A Desperate Mob.

EVANSVILLE, Ind., Oct. 11.—The mob which took Hume Redman from the jail and lynched him last night, were opposed in every possible way by the jailer and sheriff, but were not deterred by the actual firing of pistols in their midst. They said when ordered to halt: "We are from Posey county and come after Redman and we are going to have him. When the mob had full possession of the murderer they placed him in a buggy, which was at once overturned by a wagon dashing into it. They then decided to kill him on the spot, and one dealt him a powerful blow on the head, felling him to the ground. A large force of police arrived at this moment and the mob fled in confusion, which retreated firing. The fight was lively and none of the lawless mob could be captured. The result of the battle was that Redman was killed. Over 24 balls were in his body. David Murphy, brother-in-law of the murdered woman, was also killed. The mob separated quickly when Murphy fell. Two men were arrested, but learned later that he was the leader. Dave McFadden, the brother of the murdered woman, was also arrested. All were heavily armed. They numbered some 50 in all.

Hamilton County's Vote.

CINCINNATI, Oct. 12.—Complete but unofficial returns from Hamilton county show the following Democratic majorities: Newman, secretary of state, 10,650; Okey, judge of the supreme court, 9809; Weiler, superintendent of the board of public works, 9754; Hamilton, sheriff, 11; Dalton, clerk, 937; Pugh, prosecuting attorney, 2936; Muscott, coroner, 2644; Robinson, recorder, 2728; Kohl, county commissioner, 3177; Congrove, county solicitor, 355; Fowler, board of control, 3569; Applegate, military director, 381; Follett, Congress, 1st district, 839; Jordan, 2nd district, 1763. The Republicans claim the election of Beresford, sheriff.

Horrible Murder.

CHICAGO, Oct. 11.—The Inter-Ocean's Wahaca, Wis., special says a daring murder and bank robbery occurred here last night. The victim was H. C. Mead, a wealthy banker, in business here 30 years. He was shot at six yards, slumped in the bank and boarded at the hotel. This morning he failed to appear at breakfast and at dinner. A messenger sent to the bank found it locked. Going back a window was discovered with the screen out. The window was let down from the top and Mead was discovered lying in a pool of blood on the floor. Investigation showed his head and face horribly mangled with shot, as if double-barreled gun had been discharged at him from short range. It is supposed the assassin shot from the window while he was sitting at the table writing. The safe had not been locked and the assassin carried off several thousand dollars in currency, gold and bonds. The exact amount is not known. No clue to the murderers.

A Pointed Letter.

WASHINGTON, Oct. 11.—Foreman Dickson, of the star route jury has sent the following communication to District Attorney Corkhill: To Geo. B. Corkhill, U. S. district attorney, District of Columbia.—DEAR SIR: I am informed you have been ordered by the attorney general to hand to H. H. Wells the affidavits filed by myself and others in your office in which certain persons are charged with having tried to corrupt the jury in the star route case. I am also informed you have complied with this order. I write for the purpose of protesting against your action and that of the attorney general. Most serious charges have been made against the agents of the department of justice, creatures of the attorney general, and nothing could be more absurd than to allow that department to investigate the charges which so nearly touch his official conduct, and the fact that he wishes to take charge of the investigation is the best reason why he should not. The investigation might with equal propriety be conducted by the district attorney, or to the persons charged with having offered bribes or to the jurors suspected of having accepted them. The investigation should be made under the direction of the court before whom the case was tried and by the attorney for this district. It should be open as the day and all parties should have not only an opportunity of being heard, but also of hearing. For one I trust that this investigation be taken out of interested parties' hands. I am, sir, very respectfully yours, WM. DICKSON.

Not to Give Up.

BUFFALO, Oct. 11.—The officers of the Irish National Land League of America have issued a circular, which says that the statement having been made that the land league no longer exists, it calls for an emphatic protest from Ireland and its collaborators at its head. It continues: "Till its mission is accomplished, let no friend of Ireland be misled; let every one who ever believed in its purpose or contributed to its success rally to its support and stand hopeful, until its final triumph is assured."

Newly, but Good.

COLUMBUS, Oct. 13.—Returns from fifty counties on the election Tuesday, show a net Democratic gain of 35,200. Thirty-eight counties to hear from will increase the Democratic majority to about 20,000. The Democratic gain in Cuyahoga, Franklin, Hamilton, and Montgomery counties, exceeding Foster's majority last year. The congressional delegation is likely to stand 14 Democrats to 7 Republicans. Unofficial returns elect Hartie, Republican, over Neal by 15 votes; Morry, Republican, over Campbell by 42 votes. The Democrats claim Wallace over McKinley by 41 votes. Stark county has not been officially heard from.

