty, because the Porte claims the right to land troops at Port Said. Here matters rest pending Lord Granville's instructions. Meanwhile Dervish Pasha and Baker Pasha have been ordered to defer their departure until the matter is settled. The proclamstion against Arabi Pasha has produced considerable agitation among Arabs, who generally regard Arabi Pasha is the savior of Egypt. It is believed Arabi Pasha will promulgate a counter proclamation against that Egypt. It is believed Arabi Pasha will pro-mulgate a counter proclamation against the Sultan. A dispatch from Egypt states that Arabi Pasha has expelled all Turks and Circassians from his camp.

The Star Route Bustness.

CHICAGO, Sept. 9.—The Times' Washington special says Judge Wylie's charge was dead against the defendants. For two and a half hours Hinkle and Totten fought every inch of hours Hinkle and Totten fought every inch of the way which the judge went over, seeking to avail themselves of every technicality that legal acumen could think of, and noting ex-ceptions as fast as the judge refused their prayers. They took exceptions to everything, including a citation from revised statues and the reading of Lord Bacon's letter praying for clemency. They excepted to the judge's rul-ings, and still wanted his reason therefor; also to his mention of the deficiency of appro-priation in the case of the route from Vermi-lion and Sioux Falls, and to his inference therefrom, which was that Congressmen had plenty of influence with Brady when routes plenty of influence with Brady when routes were increased or expedited, but none when

The Yellow Fever.

MATAMORAS, Sept. 9. — Within twenty-four hours there were three deaths in the city all from yellow fever. The number of persons sick continues to decrease, there not being over 50 new cases. The official report at Brownsville for the 24 hours ending at 10 A. M., shows 51 new cases and three deaths. Dr. Wolff is very low, with but little hope of recovery. Three new cases are reported in port for the last 24 hours, and one death. There are six cases all told in the garrison, which are not considered serious. A report from Camp Smith is to the effect that the camp is surrounded by water, and will be camp is surrounded by water, and will be compelled to move. Sister Mary, of the compelled to move. PENSACOLA, Sept. 10.—The board of health declares the yellow fever an epidemic. We have in 24 hours 16 new cases and three deaths. A terrific storm prevails, having continued for night and day, which threatens fatal results. One of the greatest burdens inflicted by the epidemic is the inability of merchants to collect money due, all country places having been quarantined, necessitating a general suspension of business.

Sprague Bolds the Fort.

Sprague Holds the Fort.

PROVIDENCE, Sept. 9.—In the supreme count this morning in the case of the petition of the Schaff trust-ee and the assignees of the Sprague estate for advice and assistance in the matter of the sale of Canouchet to F. D. Moulton, the petition was dismissed, thus leaving Mr. Sprague in practical possession of Canouchet indefinitely, unless ousted by proceedings at law.

edings at law. DENVER, Sept. 10,—The Utah division of the Denver and Rio Grande railway was com-pleted yesterday to Montrose on the Uncom-pahgre river, 352 miles from Denver. The link necessary to connect the Colorado and Urah systems is now reduced to 275 miles, tor which distance work is being vigorously prosecuted.

New York. Sept. 9.—The grievances of the merchants of California against the discrimination of railroads is attracting much stention in this city, and various are the schemes devised that proves profitable to all concerned, and especially to the merchants, who above all things require quick dispatch as well as low rates of transportation. Among the latest schemes is a line of auxillary steamers from this port to San Francisco with a general cargo; thence to Liverpool with the differences between Turkey and Greece are unarranged, and the port of the scheme is to form a company and build two steamers as an experiment, having a capacity of three thousand tons exclusive of ocal; these vessels to have compound engines capable of driving the ship eight knots per hour, consuming 12

tons of coal per day. It is estimated that a steamer can make the trip to San Francisco through the Straits of Magellen in 90 days, and that the average rate of freight would be \$10 per ton. Already this scheme has been mentioned to a prominent subuilder down East, and he agrees to build such a vessel and take at least \$100,000 of capital stock of the company. The idea is finding much favor with zertain parties begg, and it is proposed to send representatives to San Francisco at an early day to lay plans before the merchanta and ask their assistance, which in view of their varied complaints against railroads it is

Pennsylvania Politics.

