COMMERCIAL.

THURSDAY, Jan. 4, 1883. We have had our touch of winter, and the season has justified the traditious of the country. It we pass the holidays we do not expect very cold weather after that, and if we pass she tenth of January we are prepared to expeot an open winter. Cold weather set in last Baturday. For three mornings the mercury stood at .4 degrees above zero, the coldest of the season. It was clear and beautiful, with frost enough to hold the ground frozen, and to make ice on the water. Wednesday morning we waked to find it snowing hard-a regular fine shower of snow that meant business. To-

wards noon the snowflakes became large, and

Eastern Freight Situation

inhabitants more than it will the outside world And we have but to say to the overburdened in the East, that if they want homes in a new and growing country, where ten hours of honest labor per day will yield them a competency for living, come West and cast

their lots among the people of this thriving country.—Baker City Reveille.

"Do Not Fear, You Carry Cossar," "Do Not Pear, You Carry Cossar," JL ... Said that illustrious emperor to his boatman, in the storm. And we can say to the thou-sands who are compelled to admit sorrowfully that they have some form of kidney disease. Do not fear; there is a Crear among kidney medicines. It is Hunt's Remedy, and it will cure you. Before its commanding power, cure you. Before its commanding kidney and liver ailments flee as con induces and inver aliments her as conquered enemies. Its cores are marvelous; its sway unquestioned. It reaches cases that are given up and hopeless. To all who are afflicted in stomach, bladder, kidneys or liver, we come with the encouraging cry. "Do not fear!" with the encouraging cry. "Do not there is sure relief in Hunt's Remedy.

COLORLESS AND COLD. - A young girl deep ly regretted that she was so colorless and cold. Her face was too white, and her hands and feet felt as though the blood disl not circulate. After one bottle of Hop Bitters had been taken, she was the rosie t and healthiest cirl in the town, with a vivacity and cheerf ilness of mind gratifying to her friends.

"Rough on Rats."

Hon. Philip Ritz, says the Walla Walla Statesman, has just returned from the Northern Pacific Railroad, where he has been some time superintending the planting of trees along the line of railway. He has a contract to set out trees along the road where it passes through the prairie country. He is now planting between Wallula and a point twenty miles east of Sprague. He will no doubt do same in Montana. Mr. Ritz has set out two kinds of maple, soft and hard, locust, black walnut, box elder, cherry, peach and apple. These last fruit trees he has just set out as an experiment. If these grow, thrive and bear fruit, it will be evidence of the richness of the soil and the adaptability of climate for orchard growing, which will no doubt be taken advantage of by the settlers in the Upper Country. Mr. Ritz tell us that the trees planted last year have grown rapidly and are as thrifty as they could well be. He is wholly satisfied that the experiment will be a great uccess.

> NEW EVERY WEEK. Oregon Kidney Tea.

From the multitude of certificates received rom well known citizens who have been benefitted by the use of this remedy, the proprie-tors, Messrs. Hodge, Davis & Co., have con-tracted to publish two new ones each week

NEW YORK, Jan. 3.- The clipper freight

There is favorable change in the general markets. Wheat remains firm at \$1.75 per cental, and freights are quietly weakening. There should not be much grain left m first hands by this time. As to the future, we see no reason to anticipate any important change is constitutions. Wheat is abundant, and as return to the Cape Horn route against the overland rorte. Tonnage is scarce and held firm under demand for oil. Of 34 ships in port to day but two are disengaged. The Central Pacific railroad company's new steam coliter San Pedro sailed from Delaware breakwater this morning. Her cargo is all on ac count of the company.

A Prosperous Country.

Few people in the Eastern States, or even in t e central portions of the Union, have any ad quate idea as to the extent and resources Tonnage weakens continually, but cannot of the Pacific Coast. What this region will drop much lower, as shops will take the be in the future may be somewhat outlined chances and lie up for the next harvest rather by what it is at the present time, when with not one-fourth of our land claimed or utilized,

The change in business by Mr. Kuapp and with a population of not more than oneleaves us without his valuable assistance in teat of what the country is capable of supconnection with local market reports. So we porting, our products in the way of grain, fish and fruit generally affect the markets of

not only the Atlantic States, but of a good Wheat-1, improved in price; quotations portion of Europe. And yet, many will say now stand \$1 75 per cental asked, but buyers that our country is over run; that we have all the population that the country will support,

and encouraging immigration to this country is detrimental. Here, in the Northwestern porthey offer \$1 \$2] for February, showing con Lon of our Union, especially is development necessary, and the advantages of improvement Fonsage-Runges here from 35s per ton for and the returns for capital invested is being taken advantage of by the different railroad companies that are operating in this country