Hubbard's Influence.

WHEELING, W. Va., Oct. 12.—Latest returns show that a sweeping political revolution has occurred in this district. General Goff, republican candidate for congress, has a majority of about 1000, a change of 3135 as compared with the vote two years ago. Even the Democratic strongholds have partially given away.

Yellow Fever.

PENSACOLA, Oct. 13.—Imperfect reports give 33 new cases of yellow fever to-day and six deaths. The total number of cases to date is 1439; total deaths, 128. Among the new cases is Dr. White, of the U. S. marine hospital service, and Dr. Renshaw, who had already recovered from an attack of the epidemic. The illness of these two practitioners, with those already sick, causes a serious lack of medical attention to the sufferers. Recent cases have been marked by an aggravated malignance.

High Priced Religion.

PHILADELPHIA, Oct. 13.—J. D. Wattles, employed to collect Sunday school statistics for the census, has been steadily at work, and recently sent a bill to Washington for \$7000 for the cost of the work, exclusive of his services. The bill was not paid, as the census appropriation is exhausted. This afternoon the United States brought a replevin suit against him for possession of sta-

tionary comprised in 100,000 documents. Security was given and the goods released.

Gas Bills Too High.

WASHINGTON, Oct. 12.—Allegations have been made that a gas clerk has embezzled a large sum by making false footings in accounts from 76 to 81. At a meeting of a finance committee of the Gas Trust Company this afternoon they ordered an investigation.

Defrauded the City.

The grand jury found an indictment against James F. Brown, an Adams' house clerk and barkeeper, and Prince A. Seel, a leather dealer, arrested in Colorado yesterday, charging them with conspiracy to defraud the city by means of false bills for supplies furnished the almshouse.

Increased Coinage.

The annual report of the Director of the Mint, which was forwarded to the Secretary of the Treasury to-day, showed a decided increase in the coinage for the twelve months ending June 30, 1887, over that of the previous year.

OHIO GOES DEMOCRATIC BY 35,000.

COLUMBUS, Oct. 10.—Returns from 290 precincts and wards show a Democratic gain of 4250; 292 precincts show a Democratic gain of 6250. If the present rate of gain continues the Democrats will have 9000 majority.

Four hundred and sixty precincts show a net Democratic gain of 8638.

Five hundred and forty-five precincts and wards show a net Democratic gain of 12,278. Reports are already received from all parts of the State and indicate a general Democratic gain. In the cities of Cincinnati, Columbus, Cleveland and Toledo the Democratic gains are large.

Six hundred and forty-one precincts show a net Democratic gain of 14,482. This indicates a Democratic majority of over 16,000 in the State.

Oct. 11.—1:15 A. M.—The Democratic central committee claim the State by 35,000.

CINCINNATI, Oct. 10.—Returns from Hamilton county so far received show constant Democratic gain, which indicates at this writing the election of the entire Democratic ticket. From the full returns received it is apparent that the Democratic State ticket has many more votes than the Congressional and county tickets.

Frank H. Hurd, Democrat, is believed to be elected to Congress in the 10th district. Emanuel Schultze, Republican, 3d district, probably elected.

At 3 o'clock 763 precincts show a net Democratic gain of 24,480, indicating a Democratic majority in the State of thirty-five thousand.

CHICAGO, Oct. 11.—The Times' Dayton special says: Republicans in this part of the state and third congressional district, have experienced an unprecedented Waterloo. The Democrats have elected everything from the top to the bottom of the ticket in this county. Montgomery, which gave a Democratic majority of 90 in the Foster campaign last Fall, runs up the figures of 1900, a net gain of 1810. Miami county shows up with a small Republican gain, not to exceed 150. Preble county about the same. R. M. Murray's majority as Democratic candidate for Congress will not be less than 200. The Democratic gain in this county over the election for secretary of state in 1881 is 93. Latest advices from Miami county indicate a Democratic gain of 300, which will make Murray's majority 500. This is from Democratic sources.

CINCINNATI, Oct. 11.—The Enquirer will claim 15 congressmen and say the victory is decisive and overwhelming and that it disposes of Foster in politics.

The Commercial attributes the disaster to the interference of Gov. Foster and Deacon Richard Smith, whereby the Gorras Republican vote was alienated.

Trouble About Hawaiian Sugar.