PHILADELPHIA, Sept. 11.—A very interest ing bit of political news has leaked out. Men woo have been leaders of the Republican party have concluded that Beaver is hopelessly beaten for Governor. Gov. Hoyt has been in town talking over the situation with Matthew O Quay, who has been heretofore the organ-izer of the Cameron forces, and both these gentlemen have told t eir friends that Beagentermen have told t eir friends that Beaver's canvass, so far, has proved a failure, and that he has no chance for election. Governor Hoyt was heard to say emphatically that on election day Beaver wouldn't even be in the faild. There is the same of the sam field. There is a plan on foot with which Hoyt is to sympathy, to withdraw Beaver and put up a new ticket which the Independents

put up a new ticker which the Independents can support. A conference of stalwarts is to be held for that purpose to morrow. The idea is to have the Independent ticket withdrawn, to throw Don Cameror overboard and make the new ticket, in which his wishes shall be entirely ignored. Both Hoytand Quay are secretly rejoicing at the sure defeat of Beaver as ensuring an early downfall of Cameron, and although they cannot go into the movement actively they personally favor a new ticket. But there is not one chance in a hundred that anything can be done.

The eampaign begins in earnest this week, heretofore Beaver has had it all his own way Had been ranting all over the State. Now he must contend with Stewart and Patterson. Gov. Hoyt's prophecy of Beaver's defeat is

Howell is not likely to accept the challenge, but may be thrashed openly, as Reno is very mad, and a much larger man than Howell.

The Egyptian Was.

Kassassus, Sept. 10.—Saturday's repulse of Arabi Fasha is regarded as a complete success for the English, who had never calculated upon his attacking them in such a manner. The enemy did not retire until the English infantry advanced. Arabi left about 200 dead and wounded on the field.

KASSASSIN, Sept. 10.—It was not through any fault of the rebel leaders that the attack yesterday by Arabi Pasha was unsuccessful. For a quarter of an hour the position of the English force and camp looked exceedingly critical, as the infantry were in danger of being outflanked. The commanding positions were all in the enemy's hands, while line after line of his cavalry and infantry were seen were all in the enemy's names, while the atter-line of his cavalry and infantry were seen crossing the sand hills. General Lowe came to toe relief of the British infantry with a cavalry force, and, threatening the enemy's left, forced him to desist from continuing his flanking movements. The rebel cavalry fell back, and for half an hour each endeavored to get around the other. When the enemy back, and for half an hour each endeavored to get around the other. When the enemy saw their guns taken they haited and made a show of advance as if to recapture them, but a volley from the marines dissipated the idea, and they continued their retreat.

Australian Mails Destroyed.

New York, Sep. 12.—At half past 9 this morning fire was discovered in the mail room of the steamship Alaska, where 300 sacks of mail matter from Australia which arrived here from San Francisco Monday, had been deposited on the afternoon of that day. Ten sacks of newspapers and two of letters had been partly destroyed before the fire was discovered. As a gold watch and two or three sovereigns were found among the ashes, it is believed that a portion of the registered mail was consumed. As the mail room was in the center of the vessel and is lined with iron, was consumed. As the mail room was in the center of the vessel and is lined with iron, and was moreover properly secured, it is believed the fire was caused by some combustible matter enclosed in one of the sacks. As the mail sacks from Australia for Great Britain are not opened in transit through the United States the presence of the dangerous article cannot be detected here. Most of the injured mail matter was made up at Swdney. injured mail matter was made up at Sydney. New South Wales.

#### The Yellow Fever.

PENSACOLA, Sept. 11.—10-day is the most discouraging since the fever made its appearance. Gloom seems to pervade every quarter of the city. New York, Sept. 12.—The Herald's special says of Maine: Enough is told to show that the Greenbackers, who long have corrupted politics and common sense in the State, have gone back to their original folds. The principal result to the nation of the election will probably be that Maine will not longer have two Congressman who will muddle public business to the best of their ability by measuring the general interest by the Greenbacker's standard. Another result is the suggestion that Maine does not need to be Republican in order to remain away from the polls on a order to remain away from the polls on a

From the multitude of certificates received from well known citizens who have been bentors, Messrs. Hodge, Davis & Co., have contracted to publish two new ones each week for the year ending April 1, 1883, that all our readers may see the great benefits it has conferred on the afflicted.

Hightand, Clackamas County, Or., March 20, 1880.

I have suffered with a disease of the kidneys for 6 or 7 years, and, for the last two months, have been laid up with a pain in my back. A friend sent me a sample of the Oregon Kidney Tea, and having used it one week I can do a good day's work. I have derived more benefit from it than from all the medicines I have ever taken.