WASHINGTON, Oct. 11.—The question of assessing a duty upon sugar from the Hawaiian island is again before the treasury department from the collector of customs at New York. In the case in point, which is regarded as a test case, the collector had assessed the duty on a cargo of sugar from the Hawaiian islands to the amount of nearly \$200,000. Protests were filed against the assessment on the ground that sugar was exempt from duty under the provisions of the reciprocity treaty with the Hawaiian islands. It was contended on the other hand that the sugar in question did not come within the terms of the treaty, as it was of a different class from those made on the island at the time the treaty was ratified. In his report on the subject the collector of customs states that the case involves questions of fact which he cannot undertake to decide. It is probable that the question will be referred to the collector at San Francisco in order to determine whether the sugar in question is of a class to be included with the terms of the treaty.

Movements of the Union Pacific.

CHICAGO, Oct. 11.—Reports having been current for some days past that the Union Pacific had determined to build an extension to the Pacific coast in opposition to the Central Pacific, and another by the way of its new Oregon branch to the Columbia river, a Tribune representative yesterday asked Mr. S. H. Clark, general manager of the Union Pacific, what truth there was in these reports. Mr. Clark stated that there was no foundation whatever in these reports, and that no such extensions were contemplated. There was some talk about constructing a line from some point on the main line of the U. P. in Utah southwest, to join the Atlantic & Pacific, and then to build jointly to San Francisco. Since then, however, an agreement had been made with the Central Pacific by which the latter road was to be used as the Union Pacific's western outlet for a number of years, and the scheme to build an independent line has been abandoned. The Atlantic & Pacific, instead of connecting with the Union Pacific and building jointly to San Francisco, has decided to build to the Colorado river only, and then connect with the new line built by the Southern Pacific. The Oregon branch of the Union Pacific would have its terminus at Baker City, as originally proposed, and there connect with the Oregon Railway and Navigation Co.'s line. The Union Pacific's arrangements for western outlets were so complete and favorable now, said Mr. Clark, that there was no use spending money upon new and independent extensions.

Overwhelmed by a Tidal Wave.

PANAMA, Sept. 30.—An Indian from the San Blas district on the Atlantic reports that on Sept. 7th, the day the earthquake occurred, there were four tidal waves which overwhelmed six or seven little villages on the island and mainland, and drowned about 70 persons.

WANTED FOR MURDER.—Deputy Sheriff Gray, from Rock Island, on the Northern Pacific, came down yesterday on a hunt for Bill Mansfield, who is wanted for a murder he is suspected of having committed, and for whom a reward is offered. The particulars of the crime were not related other than a carpenter was found dead, with his head nearly severed from his body. Mansfield is confined in the county jail awaiting the action of the grand jury for a burglary committed a day or two since in this city. It is not probable that the Idaho officer will get his man until some disposition is made of his case here, unless it is certain that his conviction and execution for murder would be the result of an Idaho trial.

STATE NEWS.

The total amount of indebtedness of Josephine county July 1, 1887, was \$4,945 66.

W. T. Leeke will take the position as teacher of the New Indian school at Yainax.

A general cry for cordwood to keep the postoffice boiling is going up from the country newspaper offices of the State.

The Gillis party of C. P. surveyors are now running skirminish lines on the north side of the Siskiyou, in Oregon.

The Ashland district school opened last Monday with 140 pupils in attendance, and the number has been increasing every day since.

The railroad will be a godsend to the people of Astland in one respect, at least. It will enable them to ship butter and eggs from the city. Half the time it is impossible to find a pound of butter for sale in the town.

Lieut. Parke, who was recently at Fort Klamath on court martial duty, went out to the lava beds and erected a new cross to mark the spot where General Canby was killed by the Modocs. The old mark was nearly destroyed by the elements.

TERRITORIAL.

Pierce county farmers are going extensively into hop raising.

The Swinomish flats are said to be alive with wild ducks.

Judge Thomas Burke, of Seattle, has decided to build five or six comfortable cottages on his block at Lake Union within the last two months.

The policemen of Walla Walla, the chief commissioner getting \$60, the street clerk \$25, the stewards of the engine companies \$15, \$25 and \$70 each.

Some fine appearing free gold bearing and rich looking copper ore was brought to Seattle by a gentleman who refuses to give the locality of his find, but he says he is sure he has a good and a hitherto undiscovered thing of it.

The Seattle chief of police gets \$100 a month, the other policemen \$80, the clerk \$90, the stewards of the engine companies \$15, \$25 and \$70 each.

Mr. C. Peterson, while engaged in running one of the saws in the Commercial and Lumber Company's mill, Seattle, by some unexplained cause was caught by the revolving circular saw and his right hand and forearm so badly lacerated that the limb had to be amputated.

Messrs. W. H. Reeves, G. W. Young and M. B. Maddock, the board sent up through the White River Valley, to appraise the damages on the right-of-way along the line of the Seattle branch of the Northern Pacific Railroad, have returned to Seattle, and are perfectly enthusiastic over the extent and fertility of that region.

THE GLORIOUS RAIN.

The rains commenced on the first of the month and it has rained more or less every day since. Up to noon yesterday the amount of rainfall for the month was 6.66 inches. This is over half an inch per day, which is an unusually large amount, the usual average here being one-tenth of an inch per day. It has been a glorious thing for the country. The river has risen two feet eight inches, which will be a great benefit to commerce and the land has received a thorough soaking and as soon as it clears off, the farmer's boy will be merrily whistling at his plough, figuratively speaking. His merry whistle is liable to be interrupted by grunts when his plough strikes an asphetic sunflower root or "devil's shoe string." The fields are looking green again, and in the gardens of this city flowers are springing up as in the Spring and the rose bushes are laden with buds. There has been a violent storm on the coast, and hundreds of gulls driven inland by the stress of weather were seen on the river in front of the city yesterday. The sky was partially clear last evening and the stars shining, but the barometer was very low and the prospects for wind or rain good.

A LEAP IN THE DARK.—About 4 o'clock yesterday morning Police Officer Smith attempted to arrest a man whom he noticed in the habit of wandering about the streets at all hours of the night without lawful business. The fellow took to his heels and the officer gave chase. The fellow ran down Taylor street and along the lower lock, closely pursued in the darkness he fell into a slide, the officer tumbling in after him. The fall was about eight feet, and Officer Smith sustained a severe injury to his leg. As the gate was shut down there was but about three feet of margin on the slip, and it is singular that neither fell into the river. The officer made the man help him up, and then he helped the man out and took him to the station. Smith went after his game that time and got it.

MILES TRAVELED.—The joint committee appointed to ascertain the number of miles traveled in going to and returning from the Legislature for each mileage is allowed by the report Senator entitled to the following number of miles: W. R. Bilyeu, 56; Thos. E. Cuthorn, 70; Robert Clow, 28; J. W. Colvig, 350; T. W. Davenport, 30; G. B. Dorris, 150; N. H. Gates, 358; J. D. Haines, 860; Henry Hall, 800; T. G. Hendricks, 150; Sol Hirsch, 106; Enoch Hook, 110; N. B. Humphrey, 56; E. Jessup, 180; J. D. Lee, 30; John Myers, 80; S. M. Pennington, 600; P. P. Prim, 500; T. C. Reed, 320; J. B. Sifers, 808; J. M. Sighin, 500; Jos. Simon, 106; W. A. Starkweather, 88; D. W. Stearns, 280; R. H. Tyson, 160; Jacob Voorhes, 30; Wm. Waldo, 2; A. W. Waters, 106; Dunham Wright, 870; W. J. McConnell, 80.

A PITIFUL CASE.—Yesterday, Deputy Sheriff Withelred conveyed to the Insane Asylum one Michael Barry, who was brought down on Sunday from the O. R. & N. Co.'s hospital near Rooster Rock. The unfortunate man it is said was some time since severely injured about the head and his mind affected. He recovered and came to this State a few months since. While working in a tunnel on the O. R. & N. Co.'s road he was blinded and his head affected by the giant powder blasts. The poor fellow is a gay, light-hearted fellow, the life of the camp, and is now blind and insane. A truly pitiful condition. He wished to know where he was being taken and Deputy Withelred told him to a country hotel where he would be well taken care of, but he was very loth to be left there where he knew no one.

THE DAVISON'S LANDING AFFRAY.

John Rowan, who cut Jim Parrish at Davison's wood camp, near the mouth of the Tualatin river, on Tuesday evening, was examined on a charge of assault with intent to kill yesterday before Recorder Whitlock, in Oregon City, and held in \$3000 bail. The facts about the affair are as follows: Parrish, who sleeps by himself in a cabin in the camp, called at the bunk house where Rowas and two or three other choppers slept to spend the evening. They were talking about heading machines in California, and Parrish made an assertion concerning the length of a sickle which Rowas disputed or doubted. This exasperated Parrish and he tried to draw a hatchet. He then went out, making threats, and soon returned with his knife drawn, and made for Rowan, who got possession of the knife and cut his antagonist. One wound was inflicted on the right leg about eight inches long, splitting the muscle but not severing it. Another was on the forehead, from the roots of the hair and extending to the end of the nose. The third wound was a stab in the side, but the knife struck a rib, and no fatal result is looked for. The wounded man was carried to his bunk, and declined to have his boots removed. The night was dark and stormy and it was almost impossible and very dangerous to cross the river to call a doctor. Two of the workmen sat up with Parrish all night, bound up his wounds and attended to him carefully. The next morning Rowan gave himself up to sheriff Schoepa and made a full confession of his plea. It is claimed by those who were present at the time of the difficulty that Parrish was the aggressor.

A FORGER CAUGHT.—Early last evening Geo. Duffy, a member of the fraternity of Marquereaux, who live on the earnings of fallen women, entered Schwabachers store, says the Walla Walla Democrat, and applied for a blank cheque on the First National Bank, which was given him by the book-keeper. Not long afterwards Duffy went to San Lesser's and bargained for an overcoat costing \$18, and in payment tendered a check for \$120 drawn on First National Bank and signed with the firm name of Baker & Boyer. This Mr. Lesser accepted after it had been endorsed by Duffy and returned \$102 in money. Afterwards in carefully examining the check, which was dated October 13th and hundred mispelled, Mr. Lesser's suspicions were aroused and he handed up L. B. Baker, who pronounced the signature a forgery and the check worthless. Mr. Lesser, with the aid of Constable Robinson, found Duffy in Chadsey's saloon playing faro, where he had already won considerable money. He was then arrested and taken before Justice Laman for preliminary examination and in default of \$1000 bail was remanded to jail to await the action of the grand jury.

MORE THIEVING.—From all parts of the country come accounts of burglaries and robberies. Yesterday morning a store at North Yamhill was broken into and several coats stolen, and a house at Dilly was entered and \$250 in coin taken. The thieves escaped with their booty. At the various towns along the Sound and at Victoria the toughs are making it interesting for the citizens. Last evening a man applied at the station house for lodging. He said he had been working on the N. P. R. R., and while at Tacoma a few days since he was robbed of \$100, all he had in the world. Now that winter has commenced he may look out for such reports from all quarters, for there is in this State and the adjoining Territory a crowd of toughs such as has never been here before. Our citizens will do well to look to their locks, bolts and window fastenings, and it will be a good plan to keep something handy to give all unsought callers a red-hot welcome.

GOING TO TEXAS.—Messrs. R. C. Kiger, Benj. Powers and Thos. Reed, Jr., left on Wednesday morning's train, says the Corvallis Gazette, bound for the great Lone Star State. They are not going to Texas just as Dave Crockett went, nor for exactly the same purpose, but go with a view to taking their place among the stock kings of that great stock raising State. Mr. Kiger will probably return home in the course of a couple of months, after which he may make his permanent abode in Texas, while Mr. Powers, his partner, goes there to remain. Mr. Reed goes to look at the country, and may finally locate there if he likes it. Mrs. Kiger accompanied her husband as far as Portland, where she will visit her niece, Mrs. Chilcott, for a time, and will then go to Pendleton, where she will spend the winter.

A TOUGH CAUGHT.—Bill Mansfield, an ex-convict, was arrested night before last by Officers Belcher and Beach in the store of H. Wise, on First street, in the act of stealing blankets. He will be examined in the police court to-day on a charge of burglary. He is the man who is suspected of having murdered a bridge carpenter at Rock Island on the N. P. R. R. some time ago, and who was driven out by a vigilance committee. During the night of the murder a crowd of men were frequently "stood up" at night times, and the robber could not be detected. But since he left, there has been no such work going on in the localities he infested. He is a bad looking man.

NAVIGATION ON THE WILLAMETTE.—The steamer A. A. McCully arrived here, says the Corvallis Leader, about 7 o'clock Wednesday evening, the first steamer we have had since the 11th of June, which was the beginning of the low stage of water of the summer. The McCully found scant water on the way up, dragging through the gravel on all the bars between here and Salem; but there was plenty of water between here and Salem; but there was plenty of water when she left Thursday morning to enable her to take a load of over 200 tons. The greater portion of this was wheat from Blair's warehouse, the remainder being flour.

MEAT BUSINESS.—A few days since, says a Dry Creek correspondent of the Pendleton Tribune, some unknown person went into Walla Walla and hitched on to a new wagon opposite Hawley, Dodd & Co.'s store and drove off with it; went down on Mud creek, stopped there a few days, left in the night, stole a cook stove while the owner was away on a visit, went on farther and stole a man's wife and left for parts unknown. By this time, we have no doubt, he has stolen someone's ranch, as he is prepared for house-keeping.

NEW CANNING COMPANY.—Articles of incorporation of the West Shore Canning Company were filed in the office of the county clerk yesterday. The business of the company will be to can and pack all kinds of fish, meats, fruits and vegetables. The principal office will be in Portland. The capital stock is \$100,000, in shares of \$100. The incorporators are Messrs. C. H. Lewis, W. B. King and Henry Felling.
